44. ——— *Suit by a Hindu entitled to possession of immoveable property on the death of a Hindu female.* One Hazari Lal died in 1856, possessed of certain immoveable property, and leaving a son, Jawahir Lal, and a widow, Chuni, surviving him. Jawahir Lal died in 1861, leaving a widow, Tarsa, and a daughter, Jhamman Kunwar. After Jawahir Lal's death the widows, Chunni and Tarsa, divided the property between them, and Chunni's share, after passing through the hands of Chandan, the daughter of Hazari Lal, came into the possession of Nand Lal and Duli Chand, the two sons of Chandan. Nand Lal and Duli Chand in 1876 sold their interest to one Jaidip Rai, who in turn made a gift thereof to his wife, Tiloki. Tarsa died in 1900, and in 1901 Jhamman Kunwar filed a suit for the recovery of the immoveable property of Hazari Lal. *Held,* that the suit was governed, as to limitation, by Art. 141 of the second Schedule to the Indian Limitation Act, 1877, and was not barred by limitation. *Runchorlas Vandravandas* v. *Parbatibai, I. iff was possessed of an estate situate on the bank of a river, and of certain chur lands which had accreted thereto. The Collector took possession of the chur lands in 1818, upon the default of the proprietor to appear to answer a claim made by Government to assess the chur land. In 1824 a suit was filed by Government under Regulation II of 1819 for the resumption of these lands, the Government officers, however, continuing to hold possession and collect the rents. In 1847 the Collector, in conformity with a general order under Act IX of 1847, "for the abatement of all suits for the resumption of alluvial lands then pending," struck off the suit and restored the lands to the possession of the zamindar. The proprietor claimed the wasilat enjoyed by the Government during his dispossession; and the Government again dispossessed him, under the assumption that the lands were an island in the river, and that the plaintiff was not entitled to them as an accretion. The plaintiff having brought a suit in 1854 to establish his right to the lands in question:—*Held*, that the statute of limitation was no answer to the suit, because the pendency of the suit for the resumption and assessment of the lands between 1824 and 1848 prevented the proprietor from commencing a suit during that period, and that during such period the limitation did not run; and, further, after that period the necessity for a suit was obviated by the restoration of the lands to the proprietor. *Held*, also, that a fresh cause of action accrued under the second ouster. The plaintiff urged that a fresh cause of action arose in consequence of some proceedings of the Government by which they made a new grant of the villages to the second defendant at an increased revenue. *Held*, that such grant would not give a new cause of action, and could not affect the time when the only cause of action arose to the plaintiff. The defendants contended that the plaintiff's predecessor in title had made a gift of the house to *A*; that he had remained in possession of it until his death: and that since then they had been in possession of the house by virtue of the gift. *Held*, that the suit was barred by limitation under Act XV of 1877, Sch. The meaning of Art. 142 is, that where there has been possession followed by a discontinuance of possession, time runs from the moment of its discontinuance, whether there has or has not been any adverse possession, and without regard to the intention with which, or the circumstances under which, possession was discontinued. 20. ——— *Possession, suit by—Privy Council, practice of—Concurrent decisions on fact—Evidence as to ownership of property held benami.* Two properties bought by a Mahomedan father in his lifetime, but held in the names of members of his family, were the subject of dispute after his death, the question being whether they belonged to his estate, so as to be divisible among the sharers in the inheritance, or had been held so that the beneficial interest in them belonged to those of his children who had been born of one of his two wives, excluding the sons born of his other wife. The Courts below decided in favour of the sons of the wife first married. As to one of the properties, they concurred in finding the facts entitling these sons alone, and the committee preferred not to depart from the general rule as to concurrent decisions on fact. As to the other property, both the Courts found that there had been a transfer from the name of the original benamidar into the name of the wife first married: but whereas the first Court found that this change was intended to give her the beneficial interest, which thenceforth belonged to her, and to her sons after her, the Appellate Court found that the transfer was simply from one benamidar to another, although after the death of the mother the property had been treated as that of her sons. Accordingly, as to this the evidence was considered, and their Lordships inclined to the view taken by the first Court. However, the title not having been clearly proved, they preferred to rest their decision on the possession found. The claimants, and their father before them, having together been out of possession for more than twelve years before action brought, limitation was an absolute bar. 21. ——— and Art. 44—*Mortgage, suit for redemption of—Equity of redemption, purchase of, by mortgagee—Adverse possession by mortgagee.* The plaintiff sued to redeem certain land which he alleged had been mortgaged by his father in 1858 to one *B*, the grandfather of the first defendant. The defendants alleged that the mortgage was executed not to *B*, but to the father of the second defendant, and that in 1863 the equity of redemption had been sold to the mortgagee by the widows of the mortgagor, the plaintiff being then a minor. The defendants contended that this suit was really to set aside the sale of 1863, and was barred by Art. 44 of the Limitation Act (XV of 1877). The second defendant also pleaded adverse possession. The plaintiff contended that the second defendant and his father had possession of the land merely as the agents or trustees of the mortgagee. *Held*, that Art. 44 of the Limitation Act did not apply, and that the suit was not barred. The necessity of impugning the sale of 1863 to the second defendant arose from the second defendant's resisting the plaintiff's claim to redeem the mortgage. *Held*, also, that the second defendant, having entered into possession as mortgagee, could not afterwards set up an adverse possession as owner so as to defeat the plaintiff's right to redeem. 2. ——— *Breach of condition—Forfeiture—Alienation by Hindu widow.* A Hindu widow, under an arrangement with her deceased husband's cousin, was in possession for life of a share of ancestral property of her husband's family, in which he jointly with the cousin had held a share in his lifetime. This share she sold as if she had held an absolute interest, and the purchaser's name was entered, instead of hers, in the revenue records; but no change of possession took place till her death. To a suit brought by the cousin's heirs to recover the property purchased from the widow, more than twelve years after the sale, but less than twelve years after the widow's death, the defence was limitation under Act IX of 1871, Sch. II, Art. 144, commencing from the date of the sale, there having been, it was alleged, "a breach of condition or forfeiture" within the meaning of that clause. By the terms of the arrangement contained in a solehnama, the widow was to have no power to alienate, and after her death her share was to belong to the cousin. *Held*, that these terms prohibited only such an alienation by the widow as would prevent the cousin's succeeding after her death, and the alienation made was good for the widow's lifetime. There was no condition against such an alienation; and if there had been there was neither any rule of law, nor anything in the words used in the solehnama, attaching forfeiture to the breach of such a condition. *Held*, accordingly, that Art. 144 did not apply, and the suit was not barred by limitation. It did not appear that any payments of the annuity had been made. The plea of limitation having been taken, the lower Courts held that the suit was within time, as the case fell within Art. 148, Sch. It was *held* in special appeal that, assuming that they were in error in so holding, the case was governed by Art. 144 and the provisions of s. 23 enabled the plaintiff to treat each failure to pay the stipulated annuity as a new breach giving a new right to

construction, with reference to the nature of the thing sued for, and not to the status, race, character, or religion of the parties to the suit; but that in exceptional cases, in which the thing sued for is of such a special and exceptional character that its nature cannot be determined without reference to the special and peculiar law of a particular sect or class, in such cases, and in such cases only, the law of such sect or class may properly be referred to as furnishing a guide to the determination of the question. The Privy Council has thus laid down a rule and an exception, and the question in every case must be whether the rule or the exception applies. The rule is that the terms "immoveable property" and "interest in immoveable property" are to be held to include, not only land and houses, and such other things as are physically incapable of being moved, but also such incorporeal hereditaments as issue out of, or are connected with, immoveable property properly so called, and which therefore savour of the realty, *e.g.*, rights of common, rights of way, and other profits *in alieno solo*, rents, pensions, and annuities secured upon land,—all these clearly constitute an interest in immoveable property. Pensions and annuities not secured upon land, houses, or the like, as clearly do not constitute such an interest. When a classification can thus be made, it ought to be so made without reference to the character of the party claiming the right. But there may be cases in which the test prescribed by the rule fails, or is very difficult of application, and then will come in the operation of the exception to the rule, and it may become the duty of the Court to seek for guidance in some arbitrary definition contained in the religious law of the claimant, *e.g.*, in the instance of an hereditary office in a Hindu community incapable of being held by any person not a Hindu. The claim now in question is a claim to an annuity granted by a Hindu sovereign to a Hindu temple. The annuity is not made a charge upon land, and it is not therefore, according to general principles of construction, immoveable property. That being so, it is not necessary to go further. less held that the grant was an interest in immoveable property within the meaning of the Limitation Act (XIV of 1859), s. 1, cl. 12. The grant savoured throughout of locality, and was undoubtedly irresumable, inalienable, and perpetual. The Indian Legislature did not intend to exclude such property from s. 1, cl. 12, of the Act. The Indian Legislature, which passed the Limitation Act (XIV of 1859), has not given any explanation or definition in the Act of the phrase "immoveable property," but has left suitors to their former ideas on the subject. Under these circumstances, it would be a hardship upon them to construe the Act inconsistently with such ideas, inasmuch as they were furnished with no guide which could have led them to suppose that "immoveable property," according to Act XIV of 1859, meant anything less than what they had previously known as such. And that the Indian Legislature were not disposed to be very harsh, is shown by its subsequent more fully developed legislation on the subject of limitation, which to haks and other periodical payments assigns the twelve years' limit. A pension or other periodical payment or allowance granted in permanence is nibandha, whether secured on land or not. COLLECTOR OF THANA *v.* HARI SITARAM **I. L. R. 6 Bom. 546**

Plaintiffs, having purchased certain lands in 1867, brought this suit in the year 1890 to obtain a declaration of their right to have the land registered in their name in the revenue records. The lower Courts dismissed the suit as barred under Art. 144, Sch. In the year 1806-07 the Peshwas attached vatan lands belonging to the plaintiff's The attachment continued till the year hen the British Government made them or resumed them. The defendant in the nile entered upon them as tenant to the ment and paid assessment thereon. In the 71 the lands were ordered to be restored to ntiffs. It further held that the defend- ssession had become adverse to the plaint- the latter did not bring their suit within ears from the resumption of the lands by ent in 1866, since which time the defendant e considered as tenant or occupant under ent. From this decree the plaintiffs l, and the lower appellate Court was of that by the order of restoration the plaint- restored to the right of such assessment eft after deduction of judi, and that their that even was barred, as it was brought elve years from the date of resumption. al to the High Court:—*Held*, restoring the f the Court of first instance, that the claim aintiffs was not barred. After the attach- the lands in dispute, the Peshwa's Government held the same as constructive trustees for the plaintiffs, and when that Government was succeeded by the British Government, the same relation continued. The British Government, having succeeded to the trust,—continued to hold as trustee for the family of the plaintiffs; their possession therefore could not be made adverse by intimation or notice to the plaintiffs. It was not found that the defendant held the lands before the attachment by the Peshwas, and the British Government could not, as guardian or bailiff for the real owners, the plaintiffs, put the defendant into a better position than their own. The plaintiffs' right, having never been extinguished, had the same legal force in 1870, when the lands were restored, as it had before attachment in 1806. From 1871 onwards the plaintiffs could act; and as the suit was commenced within the term computed from that time, it was not barred—the inability of the plaintiffs to sue before 1871 falling within the purview of the maxim *contra non valentem agere nulla currit præscriptio.* It was contended for the defendant that s. 34 of Bombay Act I of 1865 applied in the present case:—*Held*, that, if it could apply, it would apply only in the sense of limiting the rights acquired under the Collector's management to the term of that management, and nothing further. 7. ——— and Art. 142 and s. 28—*Decree obtained—Decree restoring possession to trespasser against dispossession by another trespasser, effect of—Illegal dispossession by the true owner.* The plaintiffs were in possession without title from 14th June 1870 to 19th September 1873; they were then dispossessed by a third person, but recovered possession by a decree against him in December 1880 and thereafter remained in possession till 14th September 1888, when they were ousted by the principal defendants. Thus, the plaintiffs' possession not aggregating to twelve years, it was contended on their behalf that the decree abovementioned restoring them to possession did away with the effect of dispossession, so as to complete their title by adverse possession:—*Held*, that the possession of one trespasser could not be added on to that of another, and that the effect of the decree did not affect the position of the true owner. *Quære:* Whether Art. 142 or Art. 144 of the Limitation Act applied to the case, and on this question depended the further question whether the principal defendants' right had been extinguished under s. 28 of the Limitation Act, and therefore their dispossession of plaintiffs was illegal. The Subordinate Judge held that the suit was not barred by limitation:—*Held*, that in a case like the present where the land is not in the possession of an ijaradar or under-tenure holder, but in the possession of ordinary tenants, before it can be determined whether the suit is barred or not, it must be found upon the evidence as to whether the tenants in occupation of the land had been paying rent to the plaintiffs or to the defendants. If they had been paying rent to the defendants and not to the plaintiffs, possession must be held to have been with the defendants, and a complete cause of action must be deemed to have arisen to the plaintiffs. barred by limitation. Both the lower Courts dismissed the suit as barred by limitation, holding that *B's* possession was adverse, and that *R* had no possession or enjoyment within twelve years previously to the institution of the suit. On appeal to the High Court :—*Held*, that *B's* possession, whether it commenced before the death or only on the death of Balaji, was held, after that event, consistently with and in fulfilment of the agreement. *B*, having entered into possession and been left in possession in the first instance in accordance with the contract, could not change the character of the possession by his mere will. He did not intimate to *R* or *S* that he repudiated the contract and intended to go into possession in opposition to any rights which they might assert. As he entered and continued to hold in a character consistent with the subsistence of their rights, they were never called on to eject him, or by any other process to establish rights which were not denied. While there subsisted any contract, express or implied, between the parties in and out of possession to which the possession might be referred as legal and proper, it could not be pronounced adverse. 35. ——— *Suit for partition between co-owners—Possession of tenants.* The plaintiff was the Zamorin of Calicut, and he sued in 1887 for a moiety of certain property in Malabar alleged to belong in equal undivided shares to his stanom and that of the defendant and to be in the occupation of tenants. The cause of action was stated to have arisen in 1881 when partition was demanded by the Zamorin and refused by the defendant. In some instances the tenants in occupation represented the family, a member of which was at one time admitted by the Zamorin under a demise or kanom, and had attorned to the defendant; in other instances they were shown to have been admitted by the defendant on paying off the former tenant who had been admitted by the Zamorin. In all these instances the defendant intended the tenant who attorned to him to hold as his tenant to the exclusion of any claim by the Zamorin, but it was not shown that the Zamorin had any notice of such attempted usurpation on the part of the defendant. And on these facts the defence of limitation was raised on the ground that the land had been held for more than twelve years adversely to the Zamorin :—*Held*, that Limitation Act, Sch. II, Art. 144, and not Art. 142, was applicable to the suit, and that in the first class cases referred to above, the tenancy under the Zamorin had not been determined, and that, in the second class, there had been no ouster of the Zamorin, and that consequently the suit was not barred by limitation. In a suit brought by the ghatwal to resume, as determinable at will, the under-tenure which had been granted by one of his ancestors of land, part of the ghatwali mehal, limitation was set up in bar of the suit :—*Held*, that after the creation of the under-tenure, as long as there was no dispute or conflicting claim, the possession of it was not adverse to the ghatwal; and proceedings, either between the ghatwal or between under-tenure-holders on the one side and creditors on the other, could not be taken to show an assertion of right by either of the parties now in litigation, as against one another. 1863 an appeal by S alone against this decree was dismissed by the High Court. The purchaser's heirs, he having died, obtained possession of land representing the four annas share under the decree of 1860. S then set up a title to hold part of the lands allotted under the batwara of 1839 to the six annas share on the ground that they were lakhiraj lands, and distinct from the revenue-paying villages in which his interest had passed under the execution sale. The plaintiff sued, in September 1873, the defendant, who had purchased this last alleged interest of S at another sale in execution of a decree against him, claiming that the partition having been set aside and a four annas share of the whole estate obtained by the purchasers under the decree of 1860, a right accrued to him to have his share now twelve annas, declared upon the lands which had fallen within the six annas share. He also claimed to have it declared that the parcels alleged to be lakhiraj were not so. On the question of limitation it was *held* that the 145th Article of the second Schedule of Act IX of 1871 was applicable; and that, even if technically the lands now in question remained in the possession of S pending the appeal against the decree of 1860, there was no possession adverse to the plaintiff rendering it necessary for him to assert his right until the dismissal of the appeal in 1863. The defendants set up an old mokurari grant under which they claimed to hold in perpetuity upon the payment of a fixed rent. The High Court, overruling the decision of the first Court upon the statute of limitations, *held*, and in the opinion of the Privy Council rightly, that the statute does not begin to run in favour of the mokuraridar against the zamindar until the latter has had notice that the former claims under a mokurari grant, and such notice was not given in the present instance twelve years before the commencement of the suit. The recorded proprietors of the adjoining permanently-settled estate, to which the chur was a contiguous accretion, refused to make a permanent settlement with Government at the rent demanded. The chur was then held khas by Government for some time and subsequently leased out for temporary periods to strangers. In these temporary leases Government reserved the proprietor's rights to come in and take a permanent settlement on the expiry of the temporary settlements, and also reserved an allowance of ten per cent. on the rent as malikana on their account, which sum had been kept in deposit in the Collectorate treasury. In 1867 Government made a permanent settlement with the defendant, one of the recorded proprietors of the contiguous estate, of the entire chur and refused the application of other shareholders in the estate to be joined in the settlement. The Collector, at the request of the defendants, applied the deposit in his treasury in satisfaction of the Government revenue. 96. ——— *Cause of action—Acts IX of 1871 and XV of 1877.* *R*, a Hindu widow, granted a jungleburi tenure to certain tenants in respect of a chur belonging to her husband's estate. An amulnama was granted to the tenants signed by a karpardaz of *R* in respect of the tenure. *R* died in January 1861, and was succeeded by *J* and *P*, two daughters, the last of whom died on the 31st December 1880. On her death the grandsons succeeded to the estate. One *R's* death, *J* and *P* got possession of all estate papers, and amongst them a dowl granted by the tenants in return for the amulnama. In 1865 proceedings were taken by the tenants to obtain kabuliats on the footing of those documents, which proceedings came to an end in 1868. In 1873 *J* and *P* instituted suits against the tenants, alleging the amulnama and dowl to be forgeries, and seeking to enhance the rents payable to them, as well as to have it declared that *R's* acts did not bind them. In these suits it was found that *J* and *P* had all along been aware of the claim made by the tenants that they held a permanent tenure, and the suits were dismissed on the ground that it was too late for *J* and *P*, after the lapse of twelve years from *R's* death, to raise the question. In 1884 *D*, a receiver, instituted a suit in the names of the grandsons to eject the tenants on amongst other grounds that the grandsons, reversioners, were not bound by *R's* acts, and that the jungleburi tenure was not binding on them; that the tenants were middlemen and had no right of occupancy; that at all events the plaintiffs were entitled to rent on the area of land then held by the defendants, as there had been large accretions to the amount covered by the amulnama and dowl. The defendants amongst other things pleaded limitation:—*Held*, that the suit was barred by limitation. Adverse possession began to run on *R's* death (as *J* and *P*, who represented the estate, were then well aware that the tenants claimed to hold the lands under a permanent lease, and though *J* and *P* received rent, the possession of the tenants was adverse to them), and more than twelve years elapsed before Act IX of 1871 came into force, and therefore the defendants had then obtained a good title by adverse possession as against all the reversioner which could not be defeated by the provisions of the subsequent Limitation Acts of 1871 and 1877. certain zamindari property as reversioners to the estate of one *C*, their right to sue having accrued as alleged by them on the death of the widow of *C* which took place on 14th October 1884. The defendant, alleging himself to be the adopted son of *C* and being in possession of the property in dispute since the death, contended that the claim was barred. The Court of first instance dismissed the claim as barred by Art. 118 of the Limitation Act, and on appeal the District Judge held that the claim was barred by defendant's adverse possession over the property for more than twelve years. On second appeal, it was contended that the suit, being by a Hindu entitled to possession as a reversioner on the death of a female, was governed by Art. 141 of the Act, and therefore not barred :—*Held*, without deciding that question, that, as on the facts found, the adopted son held adversely to the widow, adverse possession which barred the widow barred also the reversioners, and therefore the claim was barred. *Shiva Ganga Case*, 9 *Moo. 98. ——— *Hindu widow—Adopted son—Adverse possession against widow for more than twelve years, effect of, as against a subsequently adopted son—Title.* Adverse possession against a Hindu widow for more than twelve years bars the rights of a subsequently adopted son. *S*, a Hindu, died leaving a widow and a minor son. The minor died in 1856. Thereupon the defendant, a separated cousin of the minor, took possession of his property, got it entered in his own name in the revenue records, and received its income himself without giving the widow any share thereof. In 1872 the widow adopted the plaintiff, and he too was excluded by the defendant from the management and enjoyment of the property in question. In 1883 the plaintiff sued, as the adopted son of *S*, to recover possession of the property in dispute :—*Held*, that the suit was barred, the defendant having held adversely to the widow for more than twelve years before the plaintiff's adoption. On the 20th January 1885, *B* brought a suit to recover possession of his purchased share :—*Held*, that the subsequent purchase did not change the character of *B* from that of a mortgagee to that of an owner, and that his suit was barred by twelve years' limitation. 100. ——— *Co-sharer—Possession of one co-sharer when adverse—Mortgage—Mortgage by three co-sharers—Redemption by one of several mortgagors—Right of the other mortgagors to sue for redemption—Period of limitation for such suit.* In 1847 the property in dispute was mortgaged by three co-sharers, *D*, *A*, and *R*. In 1859 *R* alone redeemed the property and mortgaged it again to a third person. In 1882 the heirs of *D* and *A* brought a suit to redeem the whole of the property, or their portions of it. The defence to the suit was that it was barred by limitation, being brought more than twelve years after *R* had redeemed the property, and *R's* possession subsequently to such redemption having been adverse to the plaintiffs and their predecessors in title :—*Held*, that the suit was not barred by limitation. When *R* redeemed, the property, he held it, as regards his co-sharers' interests in it, as alienor, and as such his possession was not adverse to them. It did not contradict, but rather implied and preserved, their ultimate proprietary right. In the case of a co-sharer holding after redemption, limitation is computed only from the date when the possession becomes adverse by the assertion of an exclusive title and submission to the right thus set up, in analogy to the provision which bars an excluded sharer generally after the lapse of twelve years from the time when he becomes aware of his exclusion. As long as possession can be referred to a right consistent with the subsistence of an ownership in being at its commencement, so long must the possession be referred to that right rather than to a right which contradicts the ownership. The first was redeemed by the father of defendant No. 1 alone in 1868; the second was redeemed by the defendant No. 1 more than twelve years before the suit. The parties were Mahomedans, and the plaintiff had a brother and three sisters, only one of whom (defendant No. 2) was a party to the suit. The defendants pleaded, *inter alia*, that the suit was barred by limitation, as the land had been held adversely since the mortgage of 1864:—*Held*, that, in the absence of proof that the land was held with an assertion of adverse title, the plaintiff was entitled to a decree. The deed provided that, in default of payment within the prescribed period, the property mortgaged "will be foreclosed (baibat), and this mortgage-deed will be considered as an absolute sale-deed." Between 1846 and 1886 no foreclosure proceeding or other steps were taken by the mortgagee, and no admission of liability was made by the mortgagor:—*Held*, that by reason of Act XIV of 1859 (Limitation Act) the plaintiff's remedy was barred during the currency of that Act, and that the time within which he was entitled to maintain an action for foreclosure, if he had taken the proper proceedings, expired in 1863. *Held*, also, that, even if foreclosure-proceedings under Regulation XVII of 1806 had been taken, the cause of action was the original non-payment of the money on the due date, and the provisions of the regulations could not create a fresh cause of action. *Denonath Gangooly* v. *Nursing Proshad Doss, 14 B. discontinued by Government. In 1871 *Y* died. The defendants having kept the decree alive, sought in 1881 to execute the decree against the plaintiffs' eldest brother, who filed objections, but his objections were overruled, and execution was ordered to issue. The plaintiffs brought this suit in 1883 for a declaration that the defendants were no longer entitled to the allowance under the sanad, and for an injunction restraining the defendants from the execution of the decree against the vatan. The defendants contended, *inter alia*, that the sanad could not be cancelled, *Y* having granted it as full owner; and that the receipt by the defendants of the allowance had been adverse since 1864, when their services had ceased. Both the lower Courts decided in favour of the plaintiffs. On appeal by the defendants to the High Court:—*Held*, confirming the decree of the lower Courts, that the plaintiffs were entitled to the declaratory decree and to the injunction prayed for. Although the management of the vatan was vested by the sanad in the defendants and their heirs in perpetuity under the title of gomastas, nevertheless the remuneration attached to the office by *Y* was in derogation of his successor's rights, and was therefore, at any rate in the absence of proof of custom, invalid against them. *Held*, also, that assuming the grant by *Y* to be invalid as against his successor, adverse possession would only run against the plaintiffs from the time of his death in 1871, and the present suit, having been filed within twelve years from that date was not barred. Thereupon *D*, the successor in interest of *A*, applied to the Collector to be restored to possession. The Collector refused. *D* therefore sued him for arrears of the mokasa amals and obtained a decree in 1868. Thereafter *D* did not receive any payment from the Government treasury. The question of limitation then depended on whether the defendant could supplement his own adverse possession by his adoption (which was deficient by two days) by the adverse possession of *L*, and this again depended on whether the defendant could be said to derive his liability to be sued from or through *L* so as to bring himself within the definition of a defendant as provided by s. 3 of the Limitation Act (XV of 1877). 118. ——— *Mortgage dating from before the annexation of Oude—Oude Redemption Act XIII of 1866—Under-proprietary rights of third parties in adverse possession, with a sub-settlement of one of the villages mortgaged.* In 1854, before annexation (1856), the owner of a talukh of ten villages made a usufructuary mortgage of the entire ilaka to a neighbouring talukhdar. The mortgagor died in 1857, leaving a minor son, to whom, during the events that followed, the mortgage was unknown, and whose attempts to establish an inherited right to the mortgaged ilaka against the talukhdar were ineffectual whilst that ignorance lasted. The confiscation of 1858 had at one time swept away all rights, whether of the talukhdar, who was mortgagee, or of the mortgagor's heir, to redeem, or of any under-proprietors on the ilaka. This effect was thus counteracted. In the settlement of 1859-60, adjustments were made of the ownership of property, and in this case settlement was made with the talukhdar of his larger talukhdari estate, in which the mortgaged ilaka was at the same time incorrectly included as part. The right of redemption was restored by Act XIII of 1866, the mortgagor's heir, being, however, unaware of his title to redeem any mortgage. Under-proprietary rights were restored by order of Government in 1859. Such rights were, with a sub-settlement, decreed by a Settlement Court on the 31st July 1866, in one of the villages of the mortgaged ilaka, in favour of a claimant, through whom the defendants in this suit now made title. In 1881, the mortgagor's heir, having by that time discovered the existence of the mortgage of 1854, sued the heir of the mortgagee to enforce the right to redeem. He obtained against the talukhdar as such heir a decree for possession of nine of the villages in the ilaka. *Amanat Bibi* v. *Imdad Husain, I. L. R. 15 Calc. 800; L. R. 15 I. In October 1876 the defendant, a tenant of the land obtained an injunction against *R* restraining him from interfering with his (the defendant's) possession, in possessory suit which was filed in the Mamlatdar's Court in May 1876. who brought a suit against *D* and his brother to recover a half share of the abovementioned profits. *D* resisted the claim, denying that either *P* or his assignee had any right to the khoti or to share in the khoti profits. The suit was dismissed on a technical ground. Subsequently in the years 1881 and 1884, *D* got decrees against the actual tenants declaring that the lands, the subject-matter of the present suit, were his dhara lands, and in accordance with those decrees the revenue authorities made corresponding entries in the revenue records. In the year 1888-89 *S* passed a kabuliat as a half sharer in the khoti, and enjoyed the khoti profits for one year. Afterwards plaintiff No. 1, one of *S's* sons who died in the meanwhile, having passed the annual kabuliat in 1892-93 and again in 1894-95 and having failed during both the years to recover khoti profits from the lands in dispute, he filed the present suit in August 1895 for a declaration that the lands were khoti, and that the defendants had fraudulently got them entered in the revenue records as dhara. The plaintiff stated that they learnt of the defendant's fraud in the year 1895, and sought to recover a share of the khoti profits for 1892-93 and 1894-95. The defendants contended, *inter alia*, that the claim was time-barred. Both the lower Courts allowed the claim for a declaration, holding that it was not time-barred, the first Court holding that the cause of action accrued to the plaintiff's in 1888-89, when *S* first entered on the management, and the Appeal Court holding that the cause of action accrued in 1881 and 1884, when the dhara entries were made in the revenue records, and that, but for s. 18 of the Limitation Act (XV of 1877), the plaintiff's suit would have been time-barred even under Art. 144, Sch. II of the Act. On appeal to the High Court:—*Held* (reversing the decree), that the claim was barred by limitation. The plaintiffs' cause of action arose in the year 1881 at the date of *S's* purchase. Neither *S* nor his sons (the present plaintiffs) having ever been in possession of any share of the profits of the lands in dispute, not even in the year when *S* passed the kabuliat and managed the village, and their right to such possession being throughout denied by *D*, the claim was beyond time. *Held*, further, that the provisions of s. 18 of the Limitation Act (XV of 1877) did not apply. had been part of the family estate, alleging title according to the Mitakshara. A question whether the plaintiffs were not barred by limitation depended on whether the now disputed part of the family property had not been from the year 1843 in the adverse possession of the widow of one of their great uncles. This widow, after transferring that part of the property to a person through whom the defendants made title, died in 1886. She was the widow of the elder of two brothers, the last co-parceners of the family, who, being sons of the said ancestor, had at one time held the family estate. This elder brother, her husband, died in 1826. His younger brother survived him, and, having taken the whole estate by survivorship, died in 1833, leaving a widow, who died in 1843. The latter widow, having inherited the estate from her husband for her life-estate, there being no co-parcener left, gave a share of her inheritance to the abovementioned widow of the elder brother. So assigned, the property remained, with the addition in 1843 of the share which the younger brother's widow had kept for herself, in the possession of the other widow, the one first abovementioned. After many years, this widow transferred it to her own brother, of whom the present defendants were the heirs and representatives. It was decided below that it had not been in the right of a Hindu widow taking by inheritance from her husband that the elder brother's widow had obtained, and had dealt with, the property. A widow's estate for life never constituted a possession adverse to the reversionary heir, but here the widow, through whom the defendants claimed, had been from 1843 in adverse possession for more than twelve years. The suit was therefore barred under the Limitation Act (XV of 1877). This judgment was affirmed by their Lordships. MAHABIR PERSHAD *v.* ADHIKARI KOER . . . **I. L. R. 23 Calc. 942**

On the expiration of the ten years, the sale to plaintiff became absolute, and *G* continued to hold over after the expiry of the lease, but there was no evidence to show that *G's* possession ever became hostile to plaintiff:—*Held*, that the fact that plaintiff's title ripened into full ownership on the expiration of the ten years provided by the sale-deed did not alter the character of the tenure of *G*, that his possession never became hostile to plaintiff; that *G* acknowledged the plaintiff's title in his sale-deed d[illegible] 1881 to the second defendant; and that the i[illegible] was not barred. In the same case in the Privy Council :—*Held*, that the possession delivered to the purchaser was adverse to the vendors. After the twelve years' period of limitation, which expired in the lifetime of the vendor, whose son now sued to recover the hereditary managership and possession of the lands of the endowment, the suit was barred under Limitation Act (XV of 1877). There was no distinction between the claim to the office and the claim for the property in regard to the application of Art. 124 of Sch. II of the Act and of s. 28. If there were, Art. 144 would apply to the claim for the property. In order to fix the starting point for limitation at a date later than that of the transfer, it was contended that the office and title were held in successive life-estates. If that contention had been right, the period of limitation would have commenced at the death of the plaintiff's father. The Judicial Committee were of opinion that it must be assumed that the origin of the endowment was by gift from the founder, and that, in accordance with the ruling in *Juttendromohun Tagore* v. *Ganendromohun Tagore, L. The last instalment of the mortgage debt was paid to the first defendant by defendants 2 and 3 in September, 1897. The plaintiffs had no notice or knowledge of any of the abovementioned proceedings. On the 5th October, 1897, the plaintiffs filed this suit, to redeem the mortgage of 1866 and to recover possession of the lands. The lower Courts held that the plaintiffs were the heirs, but that the suit was barred by limitation under Art. 144 of Sch. II to the Limitation Act (XV of 1877), inasmuch as defendants 2 and 3 had been in adverse possession for more than twelve years. On appeal to the High Court : *Held* (reversing the decree of the lower Court, and remanding the case), that the suit was not barred. The possession of the defendants was not adverse to the plaintiffs, inasmuch as there was no notice or knowledge, or circumstance that could have given notice or knowledge, to the plaintiffs (mortgagors) that the defendants' possession was in displacement of their rights. In 1881, plaintiffs' *devasom* has sued to eject the defendants from the same land, basing their suit on an alleged lease of 1865. The defence was set up by the predecessor of the present defendants Nos. 4 to 7 that he was a permanent tenant at a fixed rent. That suit was dismissed on the ground that the alleged lease of 1865 had not been proved, but the plaintiffs obtained a decree for the rent which the then defendant admitted to be due by him as a permanent tenant :—*Held*, that, even assuming that the defendants had held over as yearly tenants, after the expiration of the alleged lease of 1862, such tenancy must have been determined prior to plaintiffs' suit in 1881. The possession of the defendants subsequently to that suit was therefore, according to the plaintiffs' case, that of trespassers claiming a permanent right of tenancy. The payment of rent under the decree in the suit of 1881, and subsequently at the same rate, could be construed only, so far as the defendants were concerned, as payment by them of the rent admitted by them to be due as permanent tenants, and not as a

The defendant pleaded adverse possession, and contended that the suit was barred by limitation. The plaintiff proved that up to 1879 the defendant, admitted the plaintiffs' ownership of the land. The two lower Courts found that the land was the plaintiff's, but held that the suit was barred :—*Held* (reversing the decree), that, the defendant having admitted the plaintiff's ownership up to 1879, it lay upon him to show when the alleged adverse possession under Art. 144 commenced, or under Art. 139, when the tenancy terminated. As the land was shown to belong to the plaintiff, and defendant had not proved any agreement under which he could remain in possession after plaintiff had signified his intention to resume, he must surrender possession. ——— Art. 146—*Suit to recover possession of mortgaged property—Demand.* In 1842 H executed, in favour of the plaintiff, his brother who was in possession of the family property as executor and administrator of the estate of their father, a mortgage of his (*H C's*) share of the estate in consideration of R3,700 advanced to him by the plaintiff. In the mortgage-deed the money was expressed to be payable "on demand." In 1847 an amicable partition of the family property was proposed, and it was agreed that a certain portion should be allotted to the plaintiff in satisfaction of the debt due to him by *H C*, but this arrangement was never carried out. In a suit brought in 1876 against the representative of *H C* for foreclosure of the mortgage, the plaintiff, who had admittedly been since 1842 in possession of the family property, alleged that no payment had ever been made in respect of the mortgage, nor any demand for payment, until 1876. The defendant contended that the suit was barred by lapse of time:—*Held*, on the construction of the mortgage-deed, and under the circumstances of the case, *per* GARTH, *C.J.*, that a demand was necessary; *per* MARKBY, *J.*, that the words "on demand" did not postpone the date of payment and, that the mortgage-money became payable at once. *Per* GARTH, *C.J.*, and MARKBY *J.*—A demand was made in 1847 on the agreement to partition the property. The suit therefore was barred by Act XIV of 1859 as being brought more than twelve years after the cause of action arose. The Act not only barred the remedy, but extinguished the right and therefore the plaintiff could derive no advantage from the extended period of limitation given by Art. 149 of Act IX of 1871, which repealed the Act of 1859. co-plaintiffs, and they were so joined on the 1st March 1883, at which date both the lower Courts were of opinion that the suit was barred under s. 22 and Art. 132 of the Limitation Act (XV of 1877). On appeal by the plaintiffs to the High Court :—*Held*, reversing the lower Courts' decrees, that plaintiff's suit was governed by Art. 147 of the Limitation Act (XV of 1877), and therefore not barred. By the instrument sued on, the property in question was mortgaged to the plaintiffs' father with an implied, if not express, power to sell the same in the event of the mortgage-debt not being paid at the expiration of seven years from the date of the mortgage. The period of limitation was sixty years from the 1st January 1871. GOVIND BHAICHAND *v.* KALNAK . **I. L. R. 10 Bom. 592**

6. ——————————— *Mortgage as distinguished from a charge.* In 1867 the defendant borrowed R125 from the plaintiff and gave him a bond agreeing to pay interest at two per cent. per month. The bond provided that the whole debt, including principal and interest, was to be repaid within four years from the date of its execution. It further stated that certain property had been mortgaged to the plaintiff as security for the loan, and that, if the principal and interest were not paid within the time fixed, the plaintiff was to take up the management of the property. It also contained the following clause : "We will redeem the mortgaged property on the day on which we shall pay the amount of the principal and the amount of the interest that may be found due on making up the account." In 1886 the plaintiff sued the defendants to recover by sale of the property the sum of R250 as principal and interest due on the bond. It was contended that the bond created merely a charge upon the property in question, and was not a mortgage, and that the suit was barred by Art. 132 of Sch. II of the Limitation Act (XV of 1877). *Held*, that the document was a mortgage, and that the suit was not barred, being governed by Art. 147, and not by Art. 132, of Sch. II of the Limitation Act. If we do not pay according to contract, you may sell the said fields through the Court and recover the amount. If any balance remains, we will pay it off personally or by means of our other property." *Held*, that the above stipulation created a mortgage and not a mere charge on the fields in question, and that Art. 147 of Sch. II of the Limitation Act (XV of 1877) applied to a suit by the obligee against the surety under the bond to enforce his lien by sale of the property mortgaged. 13. ——— **and Art. 144**—*Suit for foreclosure or sale—Transfer of Property Act (IV of 1882), ss. 58 (c), 67, 87—Mortgage by conditional sale—Decree for foreclosure and possession.* On 28th March 1871 the defendant's father borrowed a sum of money from the plaintiff's father and placed him in possession of certain land under an instrument of mortgage, which provided for the application of the usufruct in liquidation of the interest and then in reduction of the principal: the instrument also contained a covenant for the repayment, in four years, of the balance that might then be due by the mortgagor, and a stipulation that, on default, the mortgagor was to surrender the property to the mortgagee as if it had been sold to him. In 1874, the mortgagor resumed possession without discharging the mortgage debt. The mortgagee having died, his sons, on 14th April 1888, filed the present suit on the mortgage and prayed for a decree for foreclosure or sale:—*Held*, that the suit was not barred by limitation, and the plaintiffs were entitled to a decree for foreclosure with a direction that possession be delivered to them. 14. ——— *Suit for sale of mortgaged property—Bom. Reg. V of 1827, s. 15, cl. 3—Special agreement.* Plaintiff brought this suit in 1895 on a mortgage-bond, dated 1870, to recover the balance due on the mortgage by sale, of the mortgaged property or in the alternative for possession of the property until payment of the balance. The mortgage contained a stipulation that, on default of payment of interest by the mortgagor, the mortgagee should take possession and hold possession in lieu of interest, and that such possession should continue until the mortgagor paid the principal and interest that remained unpaid when the mortgagee took possession. The Judge dismissed the suit, holding that the claim for possession was time barred and, the claim for the sale of the property could not be enforced, as the mortgage bond contained a special agreement which took the case out of cl. (3) of s. 15 of Bombay Regulation V of 1827. On appeal:—*Held*, reversing the decree, that s. 15 of Bombay Regulation V of 1827 was not applicable, as the mortgagee never was in possession and that the claim to enforce the mortgage security by sale was not barred. 16. ——— *Transfer of Property Act (IV of 1882), s. 58(e)—"English mortgage"—Covenant or reconveyance not limited to time stipulated for repayment of mortgage money.* The three essentials of an English mortgage, as defined in s. 58 (*e*) of the Transfer of Property Act, are (i) that the mortgagor should bind himself to repay the mortgage money on a certain day, (ii) that the property mortgaged should be transferred absolutely to the mortgagee, (iii) that such absolute transfer should be made subject to a proviso that the mortgagee will reconvey the property to the mortgagor upon payment by him of the mortgage-money on the day on which the mortgagor bound himself to repay same. A deed of a mortgage recited that the mortgagors "hereby mortgage and assign to the mortgagee" the mortgaged property. *Semble:* that (though it was doubtful if such an assignment was really an absolute one) the assignment was sufficient to fulfil the second requisite of an "English mortgage." The proviso for reconveyance in the deed was as follows:—"Upon repayment to the mortgagee of all sums due to him by the mortgagors, the mortgagee shall reconvey the said

property to the mortgagors," etc. :—*Held* (by the DIVISION BENCH), that the transaction could not be regarded as an English mortgage, there being no words importing that the covenant to reconvey was dependent upon the repayment of the mortgage-money being made at the stipulated time and that it should not be enforced in default of repayment at that time. On the question what article of Sch. II to the Limitation Act governs a suit for sale by a mortgagee under such a mortgage-deed :—*Held*, by the FULL BENCH, that the period of limitation was governed by Art. 147. That article applies to a suit by a mortgagee whether it is for foreclosure or sale; and, in the former case, whether the prayer in the plaint is for foreclosure alone, or is coupled with a prayer in the alternative for sale in lieu of a decree for foreclosure. *Ramachandra Rayaguru* v. *Modhu Padhi, I. barred the suit after the 1st January 1862. Afterwards, by the effect of Act IX of 1871, s. 29, the right of property in the mortgagor was extinguished. In none of the documentary evidence adduced by the plaintiffs was there shown to have been made during the sixty years from the date of the mortgage onwards any written acknowledgment satisfying the requirements of the above cl. 15, and thereby giving ground for computing limitation from the date of such acknowledgment. Nor did the fact that a lease was made on the 8th January 1872 of some of the mortgaged property by one of the then mortgagees to one of the mortgagors, the lessor describing himself as usufructuary mortgagee, preclude the defendants from asserting their true title. The description neither estopped the alleged mortgagee from denying that he was in that character at the time of this suit, nor was it a representation which required that he should make it good. It was no essential part of a contract between these parties, and it did not affect the issue now raised. The judgment in *Citizens Bank of Louisiana* v. *First National Bank of New Orleans, L. C transferred his rights as mortgagee to T and M. In execution of a decree for money against K held by M, K's rights and interests in the mortgaged property were sold, and were purchased by P, whose heirs paid the entire mortgage-debt. R, an heir of J sued the heirs of P to recover from them possession of J's sihams in the mortgaged property, on payment of a proportionate amount of the mortgage money paid by P. The plaintiff alleged that the mortgage to C had been made forty years before suit. The defendants contended that a much longer period had expired since the date of the mortgage ; that forty-one years had elapsed since C transferred his rights as mortgagee ; that they had redeemed the property twenty-one years ago and had been since its redemption in proprietary and adverse possession of the sihams in suit ; and that the suit was barred by limitation. Neither party was aware of the date of the mortgage, and neither adduced any proof on the point :—*Held,* applying the equitable principle adopted in ss. 95 and 100 of the Transfer of Property Act (IV of 1882), that the owner of a portion of a mortgaged estate which has been redeemed by his co-mortgagor, has the right to redeem such portion from his co-mortgagor and a suit brought for that purpose would be in the nature of a suit for redemption, and would naturally fall within the definition of Art. 148, Sch. II of the Limitation Act (XV of 1877) ; and it was not possible for one of two mortgagors, redeeming the whole mortgaged property behind the back of the other, to change the position of that other to something less than that of a mortgagor, or to abridge the period of limitation within which he ought to come in to redeem. *Held,* therefore, that Art. 148, and not Art. 134, of Sch. II of the Limitation Act was applicable to the suit. *Umrunnissa* v. *Muhammad Yar Khan, I. L. R. 3 All. 24,* distinguished. *Pacham Singh* v. *Ali Ahmad, I. L. R. 4 All. 58,* referred to. 20. ——— *Limitation Act (IX of 1871), s. 148—Acknowledgment of title by one several mortgagees as agent for the others—Ac-wledgment by one of several heirs of the mort-ee—Redemption, suit for.* Under Art. 148 of the nitation Act (IX of 1871), an acknowledgment he mortgagor's title by one of several mortgagees agent for the others is wholly ineffectual, and s not bind the rest. So, too, is an acknowledg-nt by one of several heirs of the original mort-ee without effect. The expression "some persons ming under him" in Art. 148 of the Act means e person claiming under him the entirety of the tgagee's rights. The property in dispute was tgaged by *H B* to the firm of *K B* in 1816. In *J*, one of the sons and heirs of *K*, who was then nager of the firm, on behalf of the whole family, mortgaged the property in dispute to a third y, under a bond which recited the original mort-s by *H B* to *K*. In 1885 the defendant, who a descendant of *K*, redeemed the sub-mortgage ted by *J*. In 1887 the plaintiff, having pur-ed the equity of redemption from *H B's* de-dants, filed the present suit for redemption of mortgage of 1816. The plaintiff relied on the owledgment made by *J* in 1830 as giving a

The Court of first instance allowed the mortgagee interest from the date of the bond. The Appellate Court reduced the interest awarded to the period of six years :—*Held*, reversing the decision of the lower Appellate Court, that the mortgagee was entitled to claim interest from the date of the bond up to the date of the decree. Art. 148, and not Art. 132, applies to such a suit; but no provision of limitation is made by the Article for the payment of interest on the sum due to the mortgagee. In s. 58 of the Trans-fer of Property Act, the mortgage-money is interpreted to include the interest due, and no limit to the payment of interest is fixed. DAUDBHAI RAMBHAI *v.* DAUDBHAI ALLIBHAI

In 1882, in a suit brought by the mortgagee, a consent decree was passed, ordering redemption on payment by the mortgagors of R400. Vinayak paid off the whole amount, redeemed the mortgage, and obtained possession of the land, which he and his heirs continued to hold down to 1898. In 1898, the heirs of Ganesh brought this suit against the heirs of Vinayak, claiming to recover a moiety of the land. The defendants pleaded adverse pos-session for more than twelve years. The plaintiffs contended that Vinayak, having redeemed the mortgage, stood in the shoes of the mortgagee as regards his co-mortgagor Ganesh, and his heirs, and that the latter had sixty years within which to redeem, under Art. 148 of Sch. II to the Limitation Act (XV of 1877) :—*Held*, that Art. 148 did not apply, and that the plaintiff's claim was barred by limitation. Art. 148 applies to a suit against a mortgagee. A co-mortgagor who has redeemed the whole mortgage is not a mortgagee. His transac-tion does not amount to a mortgage. He has merely a charge on the property. 1. *Application for restitution by person dispossessed—Holiday.* In calculating the period of limitation prescribed in Sch. II of Act IX of 1871 for applications as well as for suits and appeals, the day on which the order or decree appealed against way made should be excluded. Consequently, where a person having been dispossessed of property held by him under a mortgage on the 14th of December 1875 applied on the 14th January of 1876 for restitution the 13th having been a Court holiday, it was *held* that his application was within the limitation of thirty days prescribed by Art. 158, Sch. II of Act IX of 1871. GURJAR *v.* BARVE **I. L. R. 2 Bom. 673**

2. *Dispossession under sale in execution of decree—Summary order.* A person purchased certain property at a sale in execution of a decree in November 1878: his purchase was confirmed and he obtained a certificate of sale on the 23rd May 1879, from which date he remained in possession. The judgment-debtor applied unsuccessfully to have the sale set aside for irregularity. He had applied, before the sale took place, to stay the sale on the ground that the right to apply for execution was barred. This application was dismissed, but was allowed on appeal. It did not appear that the auction-purchaser was a party to the proceeding, or that he was cognizant of the application. Two years from the date of the sale, and one and a half years from its confirmation, the judgment-debtor on a summary application obtained an order setting aside the sale and putting the auction-purchaser out of possession :—*Held*, that the order was erroneous, the Judge having no power after the sale had been confirmed, to set aside the sale by a summary order, and that under Art. 165 of Act XV of 1877 the application for such an order was barred. 3. *Dispossession in execution—Application on behalf of a minor objecting to dispossessing.* Limitation Act, 1877, Sch. II, Art. 165, is applicable to a case where the applicant is a party to the decree which is being executed as well as when he is a stranger. Held*, that Art. 165 of the second Schedule to the Indian Limitation Act, 1877, is wide enough to include the case of a judgment-debtor who has been dispossessed of immoveable property, and who disputes the right of the decree-holder to be put in possession. *Assam* v. *Pathumma*, *I. Art. 166 (1871, art. 159)—

Execution—Sale in execution, the judgment-debtor being ignorant of the execution-proceedings through the fraud of the decree-holder—Setting aside proceedings in execution—Civil Procedure Code (XIV of 1882), ss. 294, 311. In 1879 *D* obtained a decree against *S*. *S* gave security for the satisfaction of the decree, whereupon *D* agreed not to take proceedings in execution. In breach of this agreement, *D* in the same year applied for execution and sold certain immoveable property belonging to *S*, of which *K* became the purchaser. *K* did not apply for possession until 1883, in which year he applied for and obtained possession of the property. *S* alleged that he then for the first time became aware of the sale, and that by the fraud of *D* and *K* he had been kept in ignorance of the execution-proceedings taken by in breach of the abovementioned agreement, and within thirty days after *K* obtained possession he (*S*) applied for a reversal of the orders which had been passed in the aforesaid fraudulent proceedings. The Subordinate Judge held that the application was barred by Art. 166 of Sch. II of the Limitation Act (XV of 1877), and referred the applicant to a separate suit to set aside the sale. On application to the High Court :—*Held*, that Art. 166 of Sch. II of the Limitation Act (XV of 1877), did not apply. That Article, as amended by s. 108 of Act X of 1879, only applies to applications made under s. 311 or s. 294 of the Civil Procedure Code, seeking to set aside a sale on the ground of a material irregularity in publishing or conducting the sale, or on the ground that the decree-holder has purchased without the permission of the Court. 1. ——— *Symbolical possession.* A purchaser of immoveable property, sold in execution of a decree must, under Act XV of 1877, Sch. II, Art. 167, if obstructed or resisted in endeavouring to obtain possession, apply, within thirty days, to the Court under the directions of which the execution-sale was held, to be put into actual possession; and if he omits to do so within thirty days from the time when his taking possession was first obstructed or resisted, his only remedy is by a civil suit. The plaintiffs, on the 31st January 1863, purchased a half share in a certain house at a sale in execution of a decree, but took no steps at the time to take possession of it. In 1869 the Nazir of the Court was directed to put them into possession, and gave them symbolical possession. Afterwards in 1871, the plaintiffs again with the assistance of the Nazir entered upon, and for the space of about a minute remained in possession of, one of the rooms in the house, until they were turned out by the defendants. On the 18th of November 1876, the plaintiffs filed a suit, praying for a declaration of right and for a partition, and to be put into separate possession of the share that might be allotted to them on such partition: *Held*, that neither the symbolical possession given to them in 1869 by the Nazir nor the momentary and partial possession which they had obtained in 1871 was sufficient to save limitation; and that, as their suit was brought on the 18th November 1876 more than twelve years after the 31st January 1863, when they first became entitled to possession, it was now barred by limitation. II of the Limitation Act. RAMASEKARA PILLAI *v.* DHARMARAYA GOUNDAN

3. ——— *Civil Procedure Code, 1882 ss. 318, 334—Petition by purchaser at Court-sale for possession—Obstruction to execution of decree—Appeal against order.* On an application made in 1888 under the Civil Procedure Code, s. 318, by the purchaser at a Court-sale (who was the assignee of the decree which was being executed), paying for delivery of possession of the property purchased, it appeared that the sale took place in 1885, that it was confirmed in 1886, and that in January 1887 an order was made for delivery of possession to the purchaser. The judgment-debtor had resisted the purchaser's efforts to obtain possession in 1887, and set up in bar of the application in 1888 an oral agreement alleged to have been made between him and the purchaser. The application was rejected. *Held*, that the application, not being a complaint of obstruction, was not barred by limitation, and should be heard and determined on the merits. MUTTIA *v.* APPASAMI

4. ——— *Minor—Purchase on behalf of a minor during minority—Agent of minor, omission of, to apply within thirty days to remove obstruction of third party in execution-proceedings—Minor's right to apply for possession within three years from the time he comes of age—Civil Procedure Code (XIV of 1882), s. 335.* In 1877, at a sale held in execution of a decree, certain property was purchased on behalf of the applicant, who was then a minor, by the agent nominated by his guardian. An order for delivery of possession was made; but a third party having obstructed the order was returned unexecuted. No further proceedings were taken by the agent. The applicant having come of age, applied for delivery of possession within three years from the date of his attaining majority, but more than thirty days after the date of the obstruction and more than thirty days after he came of age. The Subordinate Judge rejected the application as barred, being of opinion that the omission to apply, within thirty days from the date of the obstruction, on the part of the applicant's agent, as well as the applicant's omission to do so within a similar period after he came of age, barred the applicant, whose remedy lay in a fresh suit:—*Held*, by the High Court, that the application was rightly rejected. It was virtually an attempt to renew the old proceedings, and was barred by Art. 167 of Sch. II of the Limitation Act. If the applicant intended to proceed summarily under the Civil Procedure Code, he should have taken proceedings within a month after he came of age. VINAYAKRAV AMRIT *v.* DEVRAV GOVIND

The Code of Civil Procedure (Act X) of 1877 does not provide that applications for execution shall, like suits, abate by the death of the judgment-creditor; such representative may therefore come in at any time as his coming in is contemplated in Art. 179, explanation of Sch. ——— Applications to enforce a "summary decision" were provided for in s. 22 of Act XIV of 1859, and this was continued in s. 36 of Act IX of 1871, the period of limitation being one year. The provision was omitted in the present Act, but this Article (178) including "applications for which no period of limitation is provided elsewhere in the Schedule" has been inserted. Applications formerly coming under s. 22 of the Act of 1859 and Art. 166 of the Act of 1871, if not otherwise expressly provided for, would presumably therefore now come under Art. 178.

35. ——— *Application for sale in execution of decree—Continuous proceedings.* Upon an application made on the 28th August 1891, for execution of a mortgage decree, the mortgaged property was sold, and the judgment-debtors purchased it benami at a low price. Thereupon the decree-holders made an application, on the 12th November 1891, asking the Court to set aside the benami purchase and resell the property. The first Court found that the purchase was not benami, and confirmed the sale on the 5th April 1892, but the lower Appellate Court came to a contrary conclusion, and set aside the sale on the 22nd July 1892. The High Court, in second appeal, accepted the finding of the Appellate Court as regards the purchase being benami, but upheld the sale with the remark that the said property and any other property of the debtors might be sold in satisfaction of the mortgage-debt. This judgment was passed on the 4th August 1893. On an application for execution made on the 3rd December 1894, an objection was raised on the ground of limitation:—*Held,* that the application of the 3rd December 1894 might be regarded as a continuation of the application of the 12th November 1891 for resale of the property; and as the decree-holders were precluded by the first Court's finding of the 12th April 1892, from asking for sale until it was reversed by the lower Appellate Court on the 22nd July 1892, and finally by the High Court on the 4th August 1893, the application was in time under Art. 178, Sch. decree when remedy of major joint-decree-holder is barred. In execution of a decree for possession of certain lands and for mesne profits, dated the 15th August 1878, possession having been obtained in August 1880, two decree-holders, one of whom was a minor, applied on the 4th April 1882 for ascertainment of the amount of such mesne profits. Upon that application the amin was directed to ascertain the amount due, but after repeated reminders had been sent him, and no report being submitted, the execution-case was struck off the file on the 9th October 1882. The minor judgment-creditor having attained his majority on the 17th April 1885, an application was made by both decree-holders for execution of the decree by ascertainment of the amount of mesne profits and for the recovery of the amount when so ascertained. The judgment-debtors pleaded limitation :—*Held*, that the application was not an application for execution of the decree. The decree was divisible into two parts, and the present application must be treated as for the purpose of obtaining a final decree regarding the mesne profits, the previous decree having been in that respect merely interlocutory. *Barada Sundari Dabia* v. *Fergusson, 11 C. emoved (Art. 178 of Sch. II of Act XV of 1877). Where a decree-holder, whose right of execution as been thus temporarily suspended, dies, his repre-entative has the same rights as he had himself to pply for and obtain a revival of the proceedings, t was contended in the above case that *G* had o right to apply for a revival of proceedings, nless his name was substituted on the record as *J*'s presentative ; that as his right to apply for such ıbstitution accrued immediately upon *J*'s death, hich had happened more than three years pre-usly, so much of his application of 3rd February 880 as related to the substitution of names was ırred by Art. 178 of Sch. II of Act XV of 1877 ; ıd that consequently the other portion of his plication which related to execution was neces-rily inadmissible inasmuch as it depended upon e substitution of *G*'s name, which it was too late effect. *Held*, that, under the circumstances of the se, *G*'s right to apply for the entry of his name in e place of that of *J* could not be regarded as ving accrued immediately upon *J*'s death. At at time *J*'s application for execution, being sus-nded by the injunction, was to all intents and rposes non-existent. It could not be revived ıtil the injunction was removed. During the ntinuance of the injunction, an application by *G* r the entry of his name could not have been enter-ined by the Court, inasmuch as *J*'s application execution was in abeyance and would never be rived at all in the event of *P* succeeding in his t, and even if *P* failed, it might also happen that application would not be revived in favour of *G*, even if he were *J*'s representative at the date his application, he might be dead before the cision of *P*'s suit. 22nd November 1875, in execution of a decree obtained by him as mortgagee against the said *C*. The defendant had obtained a certificate of sale and was put into possession, but had not then registered the certificate. He subsequently obtained another certificate, which was registered in June 1882. In a suit by the plaintiff for possession it was contended that under s. 294 of the Civil Procedure Code (Act XIV of 1882) the defendant took nothing by his purchase as he was the holder of the decree in execution of which the property was sold :—*Held*, that this objection could not now be made, as the right of the judgment-debtor *C* and of the plaintiff as purchaser of his rights, to have the defendant's purchase set aside on this ground, had been barred by limitation long before this suit was brought. The purchase by the defendant was not void *ab initio*, but only voidable " on the application of the judgment-debtor or other person interested in the sale". *Javarbhai* v. *Haribai I. L. 66. ——— *Obstruction to execution—Removal by decision in favour of decree holder—Decree-holder's right to move the Court—Application to be regarded as a continuation of previous application.* A mortgage decree was obtained against the counter-petitioner on 28th February 1894. On 16th May 1895, the decree-holder assigned the decree to petitioner, who applied for execution on 6th December 1897. That application was struck off, and so was one which followed it. On 15th June 1898, petitioner again applied for execution, but counter-petitioner contended that the assignment was for his benefit and that, in consequence, petitioner was not entitled to execute the decree. The District Munsif held an enquiry under s. 232 of the Civil Procedure Code and dismissed the application, being of opinion that counter-petitioner's contention was true. Petitioner thereupon brought a suit to establish her claim that the assignment was for her own benefit. On 20th February 1901, the Appellate Court declared that petitioner had obtained a valid assignment of the decree and was entitled to execute it. On 24th November 1902, petitioner filed the present execution petition. On the question of limitation being raised:—*Held*, that the petitioner's right to execute the decree was not barred by limitation on 24th November 1902. The application should be treated not as an application for execution, but as an application to revive or continue an application for execution that had been wrongly dismissed as a competent Court has declared. Article 178 was, therefore, applicable, and time had begun to run from the date of the appellate decree declaring petitioner's right to execute, dated 20th February 1901. *Narayana Nambi* v. *Pappi Brahmani*, *I. 67. ——— *Appeal—Order refusing application for appointment of commissioner to effect division of property by metes and bounds in partition suit.* The parties to a suit for partition entered into a compromise, which was recorded by the Court and by which their respective shares in the family property were agreed upon. An application was subsequently made for the appointment of a commissioner to effect an actual division of the property, but the Subordinate Judge dismissed it on the ground that the right to claim further relief in the matter had become barred by limitation. This order was reversed on appeal and the case was remanded by the District Judge for disposal according to law. An appeal was then preferred to the High Court against the order of remand, when it was contended that no appeal lay to the District Judge against the order of the Subordinate Judge:—*Held*, that an appeal lay. The order of the Subordinate Judge on the face of it purported to decide a question to be dealt with under s. 244 of the Code of Civil Procedure and was therefore a decree within the meaning of that term in the Court, and that the party against whom it was passed was entitled to appeal therefrom. Even if there was no decree to be executed, and the Subordinate Judge erroneously supposed the matter to be one in execution, and held the application to be barred, such usurpation of jurisdiction could not make the order passed in consequence thereof less appealable than would have been the case had the order been passed in execution proceedings under a decree duly passed. *Hurrish Chunder Chowdhary* v. *Kali Sundari Debia*, *L. ———— *No limitation so long as proceedings initiated by decree-holder are pending—Fresh application barred, if presented more than three years, after removal of bar.* Where the bar to execution proceedings is removed by the order of a lower Court, the fact that an appeal is preferred against such order will not, when execution is not stayed in consequence of such appeal, prevent limitation from running against the execution-creditor, until the disposal of the appeal. A fresh application for execution presented more than three years after the date of the order of the lower Court will be barred by limitation. The dismissal of an execution-petition without notice to the parties and without removing the attachment made thereunder, is a mere direction to the officers of Court to remove the application from the pending list. The execution proceedings are not closed thereby and must be considered pending. The decree-holder's right to apply for their continuance accrues from day to day and will not be barred till three years have elapsed after such proceedings cease to be pending. When an execution application is dismissed as aforesaid, a subsequent application, in so far as it asks for the sale of properties already attached under the former application, is one for continuance of proceedings and not a fresh application for execution. *Kedarnath Dutt* v. *Harra Chand Dutt, I. The effect of s. 40 of the Revenue Recovery Act is to place the purchaser in the position of a decree-holder for the purpose of putting the machinery of the Court in motion to give effect to the certificate of the Revenue authority. S. 40 does not, however, by implication make the law of limitation with reference to the execution of decrees or orders of Civil Courts applicable to proceedings taken under its provisions. The grant of a certificate under s. 38 cannot be considered as a decree or order of a *Civil Court*, although for the purposes of s. 40 it may be regarded as a decree or order. execution in 1874, and his application was disposed of on the ground that the requisite Court-fee had not been paid. His next application was in 1876, and it was disposed of because no property could be found to satisfy the decree. His third application, made on the 10th of March 1879, was one asking merely that the decree might be kept alive. He now applied for the fourth time on the 26th of November 1881, and sought execution of the decree. *Held*, that the law of limitation applicable to proceedings in execution is not the law under which the suit was instituted, but the law in force at the date of the application for execution, in absence of a legislative provision to the contrary (such as that contained in s. 1 of Act IX of 1871). The law of limitation therefore to be applied to the application of the 10th March 1879 was Act XV of 1877; and inasmuch as that application did not ask for any step to be taken towards executing the decree, it was not in accordance with Art. 179, Sch. tion applicable to the execution of a decree, transmitted by one Court to another for execution, depends on the character of the Court which passed the decree and not on the character of the Court executing it. *S*, a judgment-creditor, who had obtained his decree in the Calcutta Court of Small Causes on the 29th July 1884, had it transferred to the High Court for execution, and took certain proceedings there to execute it, which resulted in an order passed on the 13th June 1885, for payment out to him of certain moneys realized in the proceedings in part satisfaction of his decree. Payment was actually made on the 8th August 1885. The next step in execution was an application made on the 14th September 1888; the usual notice was issued, and no cause being shown by the judgment-debtor, an order was made on the 19th December for the attachment of certain moneys in the hands of a receiver belonging to the judgment-debtor. These moneys were also attached by other judgment-creditors. The question was then referred to the Registrar to enquire and report who, under the provisions of s. 295 of the Code of Civil Procedure, were entitled to share in such moneys, and in what proportion. It was objected that *S* was not entitled to share on the ground that on the 14th September 1888 the right to execute his decree was barred by limitation. The question was referred by the Registrar to the Court. *Held*, that, as under Art. 179, Sch. On the 9th December 1885 the plaintiff applied to execute the decree. The defendant resisted the application as being time-barred. He contended that the plaintiff having failed to deliver up the land in his possession within the time specified in the decree, he had lost his right to execute the decree: *Held*, that the application was not time-barred. The specification of the end of Margashirsha had merely the effect of postponing the operation of the decree till that time, and the plaintiff had three years from that date within which he might seek execution. In 1888 various members of the Vadagalai sect, asserting that the members of Tengalai sect had acted in contravention of the decree in the above suit, filed an execution-petition therein, praying that various members of the Tengalai sect be arrested, and "that the image of their priest, which they attempt to worship publicly, be removed until they obey the terms of the decree." It appeared that in 1868 the District Magistrate had granted an application to restrain the Tengalais from acting contrary to the above decree. 22. ——— *Suit to set aside an order in a claim-case—Continuation of previous application.* Upon an application for execution, dated the 13th March 1891, the judgment-debtor's property having been attached, a claim was preferred by a third party and allowed. The decree-holder brought a suit for a declaration that the property belonged to the judgment-debtor, and the suit was decreed. The decree-holder thereupon made an application for execution on the 16th July 1894, more than three years after his previous application:—*Held*, that the order in the claim-case operated as a temporary bar to the execution-proceedings, and it was not until the removal of that bar by a suit which the decree-holder was compelled to institute that he was placed in a position to proceed with the execution. The present application, made subsequently to the removal of the bar should be treated as a continuation of the previous application which was admittedly in time; and the execution was not barred by limitation. *Raghunandun Pershad* v. *Bhugoo Lall, I. 23. ——— *Decree for possession with mesne profits till delivery of possession—Darkhast for execution—Obstruction in execution—Application for removal of obstruction registered as a suit—Disposal of the darkhast.* The plaintiffs, having obtained a decree for possession of certain lands with mesne profits till delivery of possession, applied for execution. An obstruction having been caused to the execution, plaintiffs applied for the removal of the obstruction, and their application was registered as a suit under s. 331 of the Civil Procedure Code (Act XIV of 1882), and their darkhast for execution was disposed of by the Court. The suit was decided in plaintiffs' favour, and they having applied for execution, it was contended that the application was time-barred, as it was presented after the expiration of three years from the time of the disposal of the original darkhast, and it was wrong to grant mesne profits for more than three years from the date of the decree, though—possession was not delivered during that period:—*Held*, that, when litigation under s. 331 of the Civil Procedure Code (Act XIV of 1882) is pending, the proceedings in execution are suspended during that litigation; the application therefore was not barred but was to be considered as a renewal of the former application before the obstruction to execution took place. 24. ——— *Application for execution of decree—Revival—Dekkan Agriculturists' Relief Act, 1879 and 1881, s. 18.* On 20th July 1871 the plaintiffs obtained a decree against the defendants for the sum of ₹4,083 and for the sale of their mortgaged property. On the 16th July 1877 the plaintiffs applied for execution. The application was granted, the property was attached, and the sale was fixed for the 30th November 1878. On the 18th November 1878 one of the defendants applied for a postponement of the sale until harvest time, when he said he would pay the amount of decree. The sale was accordingly, with the plaintiffs' consent, postponed to the 31st May 1879. On the 13th June 1879 the plaintiffs informed the Court that negotiations were proceeding between themselves and the defendants for the settlement of the decree, and prayed that their application of the 16th July 1877 might be struck off; adding that, if the negotiations failed, they would present a fresh application. The negotiations for settlement proved abortive, and the case being one to which the Dekkan Agriculturists' Relief Act (XVII of 1879) applied, the plaintiffs took steps to obtain a conciliator's certificate. These proceedings occupied the period from 3rd July 1880 to the 9th January 1881. The certificate was granted on the 1st December 1881. On the 13th December 1881, more than three years after the date of the previous application, *viz.*, 16th July 1877, the plaintiffs made the present application for execution. The defendants contended that it was barred by limitation:—*Held*, that the application was not barred. As it was understood between the parties, when the application of the 16th July 1877 was struck off on the 13th June 1879, that, if negotiations failed, a fresh application should be presented, the application of the 13th December 1881 was to be regarded as an application for the revival of the old execution-proceedings. But, in any case, the application, by the defendant, of the 18th November 1877, for a postponement of the sale of his property when he promised to pay the amount of the decree, was an admission of the plaintiff's right to execute the decree within the contemplation of s. 19 of the Limitation Act (XV of 1877), and created a new period of limitation, which would ordinarily have expired on the 18th November 1881. As, however by the provisions of the Dekkan Agriculturists' Relief Act the period during which the conciliator was endeavouring to effect an amicable settlement—*viz.*, from 8th July 1880 to 1st December 1881—would have to be deducted, the present application was within time. Meanwhile, in July 1881, the Eg Court in second appeal raised the amount to be ic by the plaintiff to ₹2,400 but the plaintiff allo the time limited for payment of the excess differ ce to elapse without paying it, and the decree for e emption thereupon became dead. In May 13 the plaintiff applied in the execution departm nt for the refund of the deposit which had been dr vn and retained by the defendant. This applic on was granted, and the defendant ordered to refid and this order was confirmed on appeal in Janu 1885, and by the High Court in second appe in May 1885. Meanwhile the first Court had us- pended execution of the order pending the sult of the appeal, and in December 1884 remove th application temporarily from the "pending 'ist. In February 1885, the plaintiff applied for reitu tion of the amount deposited, asking for auch- ment and sale of property belonging to the dend- ant. This application was dismissed as ired by limitation:—*Held*, that this application wa nly a revival of the application of May 1883 whic was within time. *Held*, also, that the plaintiff w, in the sense of s. 583 of the Civil Procedure ode "a party entitled to a benefit by way of resti tion under the decree" of the High Court of July 881 that it was a necessary incident of that decr that he was entitled to restitution of the sum wh n he had paid as the sufficient price under the dee of the lower Appellate Court; that he was com ten under s. 583 to move the local Court to exec th appellate decree in this respect in his favou ac- cording to the rules prescribed for the exec on o decree in suits;" that he did this in May 188 y an application made according to law in the rope Court in the sense of Art. 179 of the Lin ation Act; and that his present application to th sam effect being within three years from that lica- tion, was within time. This estate was sold on the 20th February 1877, being put up for sale in one lot in satisfaction of both decrees, in accordance with an application made by G on the 16th February, and was purchased by *G* for the amount of the decrees. This sale was subsequently confirmed, and on the 10th December 1877, satisfaction of the decrees was entered up, and the execution-proceedings struck off the file. Subsequently three of the heirs of *S* in one case, and two in another, instituted suits against *G* claiming to recover from him such portion of the proceeds of the sale of *S's* property as had been appropriated to the discharge of *G's* decree against *S*, and such heirs obtained decrees for certain sums, which *G* was obliged to pay. *G* thereupon, on the 16th May 1879, applied for execution of his decree against *S* :—*Held*, that such application was not one in continuation of that made on the 7th September 1875, but was a fresh application, and the application made by *G* on the 16th February 1877 was not one for a step in aid of execution within the meaning of Art. 179, Sch. The attachment was disputed, and ultimately, on the 16th July 1875, was raised. In the same year the appellant brought a suit for a declaration that the property in question was liable to attachment which was finally rejected on the 8th July 1880. On the 30th November following, the appellant applied for the arrest of the respondent. The lower Court rejected the application as not being made within three years of the decree, as provided by Act XV of 1877, Sch. II, Art. 179. On appeal to the High Court :—*Held*, that the execution process last applied for was distinct in its nature from, and in no way a continuance or revival of, the previous proceedings in execution, and was therefore made too late, more than three years

The plaintiff appealed as to the $\frac{7}{72}$ are only. He made all the defendants respondents the appeal, but the name of the first defendant ıs afterwards struck out, as he could not be rved with notice. His interests, however, were ·ntical with those of defendants Nos. 3 to 7. On e 30th July 1892 the plaintiff's appeal was dis- ssed. On the 3rd July 1895 the plaintiff applied - execution of the original decree. The defend- ts contended that, as the appeal related only to at part of the decree which related to the $\frac{7}{72}$ share the second defendant, the rest of the decree was ıaffected by the appeal, and that consequently the ıintiff's application for execution of that decree ıs barred under Art. 179 of the Limitation Act .V of 1877), not having been made within three ars from the 26th June 1891 :—*Held*, that the plication was not barred. again not being made a party. On 23rd July 1894, the District Munsif delivered a revised judgment, in which he again held the second defendant's share liable, but gave both defendants two months' time for payment, which provision was not contained in the original decree. This revised judgment was upheld by the District Court on appeal on 25th March 1895, and by the High Court on second appeal on 22nd February 1897, with the modification that the decree as against second defendant should be treated as a money-decree. First defendant was again not a party to either appeal. On 7th August 1897, plaintiff applied for execution, whereupon first defendant pleaded limitation :—*Held*, that the decree as against the first defendant was not barred by limitation, inasmuch as it had been imperilled by the appeal on the second defendant. *Per* MOORE, *J.*—Under Art. 179, cl. (2), of Sch. II of the Limitation Act, it is immaterial whether some only or all of several judgment-debtors prefer an appeal. There is only one decree that can be executed, and that is the final decree of the Appellate Court. *Per* O'FARRELL, *J.*—On the general question as to the construction of Art. 179, Sch. II of the Limitation Act, the plain words of the Act have been unduly narrowed by the decision in *Muthu* v. *Chellappa, I.L. R. 12 Mad. 479*; the consideration of such subtle points as whether a decree was or was not "imperilled" by an appeal was foreign to the intention of the Legislature. On 10th July 1871, however, the High Court, in an appeal by *B*, held *A's* application for execution to have been time-barred, and reversed the orders of the two lower Courts. *A* having been put in possession of the fields under the orders of lower Courts, *B*, on a reversal of those orders by the High Court, applied on 9th July 1874 to have the fields restored to him, together with the mesne profits accruing during the time of his dispossession. The first Court awarded the fields to *B* with mesne profits; but the District Judge on appeal held *B's* application barred under Act IX of 1871, Sch. II, cl. 166 :—*Held* by the High Court, that the exception in Art. 166 of Sch. II of the Limitation Act, IX of 1871, was not restricted to any particular species of appeal; that *B's* application fell within Art. 167, and not within Art. 166; and therefore was not barred. 72. ——— *Appellate order in execution.* The holder of a decree for possession and partition of a share of certain immoveable property, dated the 19th January 1878, applied for execution on the 2nd February 1878. An order was made by the Court of first instance, from which the decree-holder appealed. The Appellate Court, on the 18th September 1878, reversed the order of the first Court, and directed that the partition of the property should be effected by lots, and remanded the case for that purpose. The first Court proceeded to carry out the order of the Appellate Court, but eventually struck off the case, on the 15th February 1879, as the decree-holder failed to appear personally when ordered to do so. On the 13th September 1881, the legal representative of the deceased decree-holder, who had meantime died, applied, with reference to the order of the Appellate Court dated the 18th September 1878, to have lots drawn in accordance with that order :—*Held*, on the question whether this application was barred by limitation, that, if it were regarded as nothing more than an application for execution of the original decree, it might be barred, inasmuch as it had been made more than three years after the date of the last application, and it was doubtful whether the 2nd clause in the 3rd column of Art. 179, Sch. II of Act XV of 1877, would apply, since the appeal there referred to is probably an appeal from the decree or order of which execution is being taken referred to in the first clause of that article, and not an appeal in course of execution of that decree or order ; that, however, the order of the Appellate Court, dated the 18th September 1878, was itself of the nature of a decree and capable of execution, and for the execution of which an application could be made to which that article would apply ; that the application in question should be regarded as one for execution of that order ; and that therefore, so regarding, it was within time. On the 23rd December 1882 an application was filed by the decree-holder for execution of the decree :—*Held*, with reference to Act XV of 1877 (Limitation Act), Sch. The defendant's application was rejected on the 15th of November 1876, and an appeal by the defendant, pending which the stay of execution was continued, was dismissed on the 19th of December 1877. Previously,—*viz.*, on the 21st of February 1877—the execution case had been struck off the file—*Held*, that, notwithstanding the application was made more than three years after the decree, and the plaintiff was not entitled to any deduction of the time during which the execution was stayed by order of Court, an application for execution made on the 10th of December 1880 was under Art. 179 of Act XV of 1877, not barred, the decree not being final until the order dismissing the appeal on the 19th of December 1877. The next application for execution of the decree was made by the decree-holder on the 19th February 1883 :—*Held*, that, the application of the 20th July 1880 having been put in and afterwards taken back by the decree-holder, the proceeding became to all intents and purposes as though no application had been made ; that therefore it could have no effect as an application made in accordance with law for execution within the meaning of Art. 179, Sch. 15. ——— *Nature of application under s. 179, cl. 4, of the Limitation Act, 1877.* To satisfy the requirements of Art. 179 (4) of Sch. II of the Limitation Act (XV of 1877), there must be an application to the proper Court, and time runs from the date of the application, and not of the order made upon it. The application need not, however, necessarily be in writing; where the law does not require a writing, an oral application satisfies its requirements. Where an order made in aid of execution is of such a nature that the Court would not have made it without an application by the judgment-creditor, it may be presumed that due application had been made for it. He relied in bar of limitation on an application for execution made by his son, who had obtained a decree against him in 1881 in a partition suit, whereby his right was established to one-fifth of whatever should be acquired by the father by virtue of the decree of 1878. The father's application for execution in 1888 was held to be barred by limitation in *Ramasami* v. *Anda P*, *I. L. R. 13 Mad. 347.* On review it appeared that the son had applied for execution of the whole decree, stating that his father would not join him in such application, and that notice was given to the father :—*Held*, (i) that the son was an assignee by operation of law of one-fifth of the judgment debt in the suit of 1878 ; (ii) that his application accordingly kept the decree alive under Limitation Act, 1877, Sch. II, Art. 179, cl. 4, and the father's application in 1888 was not barred by limitation. In this view no question arose as to the effect of expl. 17. ——— *Civil Procedure Code (Act XIV of 1882), ss. 232, 248—Application for execution by transferee of decree—Benamidar.* The words "in accordance with law" in Art. 79 of Sch. II of the Limitation Act mean in accordance with the law relating to execution of decrees. Under s.232 of the Civil Procedure Code, the Court executing the decree after giving notice to the decree-holder and judgment-debtor and hearing their objections if any, has an absolute discretion to allow, or to refuse to allow, execution to proceed at the instance of a person to whom a decree has been transferred by an assignment in writing. When therefore a decree is transferred (really or nominally) by assignment in writing, and the ostensible transferee executes the decree with the permission of the Court, the proceedings taken and the application on which they are based are in accordance with law as between such transferee and the judgment-debtor, although he may be merely a benamidar, and such proceedings and application, if made in proper time, are sufficient to keep the decree alive. *Denonath Chuckerbutty* v. *Lalit Coomar Gangopadhya, I. At the time of this application the heirs had neither taken out a certificate under Act VII of 1889 nor had they applied for substitution of their names on the record. The *bhatta* (process-fee), however, was not paid to the *Nazir* until afterwards, namely, on the 8th November, 1897. There was no written application in connection with this payment, nor did it appear that there was any oral application at the time of the payment, except such as might be inferred from the fact of payment:—*Held,* that such a payment of *bhatta* did not constitute a fresh starting point from which the period of limitation prescribed by Art. 179 of Sch. II to the Limitation Act (XV of 1877) began to run. From the mere fact of payment of *bhatta* an application such as is prescribed by that article cannot be inferred: at most, it would merely be an application to receive the money, and the payment would be no more than the performance of a condition essential to the order for execution. An oral application for execution answers the require-

25. ——— *Decree—Execution of decree—Application to execute the decree—Application not accompanied by a certified copy of the decree under execution—Application made "in accordance with law"—Step-in-aid—High Court Civil Circulars, Rule 80.* On the 3rd February 1900 the decree-holder first applied to execute his decree. In 1902 he again applied to execute his decree; but this second application was dismissed as it was not accompanied by a certified copy of the decree (High Court Civil Circulars, Rule 80). On the 18th June 1905 the decree-holder applied for the third time to execute the decree. The lower Courts held that the application of 1902 not having been accompanied by a certified copy of the decree was not one made "in accordance with law," and that consequently the third application was barred by time:—*Held*, that the application of 1902 though not accompanied by a copy of the decree, as required by Rule 80 of the High Court Circulars, was an application "in accordance with law" within the meaning of Art. 179, Sch. The proper view to take of Rule 80 of the High Court Civil Circulars is not that it prescribes the essentials which an application for execution must contain and which are necessary to constitute the application itself an application in accordance with law, but that it requires something further besides the application itself, an accompaniment extraneous to the application as a condition precedent to further action by the Court executing the decree. The Limitation Act (XV of 1877) as an enactment of a restrictive character must be strictly construed. *Umiashankar* v. *Chhotalal, I. L. R. 1 Bom. 19*, followed. RAMCHANDRA *v.* LAXMAN (1906) **I. The decree-holder having died, his widow who was not brought on the record applied on the 12th February 1901 to execute the decree. The application was dismissed as the fifth defendant's hypothecation was not then discharged but was only satisfied on the 29th October 190[illegible]. The question arising in subsequent execution proceedings whether the application of 12th February 1901 was one in accordance with law" within the meaning of Art. 179 of Sch. II of the Limitation Act:—*Held*, that the application was in accordance with law. The terms of the decree only precluded recovery of the decretal amount from defendants Nos. 1, 2 and 3 and the hypothecated property before the fifth defendant's debt was discharged and such discharge was not a condition precedent to an application for a conditional order directing a sale on plaintiff paying off such debt. On the death of the decree-holder the right to execute the decree devolved on his widow, who was entitled, without being brought on the record, to apply under s. 232 of the Code of Civil Procedure for execution, as ss. 365 and 366 of the Code of Civil Procedure apply only to the case of a plaintiff dying

31. ——— *Application for execution of decree—Proceeding to enforce decree.* The "application" spoken of in Art. 167, cl. 4, of Sch. II to Act IX of 1871 is not merely such an application as is contemplated by s. 212 of Act VIII of 1859, but includes an application to keep in force a decree or order. The language of Art. 167, cl. 4, of Sch. II to Act IX of 1871 is wide enough to include any application to enforce or keep in force decrees or orders, and consequently an application to enforce or keep in force a decree by the attachment of a portion of the property of the defendant will keep the decree alive against the residue of his property or his person. An order for attachment of a pension in satisfaction of a decree, obtained on the 10th December 1863, was made on 16th April 1869. After the passing of the Pensions Act (XXII of 1871), the Deputy Collector refused to continue paying the pension to the decree-holder, and returned to the Court the warrant of execution issued under the order of 16th April 1869; and an order, finally disposing of the application for attachment, was made on 14th June 1872. On 19th June 1872 the decree-holder presented a fresh application, praying that the attachment of the pension might be continued, and a letter be written to the Collector, directing him to continue to pay the pension to the decree-holder, as directed by the order of 16th April 1869. *Held,* that such last-mentioned application came within cl. 4 of Art. 167 of Sch. II to Act IX of 1871 and that consequently an application, on 24th July 1874, for execution of the decree of 10th December 1863, was not barred. *Held,* also, that the decree might properly be enforced against property of the defendant, mentioned in the application of 1874, other than the property mentioned in the applications of 1869 and 1872. An application for execution of the decree was made by the plaintiff on 7th July 1891 within three years from the date of the final decree, dated 9th July 1888. the Civil Procedure Code, inasmuch as it did not contain the right number of the suit in which the decree was passed, an order was made on the 19th January directing the petitioner to amend the application within four days by giving the correct number. That order was not complied with, and the petition was left on the file of the Court without being disposed of in any way till the 21st September 1882, on which date, more than three years having then elapsed since the date of the decree, it was returned to the vakeel of the petitioner for amendment within eight days. The required amendment was made, and the application again filed on the file of the Court on the 22nd September. On an objection being taken that the decree was barred, and the execution could not issue :—*Held*, following the principles laid down in the case of *Mahomed* v. *Abedoollah, 12 C. L. R. 279*,—that it was the duty of the Court to dismiss the application when it found that it was informal, and thus to give the applicant an opportunity of putting in a proper application, and that the decree-holder should not be made to suffer for such omission on the part of the Court,—that the former application could not, though informal, be treated as nullity; and that the application on the 22nd September must be taken as having been presented with the object of amending the original informal application; and that it was in continuation of the execution-proceeding commenced, however informally, on the 19th January 1882; and that consequently the decree was not barred. *Held*, also, that the act of the application having been returned to the vakil for amendment instead of being amended and on the file of the Court, made no difference to the application of the above principle. ——— *Dekkhan Agriculturists' Relief Act, XVII of 1879, s. 22—Conciliation agreement—Civil Procedure Code (Act XIV of 1882), s. 261—Application for attachment of an agriculturist's property.* A conciliation agreement, dated the 2nd October 1880, between the decree-holder and the judgment-debtor, stipulating that the former should allow a remission of R10 and the latter should execute a document for the remainder sum of R90, to be paid in 1882, was filed in Court on 20th November 1880. In 1883 the decree-holder presented two applications for satisfaction of the agreed debt of R90 by attachment of the debtor's property, which applications were granted, but were not proceeded with through some default of the decree-holder. On 4th June 1885 the decree-holder made the present application, praying that under ss. 261 and 262 of the Civil Procedure Code (Act XIV of 1882) an order directing the judgment-debtor to execute a bond in terms of the conciliation agreement might be made, or that the Court might execute one on his behalf. On reference by the Subordinate Judge under s. 617 of the Civil Procedure Code (Act XIV of 1882) to the High Court :—*Held*, that the applications in 1883 for attachment of the debtor's property were not "in accordance with law," being forbidden by the Dekkhan Agriculturists' Relief Act, XVII of 1879, s. 22; and that the present application under s. 261 of the Civil Procedure Code (Act XIV of 1882) was therefore too late under cl. 4, Art. 179 of Sch. 54. ——— *Application by pleader for execution after decree-holder's death.* Where a decree-holder died without taking out execution of his decree, and two days after his death his pleader made an application for execution on his behalf, this being the first application of the kind :—*Held*, that, inasmuch as the authority of a pleader ceases at the moment of his client's death, the application was invalid, and was not such an application or step in aid of execution of the decree as could save a subsequent application for execution by the decree-holder's heirs from being barred by limitation. 55. ——— *Decree in favour of firm in name of agent—Application for execution by another agent.* A decree was passed in favour of a firm in the name of an agent of the firm. The second and subsequent applications for execution were made by an agent of the firm other than the agent named in the decree. Certain persons, alleging that they were the proprietors of the firm, applied for execution of the decree. The application was refused, on the ground that the proceedings in execution taken by the last-mentioned agent were invalid, and execution of the decree was therefore barred by limitation. *Held*, that such proceedings, however irregular, were not invalid. Before receiving payment, *A* died, and the execution-proceedings were struck off on the 31st January 1880. On the 14th June 1880 and on the 22nd June 1881, the widow of *A*, who had taken out probate, applied to withdraw this money from Court, and on the 1st

At the time of these three applications the widow had not applied for substitution of her name on the record in the place of her deceased husband. On the 5th January 1884 the widow applied to have her name substituted on the record, and for execution. *Held*, that the application was barred, as the previous applications were not, under the circumstances, steps in aid of execution. In December 1880, the first application for execution was made. Through mistake execution was sought against *C* herself as 'widow of *B*,' and not as guardian of the minor *N*. That application was granted, and certain property belonging to the minor was attached. On the 29th November 1883 the second application for execution was made against the minor as represented by his guardian *C*. The present application for execution was made on the 3rd December 1884. This application was rejected as time-barred by the District Court on appeal, on the ground that the first application, having been made against a wrong person, could not be taken into account; that therefore it could not keep the decree alive, and that the present application was barred. *Held*, reversing the decision of the lower Court, that the decree-holder ought not to be deprived of the fruit of his decree on account of a technical defect in his application of 1880. The minor was substantially and for all practical purposes represented by his mother. HARI *v.* NARAYAN . **I. L. R. 12 Bom. 427**

After *G*'s death, his son made an application, on the 10th March 1871, praying for substitution of his name in the place of his deceased father, and that the money due under the decree should be recovered and paid to him as heir of the original plaintiff. On the 3rd January 1874, and several times subsequently, the son applied for execution of the decree, his last application being in 1878. Both the lower Courts held that the application of the 10th March 1871 was not an application "to enforce or keep in force the decree," that the application of the 3rd January 1874 was therefore barred by limitation, having been made more than three years after the first application of the 23rd July 1870, and that consequently the subsequent applications were barred. On appeal to the High Court :—*Held*, that the application of the 10th March 1871 was an application "to enforce the decree," and fell within Art. 167 of Sch. II of Act IX of 1871. On 13th March 1896, the decree-holder made an application for delivery to him of the lands so purchased, but delivery was not made in respect of some of them. On 6th March, 1899, an application was made for further execution of the decree. *Held*, that the execution was not complete so long as the purchaser had not secured possession, and that the application of 13th March might fairly be called an application to take a step in aid of execution. *Sariatoolla Molla* v. *Raj Kumar Ir*, *I. There was no prayer in the petition that the money should be paid to the petitioner. An order, purporting to be made under s. 272 of the Code of Civil Procedure, was made on 19th November 1895 requesting the Department to remit the amount to the Court. On 5 April 1898, the Treasury Deputy Collector informed the Court that there was a balance due to the judgment-debtor. On 12th December 1898, the decree-holder petitioned the Court, under ss. 5 and 272 of the Code, that the said balance might be sent for and paid to him. *Held*, that the application was not barred, and that Art. 1 Sch. but not under decree. The question whether an application to enforce execution of a decree was barred by limitation depended upon whether a payment out of Court to plaintiffs of money collected by a receiver constituted (with the application alleged to have preceded it) a step in aid of execution within the meaning of Art. 179 of Sch. II to the Limitation Act. The receiver had been appointed during the pendency of the suit, which was by mortgagees for possession of the mortgaged land and for mesne profits accrued prior to the date of plaint. The receiver remained in possession of the land for a period of six months after decree, when he handed it over to the plaintiffs; and the payment out of Court above referred to was of money which had apparently been collected by the receiver during the said six months, and formed no part of the mesne profits dealt with by the decree. *Held*, that such money was not collected or paid in execution of the decree, though the plaintiffs had become entitled to it as a consequence of the decree. It consisted of current profits of the estate, in demanding which plaintiffs had done nothing towards the execution of the decree, which did not deal with such profits and which could be fully executed without reference to them. And *held*, therefore, that the payment referred to did not constitute a step in aid of execution, and that the present application was barred by Art. 179 of Sch. II to the Limitation Act. 12. ——— *Application by decree-holder for postponement of sale—Application to take some step in aid of execution of decree.* An application by a decree-holder for the postponement of a sale in execution of the decree on the ground that he had allowed the judgment-debtor time, is not "an application according to law to the proper Court for execution, or to take some step in aid of execution, of the decree," within the meaning of Art. 179, Sch. 14. ——— *Application to postpone sale on consent of parties.* Application for execution of a decree was made on the 22nd November 1875, and in pursuance of such application certain property belonging to the judgment-debtor was advertised for sale on the 27th March 1876. On the latter date the parties to such decree made a joint application in writing to the Court, wherein it was stated that the judgment-debtor had made a certain payment on account of such decree, and the decree-holders had agreed to give him four months' time to pay the balance thereof, and it was prayed that such sale might be postponed and such time might be granted. The Court on the same day made an order on such application postponing such sale. The next application for execution of such decree was made on the 17th January 1879. The lower Appellate Court held, with reference to the question whether such application had been made within the time limited by law, that it had been so made, as under Art. 179 (*6*), Sch. II of Act XV of 1877, such time began to run from the date of the expiration of the period of grace allowed to the judgment-debtor under the application of the 27th March 1876 :—*Held*, that Art. 179 (*6*) had not any relevancy to the present case ; but inasmuch as the proceedings of the 27th March 1876 might be considered as properly constituting a "step in aid of execution" within the meaning of Art. 179 (*4*), the application of the 17th January 1879 was within time. 119. ——— *Application to sell attached property subject to a mortgage.* A judgment-creditor applied, on the 22nd May 1882, for execution of a decree, dated 7th November 1881, and certain property of the judgment-debtor's was attached. Thereupon a claim was preferred by a mortgagee, and on the 10th August 1882 the judgment-debtor admitted the claim and applied that the property might be sold subject to the claimant's mortgage, and the proceeds, if any, paid over to him in part satisfaction of his decree. On the 20th June 1885 another application was made for execution, and on the 29th November 1886 a third application was made. To the latter application objection was taken, and it was contended that the decree was barred by reason of more than three years having elapsed between the application of the 22nd May 1882 and that of the 20th June 1885. *Held*, that the application of the 10th August 1882 by the judgment-creditor to allow the sale of attached property subject to the mortgage of the claimant was "a step in aid of execution of the decree" within the meaning of Art. 179, Sch. The deed was afterwards duly registered. The next application for execution of the decree was made on the 25th April 1888 :—*Held*, (i) that the deed of assignment was not a document which comprised immoveable property within the meaning of s. 49 of the Registration Act (III of 1877), a decree for sale not being immoveable property as defined in s. 3 ; (ii) that consequently, although the assignee might not under the latter portion of s. 49 use the deed for the purpose of proving his title, there was no provision in the Act saying that he should not take title under the deed ; (iii) that the position of the assignee when he made his application on 10th November 1886 was that he was unable prove that there was a title by assignment himself ; (iv) that the subsequent registration cu the absence of registration on the 13th Novem 1886, and under s. 47 of the Registration Act document thereupon had full effect, and rel back to its execution ; (v) that the application the 13th November 1886 was a step in aid of exe tion of the decree within the meaning of Art. 1, cl. 4, of Sch. On 30th September, 1896, the decree-holder applied to the Court, under ss. 286 and 287 of the Code of Civil Procedure for an order directing the sale of the mortgaged property ; and an order was passed accordingly. This application was subsequently dismissed for failure to pay the expenses. On 10th October, 1896, another application for execution was made, but no further step in execution was taken for more than three years, namely, till 20th November, 1899, when the decree-holder applied for an order absolute under s. 89 of the Transfer of Property Act. He contended that, as such an order had never been made, he was entitled to ask for it, and that, inasmuch as his application was not one for execution, it was not barred by limitation under Art. 179 of Sch. II to the Limitation Act :—*Held*, that the order passed on the application of 30th September, 1896, must be taken to be an order absolute for sale, as well as an order directing certain other steps in execution, and it was in consequence not open to the decree-holder to apply now for an order under s. 89 of the Transfer of Property Act. His present application must accordingly be regarded as an application for execution, and as such it was barred under Art. 179 of Sch. II to the Limitation Act. The application therefore was an application to take some step in aid of execution within Art. 179, cl. (4), Sch. II, of the Limitation Act. *Hem Chandra Chowdhry v. Brojo Sundari Debee, I. L. so in execution thereof. On the 22nd of April 1 the Court passed an order confirming the sale. O the 10th of January 1882 the decree-holder applied to the Court for a copy of the decree, in order that he might make a fresh application for execution. On the 28th of March 1884 he applied for execution. The judgment-debtor appeared and pleaded that execution was barred by limitation. The Court of first instance held that execution was barred on the ground that the passing of the order of the 22nd of April 1881 was sufficient, under the provisions of Art. 179, cl. 4, of the Limitation Act of 1877, to keep the decree alive. The Appellate Court also held that execution was not barred by limitation, but solely on the ground that the application of the 10th of January 88 was sufficient to keep the decree alive. It did not appear that the order of the 19th of February 1881 was passed in consequence of any application by the decree-holder, and neither the application of the 10th of January 1882 nor any order thereof was put in evidence on the present application:—*Held*, on appeal to the High Court, that the execution of the decree was barred by limitation. Again, on the 4th February 1873, application was made for execution, and notice was issued on the 19th February 1873 under s. 216. A subsequent application for execution was made on the 31st August 1874, and the order for notice to issue under s. 216 was made on the same day. The question raised in appeal against the order to issue execution was whether the plaintiff's right to execution was barred, if it had been so when the application, dated 31st August 1874, for execution was made :—*Held*, on appeal, by the High Court (KERNAN and KINDERSLEY, *JJ.*), that, as the application for execution on the 1st February 1873, being more than three years after the date of issuing the last prior notice under s. 216—*viz.*, 27th November 1869—was late under Sch. II, 167, paragraph 5, Act IX of 1871, execution was barred by limitation at and before the date of the application, and that this bar was not removed by the circumstance that the judgment-debtor had allowed the service of the notice on him in February 1873, to pass unchallenged. *Chilicany* v. *Rivulu Naidu, 5 Mad. 100,* distinguished. The judgment-debtors paid the annuity for some years. In 1881 the widow applied for execution of the decree, and recovered three years' arrears. In 1885, payments having again fallen into arrear, she again applied for execution but her application was rejected as barred by limitation, having been made more than three years after the last preceding application :—*Held,* that the application was not time-barred. The decree created a periodically recurring right. Though no precise date was specified in the decree for payment of the annuity, the judgment-debtors were liable to make the payment on the day year from its date, and thenceforward on the corresponding date year after year. The decree was, as to each year's annuity, to be regarded as speaking on the day upon which for that year it became operative, and separately for each year. The right to execute occurring on a particular day, limitation should be computed from that day should the judgment-debtor fail to obey the order of the Court. *Sakharam Dikshit* v. *Ganesh Satha, I. The application was then struck off on the 26th June 1878. On the 30th June 1881 the decree-holder again applied for execution, and on the 11th July 1881 the judgment-debtor, with the consent of the decree-holder, applied for time to pay the balance due till the 8th September 1881, and that application was also struck off. On the 1st March 1883 the decree-holder again applied for execution :—*Held*, that the application was not barred by limitation upon the ground that the application by the judgment-debtor, made on the 11th July 1881, alleging that he had come to an arrangement with the decree-holder for the payment of the amount due by instalments, having resulted in its being registered and the proceedings struck off, amounted to a direction that the decretal amount be paid by instalments as stipulated in the petitions, and that this being so, there was a decree passed on that date under the provisions of the second paragraph of s. 210 of the Code of Civil Procedure, of which the decree-holder was entitled to have execution. On the 1st September 1883 the decree-holders applied for execution of the decree, alleging that the first four instalments had been paid, but not any of the succeeding instalments, and they claimed to recover, under the terms of the decree, the fifth and all the remaining instalments in a lump sum. The judgment-debtors contended that the application was barred by limitation, as they had not paid a single instalment, and more than three years had elapsed from the date of the first default; and that, even if the first four instalments had been paid, such payments could not be recognized by the Court as they had not been certified:—*Held*, reversing the decision of the lower Appellate Court, that if the four annual instalments had not been paid under the decree, the execution of the decree was barred by limitation. *Held*, also, that recognition of such instalments was not barred by the terms of s. 258 of the Civil Procedure Code. *Sham Lal* v. *Kanahia Lal, I. 23. *Decree payable by instalments—Waiver by decree-holder—Payment out of Court—Civil Procedure Code, s. 258.* An application for execution of a decree payable by instalments was resisted by the judgment-debtor as barred by limitation on the ground that nothing had been paid under the decree, and that the application as made more than three years after the first instalment fell due. The decree-holder pleaded that he had waived the default in payment of the first instalment by accepting such payment shortly afterwards, and that the application was in time, having been made within three years from the date when the second instalment was due:—*Held*, that the decree-holder could not raise this plea, as the payment in question had not been certified to the Court executing the decree, and therefore could not, under s. 258 of the Civil Procedure Code, be recognised. *Sham Lal* v. *Kanahia Lal, I. On the 13th December 1879 he applied for execution for the amount then remaining due :—*Held*, that the period of limitation prescribed by Art. 179, Sch. 25. ——————— *Decree payable by instalments.* On an application, dated 10th Aughran 1288, for execution of a decree which provided, on the basis of a kistbundi, that the amount decreed should be paid in four instalments annually, extending over the years 1284, 1285, 1286, 1287, and that, if there should be default in payment of any instalment and that instalment should remain unpaid for six months, the whole of the decree should at once become due, it was objected that the application was barred on the ground that, the instalments for 1284 not having been paid, the whole amount of decree had become payable within six months for the first default. The application was to recover the instalments due for 1285, 1286, and 1287 :—*Held*, that the application was not barred, except as to the instalment of 1285, which fell due in Jaith, as it was optional with the decree-holder to realize the whole decree at once upon default being made, or to waive his right to do so and seek to realize instalments as they became due. *Ashmutullah Dalal* v. *Kally Churn Mitter, I. 26 ——————— *Decree payable by instalments—Option to execute—Waiver—Construction of decree.* Where a decree is made payable by instalments, and contains a provision that, on failure of any one instalment, the whole is to become due, the question whether the decree-holder may waive the benefit of the provision or must execute his decreee within three years from the due date of the first instalment of which default is made in payment is a question purely of construction to be decided on the terms of the whole decree in each case. On an application for execution of a decree made payable by instalments :—*Held*, that the application was barred by limitation, on the ground that the judgment-creditor should have applied for execution within three years from the date of the first default in payment. 27. ——————— *Default in payment of instalments—Right of decree-holder to waive his right to execute entire decree—Waiver.* A decree dated the 18th July 1883, which was made against *D* and *K* in terms of a solehnamah filed by them, directed payment by instalments in the month of Choitro (Vilaity year) each year, with a proviso that, if default was made in the payment of any instalment, then, without waiting for default in other instalments, the decree-holder should have liberty to take out execution and realize the whole amount of the kistibandi with interest. *D* admittedly paid the instalments due from him up to Choitro 1292 (March-April 1885) and a portion of that due in Choitro 1293 (March-April 1886), and *K* admittedly paid due from him up to Choitro 1293 March-April 1886), and although in the application for execution payments made subsequent to these dates were alleged by the decree-holders to have been made, both lower Courts found such payments not to have been proved. On the 1st September 1890, more than three years after the default made by *D* in Choitro 1293 (March-April 1886) and that made by *K* in Choitro 1294 (March-April 1887), the decree-holder applied for execution of the whole decree with interest after deduction of all instalments alleged by them to have been paid. On second appeal before the High Court it was contended that, although the application to execute the entire decree was barred, yet as the proviso was for the benefit of the decree-holders, they were competent to waive it and claim execution in respect of the instalments that fell due within three years before the date of their application for execution :—*Held*, that this was not the case made out in the Courts below ; and further that the proviso could not be said to be waived as there had been no acceptance of payment subsequent to the first default, nor a mere abstinence on the part of the decreee-holder from seeking the benefit of the proviso, but, on the contrary there had been an affirmative act done by him showing that he did not waive the benefit of the proviso, but claimed to execute the entire decree. *Mon Mohun Roy* v. *Durga Churn Ghose, I. at which that immediately succeeding it became due. But he again failed to pay two consecutive instalments, *viz.*, those due in 1896 and 1897, and he paid nothing subsequently. In July, 1899, the plaintiff applied for execution of the decree, contending that his right to execution arose in 1897 under the terms of the decree. The lower Appeal Court held that the plaintiff's right to execution had arisen in 1892, and that his present application was therefore barred by limitation. On appeal to the High Court: *Held* (by the Full Bench, reversing the decree of the lower Court), that having regard to the payment and acceptance of instalments in this case subsequently to 1892, the parties had been remitted to the same position as they would have been in if no default had then occurred, and that on the subsequent default in 1897 the plaintiff's right to execution arose, and that consequently his application in 1899 was in time. *Per* JENKINS, *C.J.*—The true view appears to me to be that, though there may be a failure to pay punctually under an instalment decree, still the subsequent conduct of the parties may preclude either of them from afterwards asserting that payment was not made regularly and in satisfaction of the obligation under the decree..... This view is not far, if at all, removed from an application of the doctrine of estoppel, for it would be but an elaboration of it to say that if each of the parties has by his acts intentionally caused the other to believe that the payment was a regular satisfaction of the obligation, and the parties have acted on that belief neither can afterwards deny the regularity. It is a fundamental proposition of law that payment and acceptance of overdue instalments cannot by themselves prove a waiver. The point is one to be determined on the circumstances of each case. *Dulsook* v. *Chugon, I. L. R. 2 Bom. 356,* and *Balaji* v. *Sakharam, I. L. R. 17 Bom. 555,* commented on. It appeared that the decree-holder's father having obtained against him in 1881 a decree for a share of whatever he should acquire under the decree of 1878, had applied for execution of the last mentioned decree ; and reliance was now placed on that application to save the bar of limitation.—*Held*, that, assuming the decree of 1881 had effected an assignment by operation of law of the decree of 1878, the father and son were not joint decree-holders within the meaning of Civil Procedure Code, s. 231, and the father's application for execution was barred by limitation. This decision was set aside on review, and it was *held* on the facts as then presented to the Court that the decree was not a joint decree, and that no question therefore arose as to the effect of expl. I to Art. 179 of the Limitation Act. RAMASAMI *v.* ANDA PILLAI . **I. L. R. 14 Mad. 152**

(*b*) JOINT JUDGMENT-DEBTORS.

7. ——— *Decree declaring separate liability—Proceeding to keep decree alive.* Where a decree was passed against several defendants, each of whom is declared to have a separate liability in respect of a definite amount, execution against one or more of such judgment-debtors keeps the decree in force against all simultaneously. MAHESH CHUNDER CHOWDHRY *v.* MOHUN LALL SAHA . . . . . **8 W. R. 80**

5. ——— *Proceeding against some only of judgment-debtors.* A proceeding against certain of a number of joint judgment-debtors, in which, in the presence of certain of them, some are released from execution and some declared liable, is a proceeding within the meaning of s. 20, Act XIV of 1859. MOHESH CHUNDER BISWAS *v.* RAMONEE DASSEE . . **9 W. R. 240**

9. ——— *Proceedings against some only of judgment-debtors.* The law makes no distinction between the different defendants liable under a decree; the decree is kept wholly in force if any effectual proceeding is taken under it within the prescribed time to keep it alive. But where a decree, though nominally in one document, really contains separate decrees against separate individuals, the law of limitation may be put into force in execution against the different defendants as if there were separate decrees. STEPHEN *v.* UNNODA DOSSEE . **6 W. R. Mis. 18**

———. *Death of judgment-debtor—Execution—Execution against one of legal representatives of a sole debtor—Death of the representative—Subsequent application for execution against other representatives—Practice.* An application for execution against one of the representatives of a sole judgment-debtor saves limitation against another representative. Accordingly, where the plaintiff, on the death of his sole debtor, sued out execution on the 18th June 1881, by a darkhast, No. 718 of 1878, against *V*, one of the three sons of the debtor, and the execution-proceedings continued till the death of *V* in March 1884, whereupon the plaintiff applied on the 28th August 1884 to put *M* and *N*, the brothers of *V*, on the record as his representatives:—*Held*, that the application was not too late against *M* and *N* regarded as the representatives, with their brother *V*, of their father, the original judgment-debtor. *Ramanuj Singh v. The money was ordered to be paid over to him on his giving security for its refund in case the Appellate Court so ordered. *D* thereupon became his surety and executed a bond binding himself to pay into Court the said sum of R4,951-13-11, if ordered by the Court. On the 25th September 1893 the High Court varied the order of the District Court and awarded R4,204-7-11 (part of the R4,951-13-11) to another claimant *K* (the appellant). claimed also interest (R1,635-10-0) and costs (R550-15-4). *D* objected to pay interest or costs, and the High Court held that, as surety, he was liable only for the principal sum, but not to interest or costs. Subsequently, *viz.*, on the 16th February 1897, *K* applied for execution against the principal debtor *V* of the order of the 25th September 1893, in respect of the interest and costs, contending that his application of the 17th February 1894 against the surety was a step in aid of the execution of the order under Art. 179 of the Limitation Act (XV of 1877) and prevented limitation :—*Held*, that his application was barred by limitation. The application for execution against the surety would not operate to keep alive the order as against the principal debtor unless it was made to enforce a liability which was common to both under the order. But under the order the surety was not liable for interest or costs. His liability was expressly confined by his bond to the principal sum, and it was only as to that sum that he was jointly liable with Vinayak. The previous application, therefore, for execution against the surety for money for which he was not liable under the order could not be regarded as a step in aid of execution against the principal debtor *V*. The mode of enforcing payment against a surety is by summary process in execution, and not by separate suit. KUSAJI RAMJI *v.* VINAYAK RAMCHANDA PANBHU

The first application for execution was made in September 1869 under s. 216 of the Civil Procedure Code (Act VIII of 1859); and after notice to the defendant as provided thereby, an order was made under that section for execution to issue. In September 1880 an application for execution was made under s. 230 of the Civil Procedure Code of 1877, which repealed Act VIII of 1859:—*Held*, that the order after notice had the effect of reviving the decree within the meaning of Art. 180, Sch. 12. ——— *Application for execution of decree—Decree of High Court—Civil Procedure Code (Act X of 1877), s. 230.* The plaintiffs obtained a decree of the High Court of Bombay against the defendant on 22nd February 1867. The defendant, after the passing of the decree against him, resided in Ahmedabad. In July plaintiff assigned his decree to *L*, who in 1876 assigned it to *M*. From time to time *M* obtained orders for the execution of the said decree, but was always unable to proceed to execution. The last order for execution made by the High Court was on the 4th February 1879. In April 1879 the decree was transmitted to the Court at Ahmedabad for execution, and that Court in September 1879 issued a warrant of arrest against the defendant, against the order for which the defendant appealed. The said order was confirmed by the High Court on 10th February 1880. In April 1881 the defendant was in Bombay, and *M*, the decree-holder, obtained a summons calling defendant to show cause why the decree should not be executed against him. On 3rd May the summons was made absolute. The defendant appealed and contended that the application for execution was barred by limitation under s. 230 of the Civil Procedure Code (Act X of 1877), which was to be read with cl. 180 of Sch. II of the Limitation Act, XV of 1877:—*Held*, that the application was not barred. Cl. 180 of the second Schedule of the Limitation Act, XV of 1877, was intended to be independent of s. 230 of the Civil Procedure Code, and not to be in any way controlled by it. This decree was assigned to the present decree-holders on the 10th April 1873. Between the 27th November 1872 and 10th April 1880 various applications for execution of the Order in Council were made, attachment processes issued, and proceedings struck off. In 1880 the decree-holders brought a suit to establish the right of the judgment-debtor to a bond in favour of the [illegible] for a certain sum of money, and on the 15th March 1881 they obtained a decree which was upheld by the High Court on the 20th March 1882. After this decree, between the 10th February 1883 and the 19th April 1886, a number of applications were made for execution, which were struck off. A further application was made on the 25th July 18[illegible] for execution. On the 28th October 1887 the decree-ment-debtor filed an objection on the ground that the decree was barred. On the 20th December 1887 the objection was overruled and execution was ordered but the proceedings were struck off on the 8th March 1888. Then after another application had been made on the 28th September 1888, the present application was made on the 19th November 1890 when the judgment-debtor filed an objection on the ground that the decree of which execution was sought was barred by the law of limitation: *Held* that the decree which was sought to be enforced was an "Order of Her Majesty in Council" within the meaning of Art. 180 of the Limitation Act. *Luchmun Pershad Singh* v. *Kishun Pershad Singh*, I. 15. ——— *Judgment entered up under s. 86 of the Indian Insolvency Act (Stat. 11 & 12 Vict. c. 21), s. 86—Execution of such judgment.* *C* was adjudicated an insolvent in October 1866 and on the 19th August 1868 judgment was entered up against him under s. 86 of the Indian Insolvency Act (Stat. 11 & 12 Vict., c. 21) for R66,40,648. In 1886 it was ascertained by the Official Assignee that certain property belonging to the insolvent's estate was available for the creditors of the estate, and on his application an order for execution against the said property was made on the 5th April 1886 by the Insolvency Court under s. 86 of the Insolvency Act. It was contended that execution was barred by limitation :—*Held*, that execution on the judgment was not barred. *Per* SARGENT, *C.J.*—The policy of the Indian Insolvency Act is that the future property of the insolvent should be liable for his debts. That intention would be to a great extent defeated if judgment entered up by the order of the Insolvency Court under s. 86, which is the machinery provided for effecting that object, could only be executed within a limited time. Limitation Acts should not be deemed applicable to judgments entered up under s. 86, unless their language clearly requires it. A judgment entered up under s. 86 of

the Insolvency Act, although a judgment of the High Court is not a judgment entered up in the exercise of the ordinary original civil jurisdiction, nor could the right to enforce the judgment be lawfully released by any person, and therefore Art. 180 of the Limitation Act did not apply. *Per* WEST, *J.*—Formerly in England as well as in India the policy of the Insolvency Acts was to make the insolvent perpetually responsible. In England, however, by Stat. 32 & 33 Vict., c. 83, bankruptcy was substituted for insolvency, and all pending cases of insolvency were ordered to be closed within prescribed periods. In construing that statute it has been declared that after the given time the insolvent was free from all responsibility, and that after his death his estate was free also. Thus the lien on an insolvent debtor's whole future property has disappeared from English law; but this has been effected by direct legislation. In India there has been no legislation with regard to judgments of the Insolvency Court, but it has been decided that such a judgment is to be deemed a decree of the High Court, and executed as such. It must therefore be subject to the same rules as other decrees of the High Court in the absence of any special exception. Art. 180 of the Limitation Act is therefore applicable to such a judgment. The Insolvency Act did not contemplate its being entered up otherwise than as a judgment of the Supreme Court, and, as such, it ranked as a judgment of a chartered Court in the exercise of the ordinary original civil jurisdiction. The same description may be applied to it now; and hence the execution is limited, as in the case of other judgments and decrees of the High Court. The principle of perpetual liability to execution can no longer be deemed a principle. The English law has discarded it; the Indian law has made all judgments subject to limitation, and amongst them judgments of the Insolvency Court, Art. 180, therefore applies. But the right to enforce the judgment in the present case did not accrue to the Official Assignee until the order of the Insolvency Court to take out execution was made. That order was not made until April 1886, and therefore the right to execution, which arose on the date of that order, was not barred by Art. 180 of the Limitation Act (XV of 1877). *In the matter of* CANDAS NARRON DAS. Held (on appeal to the Privy Council) that Limitation Act (XV of 1877), Sch. II, Art. 180, applies to a judgment of a Court for the relief of insolvent debtors entered up in the High Court, in accordance with s. 86 of the Stat. 11 & 12 Vict., c. 21. Although a Court held under the latter statute determines the substance of the questions relating to the insolvent's estate, the proceedings in execution and the judgment are the High Court's. The judgment is entered up in the ordinary course of the duty cast upon the High Court by the law, not

15. ——————— *Purchase pendente lite—Right of purchaser against mortgagee of property.* Plaintiff purchased at a sale on the District Munsif's Court of Guntur, held on the 22nd of December 1868, the interest of one *F G* in a cotton screw at Guntur. Previous to this, on the 31st July 1867, the husband of the 1st defendant in the present suit filed a plaint, No. 16 of 1867, in the Civil Court of Guntur against the representatives of *F G* (who was then dead), praying to be declared entitled to be treated as mortgagee of the shares of *F G* in that and another screw for R1,696-9-0, and that the amount might be raised by sale of those shares. Issues were settled, the 4th of which was—"Was there a tangible mortgage of real property or shares in real property ?"—and the decree made on 30th September 1869 found this issue in the affirmative, and declared that the amount sued for should be paid from the aforesaid shares hypothecated to the plaintiff in that suit. At a sale in execution of this decree, the share of *F G* in the screw at Guntur was purchased by 2nd defendant (in the present suit) on the 18th of February 1870. The present plaintiff objected to the sale and was referred to a regular suit. Accordingly he brought the present suit to set aside the decree in No. 16 of 1867 as regards the share of *F G* in the screw at Guntur, to cancel the attachment and sale to second defendant and for possession of the share. First defendant pleaded that plaintiff at the date of his purchase had notice of the pending of the suit No. 16 of 1867 and of the mortgage claim. The plaintiff denied the fact of the mortgage and its regularity, and issues were framed, the 1st of which was—"whether plaintiff knew that the suit No. 16 of 1867 was under hearing when he bought the one-third share, and that there might be declared a hypothecation to the late husband of the first defendant in this suit." The Civil Court, treating the claim of the plaintiff in No. 16 of 1867 as a mortgage, held that, as it was prior in point of time to the sale under the Munsif's decree, it should prevail against plaintiff's claim, even though plaintiff had not notice. The Court also found that plaintiff had notice. Upon appeal: *Held*, that, as the purchase made by the plaintiff was made while the suit No. 16 of 1867 was pending, in which a mortgage was alleged and payment was prayed out of the property, the plaintiff was bound by the decree made therein, whether he had or had not notice, nor could he in any way question that decree. but was pending when the plaintiff purchased :—*Held*, that the mortgagors were bound by the proceedings in the suit including the attachment and sale, and the defendant had a good title against the plaintiff in the same manner as against the mortgagors whose interest the plaintiff purchased, even if the certificate of sale was not registered. In execution of that decree, he attached their one-half share in certain fields in 1874. The attachment was removed at the instance of two claimants, *S* and *B*. In 1875 the plaintiff sued the claimants, and obtained a decree in his favour in 1878. Meanwhile in December 1874, after the plaintiff's attachement had been removed, one *V* obtained a decree against one of the brothers, *P*. In 1876, while the plaintiff's suit against *S* and *B* was pending, *P*'s right, title, and interest in the one-half share of the fields belonging to himself and *K* was sold in execution of *V*'s decree, and purchased by the defendant. In 1881 the plaintiff again attached the one-half share belonging to the two brothers under his decree of 1872. Thereupon the defendant, relying on his purchase of 1876, applied for the removal of the attachment. It was removed from *P*'s one-fourth share, and maintained on *K*'s share, which was in due course sold. The plaintiff now sued to establish his right to sell *P*'s one-fourth share under his decree of 1872 :—*Held*, that the doctrine of *lis pendens* did not apply to this case ; that the defendant, though he purchased *P*'s share during the pendency of the plaintiff's suit of 1875, was not bound by the decree made in that suit—first because, as an auction-purchaser at a Court sale in execution of a decree, he derived title, not from *P*, but by operation of law ; secondly because *P* was not the person against whom the decree was made in the suit of 1875 ; and, thirdly, because *P* was not represented in that suit by the plaintiff simply because the plaintiff sought to establish his right to attach and sell the property as *P*'s property. *Ali Shah* v. *Husain Bakhsh, I. ceedings. *P* and his partners mortgaged certain immoveable property to plaintiff on the 11th October 1869. They had then no title to the property, but they subsequently acquired one by purchase on the 29th June 1871. On plaintiff demanding that *P* and hispartners should make good the contract of mortgage and of the interest they had acquired, the matter was referred to arbitrators, who, on the 26th December 1873, made an award empowering plaintiff to sell the mortgaged property in satisfaction of his debt. The award was presented in Court by plaintiff on the 23rd January 1874, and was filed by the Court on the 23rd February 1874. Meanwhile on the 14th February 1874, the property was attached in execution of a money-decree obtained by a creditor of *P* and his partners against them. On the 15th April 1874 it was sold by auction and purchased by defendant. In a suit brought by plaintiff to recover possession of the property, both the lower Courts rejected his claim, on the ground that *P* and his partners had no right to the property when they mortgaged it to plaintiff:—*Held*, that the presentation in Court of the award obtained by plaintiff was equivalent to the presentation of a plaint for the specific performance of the contract of mortgage, and the proceedings consequent thereon constituted a *lis pendens*, during which a mere money-decree-holder could not, by any proceedings which he might take, defeat the object of plaintiff's application to the Court to file his award. Previously, however, on the 12th of October 1866, the executors had mortgaged the same property to the plaintiff, who brought a suit on his mortgage on the 10th of June 1867. On the 28th of August 1867 the present defendants were made parties to that suit, and in their written statement they alleged that they had been improperly made parties, and claimed a title superior to that of the plaintiff. That suit was dismissed with costs as against the present defendants on the ground that they were improperly added; but a decree for sale was given against the executors, in execution of which the mortgaged property was sold to the plaintiff. This decree had been purchased by the first defendant, who also bought the property at the execution-sale. The plaintiff had also succeeded to several mortgages executed pending the suit in which the decree was made:—*Held*, that a distinction must be made in respect of whether the mortgages so transferred to the plaintiff had been executed before or after the bringing of the above suit. As regards the mortgages executed before it, the plaintiff, not having been a party to that suit, was entitled to redeem the first defendant, who was purchaser of the decree. As regards the mortgages executed after that suit was brought, the plaintiff was bound by the decree, and his interest in the mortgages, transferred *pendente lite*, passed to the purchaser. In 1879 a creditor of the three obtained a money-decree against them, and in execution attached, *inter aliâ*, the properties subject to the mortgage. In July 1880 the mortgagee intervened in execution, and an order having been made directing that the property be sold subject to his mortgage lien, filed a suit upon his mortgage. The property was brought to sale in execution of the money-decree in November 1880, and the defendant became the purchaser. The mortgagee obtained a decree in the following February, and the mortgaged property was sold in execution in March 1884 and was purchased by one who assigned his interest to the plaintiff:—*Held*, that the defendant's purchase was subject to the doctrine of *lis pendens*. The mortgagee put his bond in suit, and, having obtained a decree, caused property A to be sold, the proceeds of which proved more than sufficient to satisfy the whole mortgage-debt. Before such sale, however, *X* had, in execution of a simple money-decree, acquired a share in property A. *X* accordingly sued for contribution from property B, in that, so far as his share in property A went, he had satisfied the mortgage-debt, and ultimately

In execution of that decree, the property was purchased by the plaintiffs on the 11th December 1891, and the sale was confirmed on the 5th March 1892. Meanwhile, pending the execution-proceedings, a larger share of the estate, including the share mortgaged, was purchased by the defendants at a revenue sale on the 30th September 1891, which sale was confirmed on the 11th March 1892. In a suit instituted by the plaintiffs for the possession of the property purchased by them, the defendants having questioned the validity of the mortgage decree and contended that they were not bound by it, not being parties thereto, and having in the alternative claimed the right to redeem the mortgaged property:—*Held*, that the defendants were bound by the mortgage-decree, the principle of *lis pendens* applying to the case. of administration, have been satisfied. As between the appellant and respondent, who were rival mortgagees of the property of a Muhammadan family, the Judicial Committee, reversing the decision of the High Court, upheld the title of the appellant, who represented a purchaser at sales by the Receiver of the High Court in a suit for administration of the estate of one of the mortgagors, as entitled to priority over that of the respondent, who claimed through a purchaser in execution of the mortgage decree at sales, which took place pending the administration suit, in one case after the order for sale by the Court and in another after the actual sale by the Receiver in that suit. The shares of all the heirs to the mortgagor's estate were, pending the suit for administration, purchased at private sales by the appellant in the name of, and were transferred to, a benamidar, who was made a party defendant in the appellant's mortgage suit and a party plaintiff in the administration suit :—*Held*, that the appellant being, in execution of the decree in the mortgage suit, alone represented on each side of the record, could not rely on the sales effected in such circumstances in support of his title, or derive any advantage therefrom. *Held*, also [without deciding whether such transfers could be avoided under s. 52 or 53 of the Transfer of Property Act (IV of 1882) in a properly constituted suit], that the appellant must be treated as the transferee for value of the entire equity of redemption, and that the respondent, therefore, had not made out any title to redeem the appellant's mortgage, notwithstanding the subsequent sales in his mortgage suit under which he claimed. The words "like disadvantages" referred to in s. 180 mean that in the case of the non-attendance of a defendant the local investigation is to be proceeded with *ex parte*; and in the case of the non-attendance of a plaintiff, the suit is to be dismissed with costs. In case of judgment by default for non-appearance before a commissioner appointed under s. 180, the proper course is to apply to the judge for an order to set aside the judgment, and if that application be refused, to appeal against the order of refusal. The Judge's order should contain a distinct direction to the commissioner to proceed *ex parte* in the event of the non-attendance of the plaintiff. Whenever it is desirable for a Magistrate to view the place at which an occurrence, the subject-matter of a judicial investigation before him, has taken place, he should be careful to confine himself to such a view of the place as to enable him to understand the evidence placed before him, and should take care that no information reaches him with reference to the occurrence which he has to investigate beyond what he acquires by that view, and if the place of the occurrence be in dispute, he would be wise in postponing his visit till all the evidence has been recorded, if under such circumstance he feels disposed to visit it at all. But where a local enquiry by a Magistrate takes the form of an investigation into the occurrence on the site of the occurrence instead of in his own Court, and he takes evidence on the spot, such evidence should not be recorded unless it is protected by all the safeguards by which evidence on which a Judge may act is protected by law. The guardian of such a lunatic's person is, in matters connected with the guardianship, subordinate to the District Court which appointed him. A guardian, having obtained leave from the District Judge to take the lunatic out of the jurisdiction for a specified time, was, at the expiration of that time, ordered to return with the lunatic to his residence within the local jurisdiction. He failed to comply with the order. Without further notice, the District Judge, by certain orders which he gave, by letter and telegram, through the manager of the lunatic's estate, suspended the guardian from his office, and directed him to make over the custody of the lunatic to the manager. The guardian made over the custody accordingly and then applied to the High Court, under s. 622 of the Code of Civil Procedure, to set aside those orders and restore the custody of the lunatic to him at Calcutta (outside the jurisdiction of the Court to which the lunatic was subject). The plaintiff, a female, was the sole surviving member of the testator's family, but it was admitted that she was, and for more than fifty years had been, a lunatic,—though she had not been declared to be so under Act XXXV of 1858; it appeared that her lunacy was not congenital. She sued, by the Collector of South Canara, the Agent for the Court of Wards :—*Held*, (i) that the plaintiff was not excluded from inheritance by reason of lunacy under Aliyasantana law, and the will in favour of the defendants was invalid; (ii) that the Court of Wards had power to take cognizance of the plaintiff's case under Madras Regulation V of 1804; (iii) that although the Court of Wards should ordinarily obtain a declaration under Act XXXV of 1858 in cases where the lunacy of award is open to question, their failure to do so in the present case was not fatal to the suit; (iv) that Civil Procedure Code, s. 464, was accordingly applicable to the case; (v) that the appointment of the Collector as guardian to the plaintiff was legal and valid. In deciding what was the extent of the property which the plaintiff was entitled to inherit under the above rulings, certain documents adduced as evidencing partition of the family property were held to evidence merely arrangements for separate enjoyment. When the plaint was actually filed *K*'s name was struck out by the pleader and *N*. Subsequently his name was restored on his own application, but the period of limitation prescribed for the suit had then elapsed. The first Court held that under s. 7 of the Limitation Act the plaintiff's claim was not barred. On appeal the Judge dismissed the suit, holding that the order of the first Court restoring *K*'s name was bad, and that the suit was time-barred at the date of that order. On second appeal :—*Held*, reversing the decree, that the pleader and *N* acted beyond their authority in striking out *K*'s name, and that thereforet restoration of his name must relate back to the institution of the suit, which was therefore not barred. *Quære*: Whether a person of unsound mind not adjudged to be so under Act XXXV of 1858, can in this country sue by his next friend. The nephew was held to be disqualified on the ground of misconduct, and the wife was appointed. On appeal by the nephew, it was objected that, under Act XXXV of 1858, no manager could be appointed, as the lunatic was a member of a joint family and had no separate property:—*Held*, that the nephew, by claiming to be appointed manager, could not object that the lunatic had no separate property. *Quære:* Whether a manager can under any circumstances be appointed under Act XXXV of 1858 if the lunatic is a member of joint family under the Mitakshara law and possessed of no separate property. The lunatic had an interest both in joint ancestral property and in property inherited collaterally, which might, but was not shown to, belong to him separately. The lower Court found that the application was made with a view to taking consequent proceedings for partition:—*Held*, that, it appearing that he had remained for sixteen years in the same house under the same guardian, and there being no allegation of ill-treatment, no sufficient grounds were shown for the Court's interference, or the appointment of another guardian of his person. Before any action can be taken under the Act in this respect, there ought to be a strong case made out that the change of custody would be for the lunatic's benefit. *Held*, also, that, as his daughter could not inherit his ancestral property and it was doubtful if the collaterally-inherited property was the separate property of the lunatic, the Court would not, under such circumstances, appoint a manager of the property; but that the guardians of the lunatic, who were managers of the joint family, should, on her request, furnish accounts to the daughter of the management of the collaterally-inherited property. *Semble:* Act XXXV of 1858 applies to the members of a Mitakshara family. *Quære:* Assuming the application to be made with a view to a partition of the property, and that the lunatic was declared a lunatic under the Act whether a partition could be had. *In the matter of the petition of* BHOOPENDRA NARAIN ROY. MADRAS BOAT RULES—

1. ——— Act IV of 1842—Act IX of 1846—*Jurisdiction of Magistrates—Liability of owner under rule 7—Burden of proof.* Under Act IX of 1846, the Madras Government is authorized to make in respect of ports in the presidency such regulations for the management of boats and such other matters as are provided for by Act IV of 1842 in respect of the Madras roads, being similar in principle to the provisions of the said Act, but varying in detail as local circumstances may require. Act IV of 1842, s. 24, empowers a justice of the peace of the town of Madras to hear and determine all pecuniary forfeiture and penalties had or incurred under or against that Act. *Held*, that it is competent to the Government of Madras to provide that cases cognizable under the rules passed in accordance with Act IX of 1846 should be heard and determined by Magistrates not being Justices of the Peace. Under rule 7 of the amended rule for the better management of boats, etc., plying for hire at the out-ports of the Madras Presidency, dated 1st October 1867, the owner of a boat is liable to fine on proof of his allowing his boat to go without the requisite complement of men. *Held*, that, where it was proved that a boat was going without its proper crew, the absence of proof by the prosecutor that the owner was aware of the fact was no bar to his conviction. *In re* MUTHAKONNI . . . The omission by the Collector to pass a decision in accordance with an arbitrator's award and to furnish a copy to the parties as required by s. 21 of the Boundary Act is fatal to the award. The power given by s. 21 being a judicial power, a Collector must exercise his independent judgment, and should not refer the award for acceptance to the Board of Revenue and Government, nor should he adjudicate when, as agent to the Court of Wards, he represents one of the rival claimants. ——— s. 3—*Jurisdiction—Suit for "breach of promise of marriage"—Contract of marriage between intended bridegroom and parent of intended bride—Cognizable by Small Causes Courts—Presidency Small Cause Courts Act (XV of 1882), s. 19 (q).* The phrase "breach of promise of marriage," which occurs in Art. (*q*) of s. 19 of the Presidency Small Cause Courts Act, has reference to the action as understood in English law, that is, between the parties who contemplate contracting the marriage, and not between an intended bridegroom and the parent of the intended bride. By s. 3 of the Madras City Civil Court Act, 1892, jurisdiction is conferred upon the City Civil Court to try all suits of a civil nature except, *inter alia*, suits cognizable by the Small Cause Court. By s. 19 [Art. (*q*)] of the Presidency Small Cause Courts Act, the Small Cause Court has no jurisdiction to entertain suits for compensation for breach of promise of marriage. A suit was filed in the City Civil Court for compensation for breach of promise of marriage; but the contract alleged to have been broken had been entered into between the parent of the intended bride and the intended bridegroom. *Held*, that the Court had no jurisdiction, inasmuch as such a suit was not exempted from the jurisdiction of the Small Cause Court. MADRAS COURT OF WARDS ACT (I OF 1902).

Rules 3 and 7 of rules framed thereunder—Regulation Collector, power of, to reject claims as barred. Where, under the provisions of the Court of Wards Act and the rules framed thereunder, a Regulation Collector and a Decree Collector have been appointed and a claim is duly presented to the former before the expiry of the period prescribed for enforcing the same by a civil suit, he cannot by keeping such claim pending before him, until a suit on it would be barred, subsequently refuse to pay it on the ground that it is barred by limitation. In such cases the claimant can obtain an adjudication of the Courts on his claim without resorting to a civil suit. When the Regulation Collector is called on by the Decree Collector under rule 3 of the rules to furnish him with full particulars of all claims notified to him, it is his duty to 'thereupon furnish him (the Decree Collector) with such particulars.' If the claim was disputed, it was the duty of the Decree Collector under rule 7 to refer the matter to the Civil Court and the matter that could properly be referred will be whether the claim was legally enforceable *at the time it was presented to the Regulation Collector.* If the Court decides that it was so enforceable the Decree Collector was bound to place it on the list and proceed to discharge it according to the provisions of the Act and rules. The reference to the Civil Court is not to be regarded as the institution of a suit and s. 4 of the Limitation Act will not apply. *Semble:* Where no Decree Collector is appointed, the party, whose claim is disallowed by the Court of Wards, will have no remedy, but to file a civil suit. The provisions of s. 4 of the Limitation Act will then apply and the exclusion of the time during which the claim was pending before the Regulation Collector cannot be claimed under s. 14 of the Limitation Act. Wards—Right of suit—Real payee. Where the Court of Wards assumes superintendence of the estate of a disqualified proprietor, and, in exercise of the powers conferred by s. 43 of the Court of Wards Act, ousts an usufructuary mortgagee from possession, and the manager of the Court, in the course of his management, takes from the tenants of the property promissory notes payable to himself or order for the rents and profits of the mortgaged premises, it is competent to such mortgagee or his heirs to maintain a suit on such promissory notes when the Court's superintendence comes to an end and it delivers to the mortgagee the promissory notes without however endorsing or otherwise assigning the same in writing. Dispossession of an usufructuary mortgagee under s. 43 of the Act does not convert the usufructuary into a simple mortgage. *Per* MILLER, *J.*—The position of the Court of Wards on the dispossession of the usufructuary mortgagee, is analogous to that of a receiver for the collection of rents and profits, in respect of such mortgaged properties. The real payee of the promissory note is the landlord by his agent, the manager. Before dispossession the mortgagee was the landlord for the purpose of collecting rents and profits, and subsequent to dispossession, the Court of Wards to such extent was the landlord. When the Court's superintendence terminated, its receivership came to an end and the mortgagee as the landlord was the real payee entitled to sue and recover on the promissory notes. 2. **Bye-law No. 48**—*District Municipalities Amendment Act (Madras Act III of 1897)—Covering a drain without Municipal permission.* A bye-law of a Municipality had been framed under the powers conferred by an Act of 1884 as amended by an Act of 1897, and was to the following effect: "No public drain shall be covered without the permission of the Municipal Council." It had come into force in 1890. Prior to its coming into operation, an earlier bye-law had subsisted, in substantially the same terms. An occupier of premises, who had covered a drain during the subsistence of the earlier bye-law, was charged with having committed an offence under the later bye-law and contended by way of defence that he could not be convicted, inasmuch as the act complained of had been committed before the passing of the Act under which the complaint was laid. He was convicted by a Bench of Magistrates:—*Held*, that the conviction was right. *Per* ARNOLD WHITE, *C. J.*—The bye-law applies to all drains which existed in a covered state at the time when it came into operation. The word "shall" is used throughout the bye-laws in the imperative, and not with reference to time, and this is the sense in which it is used in the bye-law in question. *Per* BENSON, *J.*—A bye-law similar in terms to that under which the accused had been convicted having been in existence under the then Municipal Act at the time when the accused first covered the drain in question, the liability then incurred by him continued, under the General Clauses Act (Madras) unaffected by the passing of the present Municipal Act. The contention that the accused could not be convicted because the act complained of was committed before the present Municipal Act was passed, therefore failed. conviction is no bar when such Councillor is subquently re-elected, to the invalidation of the elecn on the ground of such conviction. Rules 34, and 36 are not *ultra vires*. The rules were validly ade in exercise of the powers conferred by s. 250 ; and even if not so, the power to prescribe nditions conferred by s. 10, empowers the Goverr in Council to make such rules. Rules 35 and prescribes the procedure to be followed when a tition contesting the election is presented. The rd "then" in rule 35 means "after such peti- is presented to the Collector" and not "after Governor in Council has taken action under e 34." The Governor in Council taking action der rule 34 is not confined to putting the llector in motion under rule 35, but can pass lers himself. Such power is not taken away l the powers conferred on the Collector under es 35 and 36, but only by an order of the Collector ly passed under those rules on a petition preted to him. The Governor in Council may take ion under rule 34, whether a petition has been sented to the Collector or not. The fact that the vernor in Council may, under such circumstances l notification, remove the Councillor under s. 19 he Act, does not affect the validity of such rule, ich enables him to invalidate the election without notification. *Per* WALLIS, *J.*—Rules 35 and 36 not warrant the validity of an election being stioned on the ground that the person elected s likely to bring the municipal administration contempt without such enquiry as is provid by the rules ; and the pronouncement of such dqualification by the Governor in Council under r 34 without such enquiry cannot be supported. A Forest Settlement Officer has no jurisdiction to entertain a suit in which such a claim is made, and such a suit brought by discharged forest karnams is barred by s. 4 of the Pensions Act. A Forest Settlement Officer is a "Civil Court" for the purposes of the Pensions Act. If a Court of limited jurisdiction exceeds its powers and adjudicates on a claim over which it has no jurisdiction, the Court (if any) which exercises appellate jurisdiction over it is bound to entertain an appeal preferred against the lower Court's decision, and to correct the error. A Court of competent appellate jurisdiction in such a case is not bound by an order made without jurisdiction by a Collector on an appeal to him in the same suit. Upon an appeal being preferred, it was objected that the High Court had no jurisdiction to hear it. *Held*, that the Court had jurisdiction. The appeal was from the judgment of a Court exercising original jurisdiction; and the High Court, if Madras Act II of 1894 had not been passed, would have had appellate jurisdiction, by virtue of s. 540 of the Code of Civil Procedure, in suits brought under the said Regulations. In cases where the Court of first instance had jurisdiction to entertain the suit when it was instituted, and the parties had a right of appeal when the suit was instituted, the appellate jurisdiction of the High Court is saved by s. 8 of the Madras General Clauses Act 1891, unless the right of appeal is expressly taken away. ——— **ss. 70, 87**—*Immunity from action—Breach of contract—Contract Act (IX of 1872), s. 51, 152—Liability of bailees for hire for loss of goods—Negligence—Onus of proof—Bye-laws, validity of.* When goods which have been entrusted to bailees for hire are lost, it lies on the bailees to show that they have taken as much care of the goods as a man of ordinary prudence would, under similar circumstances, have taken of his own goods of similar kind, and that the loss occurred notwithstanding such care. If they fail to satisfy the Court on that point, they are liable for the loss. SHEPHARD, *J.*—The provision in s. 87 of the Madras Harbour Trust Act, 1886, to the effect that the Board, its officers and servants shall not be liable in damages for any act *bonâ fide* done or intended to be done by them in pursuance of the Act does not apply to all causes of action, and, *inter alia*, to a suit in respect of a breach of contract against the Board. The immunity there given applies only to those cases in which there is an act done or purporting to be done in pursuance of the Act. The fact that the Board has worked under the provisions of a statute does not prevent it from entering into a contract; and the section does not apply in a case where the party aggrieved complains of a breach of such a contract on the part of the Board. By s. 70 of the Madras Harbour Trust Act, the Board is empowered to make bye-laws for the reception, removal, and porterage of goods. A bye-law framed under this section provided that porters desiring to store cargo must apply to the Secretary of the Board for such space as they might require, and that such applications would be granted on such terms as the Board might approve, and concluded with the reservation that the Board, while taking all reasonable precautions, would accept no

——— **s. 87 and s. 61**—*Maintenance of harbour causing encroachment on seashore—Liability of a public body for maintaining works authorized by statute—Common law liability where not expressly excluded by statute—Limitation.* A harbour, which was in the first instance constructed by Government, was, by the Madras Harbour Trust Act, 1886, vested in trustees, together with the foreshore within the limits of the port. Prior to the date of the Act, an erosion, by the action of the sea, of a portion of the foreshore had commenced, in consequence of the existence of the harbour; and a revetment or barrier of stones had been built to counteract it. The trustees subsequently, but prior to 1891, extended the arms of the harbour, and in 1895 the result of the continuous encroachment of the sea was that a part of the said revetment or barrier of stones and some land was washed away. Plaintiff was the owner of land adjoining that which was so washed away and the sea also encroached upon and injured plaintiff's land and the buildings upon it. The Madras Harbour Trust Act contains no provision for the payment of compensation by the trustees. By s. 61, the trustees are empowered to perform all works necessary to carry out the objects of the Act. Plaintiff sued the trustees to recover damages for the injury caused to his land by their maintaining and extending the arms of the harbour, as erected when the Board of Trustees was created, without taking steps to erect such buildings as would prevent the sea from encroaching upon and injuring the plaintiff's land. *Held* (affirming SHEPHARD, *J.*), that the plaint containing the above averments of fact disclosed no cause of action. The dates upon which damage to the plaintiff's buildings was alleged to have occurred were 25th December 1897 and 9th and 10th April 1898 respectively. By s. 87 of the Madras Harbour Trust Act, no suit shall be commenced against any person under the Act after six months from the accrual of the cause of such suit. The plaint was originally presented on 9th July 1898, and it was amended on 13th September 1898. On the day upon which the six months from 25th December 1897 expired, and until the day before the plaint was presented, the Court was closed. By the same section it is provided that no suit or other proceeding shall be commenced against any person for anything done or purporting to have been done in pursuance of the Act without giving to such person one month's previous notice in writing of the intended suit or proceeding, and of the cause thereof. Two letters had been written on behalf of the plaintiff. The first of these, dated

14th April 1898, represented the damage caused to plaintiff's property as above set out, and notified under s. 87, if that section should apply, that if the amount of damage suffered and assessed by plaintiff in the said letter should not be paid on or before the expiry of one month from the date thereof, legal proceedings would be instituted to recover the damage without further notice. The second letter, dated 11th May 1898, referred to further damage suffered, and called upon defendants to pay an increased sum, failing which action would be brought to recover such sum together with a further sum representing any further damage that might be done to the property by the sea before the suit should be filed or heard. The letter stated the ground of complaint to be that the encroachment of the sea was the result of the harbour groynes by which the action of the sea had been affected, that defendants had acted illegally and negligently in maintaining and extending those groynes and so causing the encroachment, and that by so doing they had caused the foreshore vested in them to be washed away and the sea to be let in to the plaintiff's premises, thus causing the damage complained of which defendants had taken no steps to prevent. *Held, per* SHEPHARD, *J.*, that the plaintiff must be deemed to have commenced the suit in due time since it was owing to the act of the Court itself that he was prevented from presenting his plaint till the day upon which it was filed. Also that the notice was sufficient, and that on the facts of the case s. 87 had no application. *Semble:* That, though a special rule of limitation was prescribed by the Act, s. 5 of the Limitation Act applied. *Per* O'FARRELL, *J.*—That the last clause of s. 87, which provides that neither the Board nor any of its officers or servants shall be liable in damages for any act *bonâ fide* done or order to be done in pursuance of the Act, had no reference to the present case. That section applied only to cases of acts done without legal authority or in excess of legal authority, but under the *bonâ fide* belief that they were covered by such authority. *Per* BODDAM, *J.*—That the cases in which it has been held that no action lies for non-feasance apply only to highways and have no application to the present case. *Per* DAVIES, *J.*—The liability of the trustees, in the absence of any statutory duty cast upon them to insure plaintiff from loss, was confined to the maintenance of the particular work they took over, and, if there was any general obligation to protect the plaintiff's property, it lay on the Government, who constructed the harbour, the Legislature not having imposed it on the trustees. upon the proper construction to be put on grant of the village contained in two documents, the one dated the 13th December 1872 and the other being a document dated the 14th May 1877, executed by the Rani and her children. Subsequently to the grant referred to, an application was preferred by the Rani and addressed to the Collector requesting him to separately assess the village and register it in the name of *F*. This application was never presented owing to the death of the Rani, who was succeeded by the father of the present zamindar, who executed, on the 22nd February 1883, a deed of release in favour of *F* ratifying the grant abovementioned in the following terms: "Whereas the village of Kondagai . . . . of my zamindari . . . . has been granted to you in perpetuity by the late Rani Kattama Nachiyar and others and has been in your possession according to the terms of the documents executed by them to you therefore on the 13th December 1872 and on the 14th May 1877, and whereas I have received from you R2,000 as the consideration for my ratifying your rights in accordance with the terms of the said documents and for relinquishing whatever rights I possess therein, I hereby ratify your rights of every description in the said village and relinquish all my rights therein in your favour. Wherefore as per the terms of the said documents, dated the 13th December 1872 and the 14th May 1877, you and your heirs and assigns shall hold and enjoy the said Kondagai village . . . . in perpetuity . . . . with full powers of alienation by sale, gift, or otherwise. You shall pay to my zamindari the sum of R3,500, the poruppu fixed on the said village, as well as road-cess, mangamai, etc., according to custom," and he applied to the Collector for separate assessment and registration of the village in the name of *F* on the 25th March 1883. On the 29th March 1883 *F* also made a similar application, but, pending disposal, the present zamindar's father died, and was succeeded by his son, the present zamindar, who raised objections, and the application was not granted. On the 23rd May 1887 the present zamindar granted a lease of the zamindari to *O*, *S*, and *K*, who executed a release guaranteeing *F* undisturbed possession and enjoyment of the village, and accepted his position such as it may have been at or prior to the date of the execution of the lease. On the 23rd January 1890 the zamindar executed in favour of *F* a deed of release, which, after reciting the grant from the Rani, the deed executed by the zamindar's deceased father dated the 22nd February 1883, and a further payment of R3,500 by *F*, contained the following covenant: "Therefore I forfeit and relinquish the right I profess to have in me to question the said permanent lease or the terms of the said lease deeds, and I hereby ratify your right. You and your heirs shall hold and enjoy the said villages absolutely according to the terms of the aforesaid permanent lease deeds." *F* then applied by petition, dated the 13th March 1890, to the Col-

lector for separate registration and assessment of the said village, but on notices being sent to the zamindar and the lessees, they filed objections which, after due enquiry, were overruled by the Collector, who ordered separate registration and fixed the assessment. On appeal, the Board of Revenue supported the action of the Collector. Whereupon the lessees appealed to the Government of Madras on the 21st September 1891, and the Government of Madras on the 14th November 1891 cancelled both the separate registration and the separate assessment. Under the circumstances, *F*, claiming to be the duly registered holder of the said village, sued the Secretary of State for a declaration that the order of the Madras Government, dated the 14th November 1891, directing the Collector to cancel the separate registration and assessment of the said village was *ultra vires* and illegal—and the lessees sued *F* for the balance of poruppu, mangamai, and road-cess, with interest alleged to be due on the said village for Fasli 1300 :—*Held*, that *F* was bound to pay the lessees R3,500 poruppu with mangamai and road-cess, whether his village was separately registered and assessed or not. *Held*, that the suit by *F* for a declaration that the order of the Madras Government directing the Collector to cancel the separate registration and assessment of the village previously made by him was illegal and *ultra vires*, could not be maintained with reference to s. 42, Specific Relief Act, inasmuch as the order had been already carried out. *Held*, also, that, if the general words of the prayer "for such other relief as the circumstances of the case may require" were to be taken as including a prayer for consequential relief, then the suit was bad for misjoinder, inasmuch as the zamindar and the lessees who were interested parties were not joined. *Held*, also, that not only the person applying under Act I of 1876, s. 2, for separate assessment and registration must be entitled thereto, but also that the parties to the alienation must concur in the application. FISCHER *v.* SECRETARY OF STATE FOR INDIA. ORR *v.* FISCHER . . . **I. L. R. 19 Mad. 292**

Held, by the Privy Council, reversing the above decision, that by the effect of ss. 5 and 6 of the Madras Act I of 1876 the decision of the Collector, in a case within his jurisdiction, whether for or against separate registration of a portion alienated from a zamindari, when once duly sanctioned as provided by that Act, can only be questioned in a Civil Court. Under ss. 7 and 8, the apportionment of the assessment may be appealed from the Collector to the Board of Revenue, and power is reserved to the Governor in Council to order re-adjustment of the separate assessment if fraud or material error should appear. Separate registration, on the other hand, is a matter of private right. The grantee of the perpetual lease of a village, alienated thereby from a zamindari, sued for a declaration of the invalidity of an order of the Government, inasmuch as it

The words "favourable rent" in s. 64, sub-s. ——— s. 433—*Water rate—Liability of Commissioners to a suit for compensation for not supplying water and collecting rate.* By the provisions of the City of Madras Municipal Act, 1878, if a water rate is levied by the Commissioners, they are bound to supply water for house service to every rate-payer who desires and provides the necessary works to connect his premises with the main, which ought to be within 150 yards of his premises, and the rate-payers are bound to pay water-rate whether or not they avail themselves of the privilege of house service. If the Commissioners do not perform this duty, the rate-payer has a remedy by action and may recover compensation, either under the provisions of s. 433 (which provides that a person aggrieved by the failure of the Commissioners to do their duty may bring his action, and the Court may either direct the duty to be performed "or make such order as to the Court may seem fit") or under those of the Statute of Westminster. *Semble* : If the Court does not order the execution of the works under s. 433, the only other order it could make would be an order for reasonable compensation. The Legislature intended the water rate to be a payment for a benefit conferred, and the tax should not be levied till water can be supplied. If in part of the city the Commissioners are able to supply water and desire to obtain at once a return for their works, they should apply to the Government to exempt the rest of the city from the operation of the Act. ——— **s. 176, and Sch. V of the Act:—*Held*, that in the absence of any statutory definition of the word applicable in construing the Act, the word must be taken to be used in its ordinary and popular meaning, and so construed, it means the amount of money actually used in the business, *i.e.*, the paid-up capital. The fact that the word, in the Indian Companies Act, is used in the sense of nominal capital is no argument for so construing it in the Municipal Act, as the two Acts are not in *pari materia*. The underlying principle of Schedule V of the Act is that taxation should be roughly proportionate to the professional incomes of individuals. The word "capital" is used in the same sense in Sch. V of Act III of 1904 and in Sch. A of Act of 1884. In construing fiscal Acts, the construction most beneficial to the subject ought to be adopted. Mad. Reg. XI of 1802, Rights of zamindars under—Proprietary possession—Construction of statute—Preamble. The affirmative words of Madras Regulation XXV of 1802, s. 2, the preamble thereto forming no part of the enactment, did not either give to, or take away, from the former owners of lands, not permanently assessed, any rights which they then had. It merely vested in all zamindars an hereditary right at a fixed revenue upon the conclusion of the permanent assessment with them. The words "proprietors of lands," as used both in the Bengal Code of 1793 and in the Madras Code of 1802, have a technical signification. They refer to "zamindars, independent talukdars, and others, who pay the revenue assessed upon their estates immediately to Government." So also the words "proprietary possession," in the recital of Regulation XXV of 1802, mean the possession of a person who is a proprietor according to the technical meaning of the term. According to the true construction of Madras Regulations XXV and XXXI of 1802, the Legislature recognizes the right of private property, and does not assert a right on the part of Government to deprive or dispossess zamindars in their life time, or their heirs after their deaths, independently of any considerations connected with the realization of the public revenue. It provides for the protection of the revenue from invalid lakhiraj grants, and for the mode of trying the validity of the titles of persons claiming so hold their lands exempt from the payment of revenue. 2. *Alienation by zamindar—Limitation.* In a suit brought by a zamindar to recover either assessment at the rate of R5,000 per annum, or a pergunnah, part of the plaintiff's zamindari, the defendant pleaded that he had held the pergunnah as his own before and ever since the Permanent Settlement, and that the claim was barred by both Regulation XXV of 1802 and Act XIV of 1859. The lower Court overruled both pleas: the first, because it held that, under Regulation XXV of 1802, the zamindar's title could not be questioned; the second, because it considered that the decision in a former suit (that the *laches* of the zamindar could not prejudice his successor) prevented the application of the statute, on the ground of subsequent hostile possession, and that the plaintiff had had twelve years from the time he came into possession in which to bring the suit. *Held, first,* there was nothing in the Regulations relating to the Permanent Settlement showing an intention to affect rights of property in existence at the period of their being passed; *secondly,* that the decision in the previous suit could not be followed in the present case, in which the claimant was the grandson of him against whom, as to property of a normal character, the statute would have begun to run. Permanent Settlement. Tenants are not concluded by a mistake in settlement papers, nor does Regulation XXV of 1802 provide for forfeiture of rights by parties who by carelessness or accident allow their land to be misdescribed in settlement proceedings. It was doubted whether grants made by a zamindar before the Permanent Settlement were, or were not, binding on his successors,—their Lordships' minds inclining strongly to the affirmative side of the alternative, but as the question was not raised in the Courts below, it was not considered to be open to the appellants in the appeal to the Privy Council. 4. ——— *Alienation of proprietary rights.* Regulation XXV of 1802 strictly restrains the alienations of proprietary rights except in manner therein provided, and invalidates a disposal or transfer of such rights as against the Government and the heirs and successors of the proprietor making the disposal or transfer. *Semble :* Such alienation would be valid against the proprietor himself. A permanent lease is as much within the operation of Regulations XXV and XXX of 1802 as an absolute transfer by gift or sale. SUBBARAYULU NAYAK *v.* RAMA REDDI **1 Mad. 141**

——— ss. 4, 12—*Zamindar's sanad, assets mentioned in—Quite-rent on an agraharam village —Inam title-deed, rate mentioned in—Joint liability of agraharamdars—Rent, rate of.* The plaintiff was a zamindar holding his estate under a sanad dated 1802. This sanad followed almost verbatim the language of Regulation XXV of 1802, s. 4, and where it referred to "lands paying a small quit-rent," added "which quit-rent unchangeable by you is included in the assets of your zamindari." The suit was brought to recover arrears of jodi or quite-rent accrued due on an agraharam village in the zamindari. The defendants, who were the agraharamdars, had divided the village and held it in separate shares. They pleaded that they were not liable to pay jodi in excess of the rate fixed by the Inam Commissioner and specified in the inam title-deed granted by him for the village in 1869. *Held,* (i) that the decision of the Inam Commissioner did not affect the zamindar's claim, and that the question to be determined was what was the jodi payable in respect of the village at the time of the permanent settlement on which the peishcush of the zamindari was fixed ; (ii) that the defendants were jointly and severally liable for the amount that should be found due to the zamindar. On its appearing that R6 per patti was the recognised rate from 1832 to 1879, and that there was no evidence to show the agraharamdars had ever paid any other rate, or had paid R6 under coercion, the Court presumed that that was the rate at the time of the Permanent Settlement. ——— *Confinement of Native Christian in stocks—Legality of order.* By s. 10 of Mad. Reg. XI of 1816, heads of villages are given summary powers of punishment in cases of a trivial nature, such as using abusive language, and if the offenders "shall be of any of the lower castes of the people, on whom it may not be improper to inflict so degrading a punishment," they may be put in the stocks. A person who was a *Mala*, or Hindu *pariah*, by birth, and who had become a convert to Christianity, was convicted of having used abusive language, and sentenced to two hours' confinement in the stocks under the said Regulation. His profession was that of a weaver, but he, in fact, worked as a coolie. On the question of the legality of the sentence being referred to the High Court:—*Held*, that, to render a person liable to confinement in the stocks under the Regulation, there must be a concurrence of two circumstances, *viz.*, (i) he must be a person belonging to one of the lower castes of the people, and (ii) he must be a person on whom, from his social standing or otherwise, it may not be improper to inflict so degrading a punishment. The test is not what is the offender's creed, but what is his caste. *Semble:* That a person who has changed his creed but continues to belong to his caste may be within the purview of the Regulation if the caste is of the nature therein referred to; but if he abandons his caste he cannot longer be said to "belong to one of the lower castes of the people" and punishment by confinement in the stocks would no longer be legal. *The Queen* v. *Nabi*, *I. A clause in a pottah requiring the tenant to be responsible for theft of crops by him or his servants is not a proper term of a tenancy under the Act, especially having regard to s. 83 of the Rent Recovery Act, which provides for clandestine removal of crops. of the Madras Rent Recovery Act contemplates rents being fixed by contract and it is only in the absence of contracts, express or implied that resort is to be had to the methods of fixing rent specified in clauses 2 and 3 of the section. There is nothing in clause 4 to make contract illegal which would have the effect of giving the landlord a share in the benefit of the tenants' improvements. A *custom* to this effect may be opposed to the proviso to clause 4, but a contract is expressly authorised by the section and is not opposed to anything in the proviso. *Gopalasawmy Chetti* v. *Fisher, I. The suit was dismissed as to Faslis 1271, 1272, and 1275, on the ground that no pottahs had been tendered for those Faslis. 13. —— ss. 7, 9, 10, 11, 14—*Proceedings landlord to determine rent—Period from which limitation runs.* The sections of the Madras Rent Recovery Act (Madras Act VIII of 1865) relating to recovery of arrears of rent apply to ascertaining rents, not to rents at rates which have yet to be ascertained. In Art. 110 of Sch. II of the Limitation Act (XV of 1877), "arrears of rent" means arrears of ascertained rent, which the tenant is under an obligation to pay, and which the landlord can claim, and, if necessary, sue for :—*Held*, therefore (reversing the decisions of the Courts in India), that where it is necessary for the landlord to take proceedings under the Madras Act VIII of 1865 to have the proper rate of rent ascertained, the period of limitation in a suit for arrears of rent runs from the date of the final decree determining the rent, and not from the close of the Fasli year for which the rent is payable. *Sobhanadri Appa Rau* v. *Chalamanna, I. L. R. 17 Mad. 225*, approved. *Sriramulu* v. *Sobhanadri Appa Rau, I. L. R. 19 Mad. 21*, overruled. If the pottah, which has been originally tendered, was not such as the tenant was bound to accept and if it has been modified by a judgment in a summary suit, and if before the expiry of the Fasli to which it relates the landlord has tendered the pottah as amended, the landlord can also maintain a suit for rent under s. 7, relying on such tenders. But if no such tender has been made (and even in a case where it could not have been made by reason of the expiry of the Fasli before the judgment was passed) the landlord can sue for rent only if the tenant has executed a muchalka, which he was directed to execute by the judgment, or if he has refused to execute it. Though s. 72 of the Rent Recovery Act provides that a certified copy of the judgment of the Collector shall have the same force and effect as a muchalka executed by the tenant himself the tenant cannot be said to have refused to execute the muchalka unless, prior to suing for rent, the landlord has made a requisition or demand on the tenant calling upon him to execute a muchalka in accordance with the judgment then in force. *Court of Wards* v. *Dharmalinga, I. provisions not observed—Tenant's right of action —Effect of the statute on that right. Under the common law, a landholder has no right to sell his tenant's interest in the land for arrears of rent in a summary way. That right is given only by the Rent Recovery Act, and prior to exercising it the landholder must have complied with the special provisions of the Act as to tender of proper pottah and exchange of pottah and muchlaka. Where a landholder, who has not complied with these provisions, summarily sells his tenant's interest in the land, he violates the tenant's right. Such violation is actionable in a Civil Court as an infringement of a common law right, and that right of action is not taken away by the Statute. The special remedy given to a tenant by s. 40 of the Rent Recovery Act is cumulative, and it is open to a tenant to adopt it, if he prefers it to the ordinary proceedings in a Civil Court. Though s. 78 of the Rent Recovery Act only refers to recovery of damages, the ancillary remedies of declaration and injunction would lie even if the only right to object to an attachment were that which is given by that Act. These remedies are clearly available where the right is one at common law. *Máhomed* v. *Lakshmipati, I. L. R. 10 Mad. 368,* commented on. *Ramayyar* v. *Vedachella, I. L. R. 14 Mad. 441,* approved. 12. ——— and ss. 10, 11 *Improper stipulations in pottah—Claim of tenants to hold over land after expiry of lease—Civil Procedure Code, s. 544.* In summary suits brought by a landlord to enforce acceptance by his tenants of pottahs tendered by him for the current Fasli it was pleaded that the pottahs were improper in that they did not comprise certain land of which the tenants were in possession and in which they claimed permanent occupancy-rights, and also in that they contained various terms which the plaintiff was not entitled to impose on the defendants, providing, *inter alia*, (i) that interest should be payable on the several instalments of rent as they became due ; (ii) that the defendant should not fell certain trees except for agricultural purposes ; (iii) that the defendants should not reap their crops without previously obtaining the plaintiff's permission ; (iv) that on a change made without the plaintiff's permission from dry to wet cultivation, the tenancy should be forfeited in case of default made by the defendants in paying the amount of Government assessment, and also an undetermined sum then to become payable by the defendants to the plaintiff in addition to the rent. The defendants failed to prove the permanent occupancy-rights claimed over the land not comprised in the pottahs, and it appeared that they had held leases from the plaintiff for the land in question for a period of three years and had held over after the expiry of the leases without the permission and contrary to the wishes of the landlord ; and it further appeared that the provision as to trees did not extend to shrubs, etc., and had been an accepted term in the pottahs issued for ten years. The Revenue Court modified the terms of the pottahs and passed decrees that the pottahs as modified be accepted against which some only of the defendants appealed, and the District Judge on appeal introduced further modifications into the pottahs. *Held* (i), that the District Judge had no jurisdiction under Civil Procedure Code, s. 544, to introduce further modifications into the pottahs in favour of the defendants who had not appealed according to the opinion formed by him in appeals preferred by the defendants in other suits ; (ii) that the defendants were not entitled to have the pottahs modified by enlarging the extent of the land comprised in them, or by the cancellation of the provisions as to interest and as to felling trees ; (iii) that the defendants were entitled to have the pottahs modified by the cancellation of the provision as to reaping crops and of the provision for forfeiture. The words "according to the rate established or paid" import clearly the power to determine the rate of rent in accordance with either the general rate at which neighbouring lands of a similar kind are let, or, where the rents of such lands vary, the rate at which rents had for any time been actually paid by some of the tenants of such lands. m, that they should pay half the cost of repairs a cess proportioned to the wet rate, that if they igated dry land they should pay a wet rate to zamindar, as well as the water rate due to vernment, that they should not cut crops without mission, and should supply grass and vegetables the zamindar's servants. It appeared that in 3 the pergunnah in question was surrendered to vernment who restored it subject to the payment newly-assessed peishcush in 1862, a date when present defendants were already in occupation of r respective holdings. In the interval, Government collected village rents in money. The pergunnah was not surveyed, and a money assessment d prior to 1859. The District Judge expunged conditions in the pottah above referred to, held that the zamindar was entitled to collect way of rent from the raiyats respectively, the ta of the village rents which each raiyat paid in 1. He found, however, that there was no contract, express or implied, as to the rent to be paid; that prior to 1851 the raiyats held their lands ler the zamindar on the sharing system, and t for the first year after the restoration of the gunnah the arrangement enforced by Government had remained in force, but that from 1863 to 0 the sharing system was in force, and varam s paid by the raiyats, after which for five years individual money rents were collected, and then there e two leases with money rents each for a period ive years. *Held*, (i) that the conditions in the tah above referred to were unenforceable and been rightly expunged; (ii) that the plaintiff's ts were not limited by the rates of rent paid to vernment in 1861, but that the rent should be charged in kind according to the established rate varam in the village; (iii) that the plaintiff was itled to recover from the raiyats half the water- payable on the poramboke lands irrigated from Kistna anicut. rates of rent which may be brought before Collectors under ss. 8, 9, and 10, all contracts for rent, express or implied, shall be enforced. *Held*, that payment of rent in a particular form at a certain rate for a number of years is not only presumptive evidence of the existence of a contract to pay rent in that form or at that rate for those years, but is also presumptive evidence that the parties have agreed that it is obligatory on the one party to pay and the other to receive rent in that form and at that rate, so long as the relation of landlord and tenant may continue. 17. ——— *Enhanced rent on irrigated land—Sanction by Collector of enhanced rent—Customary contribution to a temple—Implied contract—Landlord and tenant.* A zamindar tendered to raiyats on his estate pottahs providing, *inter alia*, for the payment of (i) certain fees to a Hindu temple, (ii) rent in which the land assessment was consolidated with a water-cess in respect of certain land irrigated under the Kistna anicut. There was nothing to show that the former of these items constituted a charge on the land and the latter had not been sanctioned by the Collector under the Madras Rent Recovery Act, s. 11, but it was found that both had been paid by the raiyats for many years. The Court of first appeal held on this finding that there were implied contracts on the part of the raiyats to pay both items. *Held*, (i) that the temple fee was *primâ facie* voluntary, and should not be treated as a payment which the zamindar could compel a raiyat to make, and consequently that the pottah tendered to him was an improper pottah; (ii) that the finding as to the existence of an implied contract to pay the second of the above items was a correct finding, in accordance with the ruling in *Venkatagopal* v. *Rangappa, I. inserted in the pottah, and now sought to enforce it by suit. Upon the question whether, from the fact that the tenant had paid the water rate in question for some years previously, an implied contract to pay it for the future could be inferred :—*Held*, upon the facts of the present case, that no such contract could be inferred. 19. ——— *Enhanced rent on irrigated land—Sanction granted by Head Assistant Collector—Customary rent—Implied contract —Restraint on building—Landlord and tenant.* A Head Assistant Collector is competent to grant a sanction for the enhancement of rent under the Madras Rent Recovery Act, s. 11. The granting of such sanction is a judicial and not a merely administrative act, and such sanction should not be granted without first giving notice to both the landlord and the tenant, and hearing and considering the contentions of both parties. In a suit by the landlord to enforce the exchange of a pottah and muchalka, the tenant objected to the rate of rent imposed on part of the land, which was dry land converted into wet :—*Held*, that the finding of the lower Appellate Court that there was an implied contract to pay rent at such rate was not open to any legal objection. It appeared that the pottah tendered contained a stipulation for the payment of rent at a special rate for garden (jarib) lands watered by wells which had been constructed by the raiyat at his own cost and also comprised a stipulation that the raiyat should not build on his holding. The Court of first appeal held that the special rate of rent above referred to was customary, and had been followed for many years. *Held*, that there was no ground for interference on second appeal with the lower Appellate Court's decision regarding the former of the stipulations above referred to, but that the latter should be so modified as to prevent the raiyat only from raising any building incompatible with an agricultural holding. The zamindar tendered pottahs at wet rates :—*Held*, (i) that the zamindar was not entitled to levy increased rates without the Collector's sanction under s. 11 of Madras Act VIII of 1865, although he had expended money on the channels ; (ii) that payment for five years of such wet rates under a five years' lease did not imply a contract to continue such payments ; (iii) that a stipulation in the previous lease binding the tenants to pay such increased rates in case of future irr gation did not bind the tenants after the term that lease expired. The tenant was described in t cowle as a sukavasi raiyat, and the defenda also claimed to be sukavasi tenants. *Held*, th it was unnecessary to determine the cause of t variations in the amount of rent, and that agreement that the rent should continue to paid in money should be implied, and the landl accordingly was not entitled to impose a pot providing for payment of rent in kind. ement was justified on the ground (among others) that the Government had added a corresponding increase to the water-rate and that the Deputy Collector had under s. 11, cl. 4, of the Rent Recovery Act sanctioned the enhanced rent. Such an order had, in fact, been passed, but it had been cancelled by the Collector, who remanded the matter to the Deputy Collector to make inquiry and to pass a fresh order, without retrospective effect. The Deputy Collector passed a fresh order on 29th August, 1898—nearly two months after the close of the Fasli 1307, for which the *pattas* had been tendered. The order sanctioned an enhancement of 2 annas 3 pies per acre. On suits being filed to enforce acceptance of *pattas* containing enhanced rent at the rate of one rupee per acre :—*Held*, that the Collector had power to cancel the order sanctioning the enhancement at the rate of one rupee per acre, which, in consequence, could not be enforced, and that an enhancement of even 2 annas 3 pies could not be levied, as the *pattas* were bound to be and had been tendered prior to 30th June, 1898, in respect of Fasli 1307, which ended on that date, and the tenants were not bound to accept *pattas* in which an enhanced rate not sanctioned by the Deputy Collector till 29th August was charged. The defendants, by a registered deed, became permanent lessees of the melvaram rights of the plaintiff, who was a zamindar. On the question whether the defendants were entitled to relinquish their interest under the deed, under s. 12 of the Rent Recovery Act : *Held*, that the proviso to that section was not intended to apply to persons in the position of the defendants. Though the defendants were the "tenants" of the plaintiff in the sense that they were bound to pay rent to the plaintiff yet they were not tenants in the sense in which that term is used in s. 12. The defendants being lessees of the melvaram, were farmers under an inamdar, and belonged to the class of landholders specified in s. 3 of the Act. Seven days required by the section means seven clear days—Limitation Act (XV of 1877), Art. 91—Does not apply to defendants in possession. A defendant in possession is not precluded from setting up the invalidity of a sale, because his right to have it set aside was barred at the date of suit by Art. 91 of Sch. II to the Limitation Act. The seven days which, in fixing the day for sale under s. 18 of the Rent Recovery Act, must be allowed from the time of notice, are seven whole days, and not seven periods of 24 hours calculated from the hour of the day on which the notice was issued. *McQueen* v. *Jackson*, [*1903*] *2 B. 163*, referred to. An excessive distress, which is forbidden by s. 49 of that Act, is a ground on which an appeal against a distraint may be filed under s. 8, and if the distress proved to be excessive, the Collector may allow the appeal and set aside the distraint. ss. 18. 36, 40 *Insufficient notice of sale—Onus of showing that requirements of Act have been complied with—Irregularity—Civil Procedure Code (Act XIV of 1882), s. 283—Relief "in respect of the same matter"—Joinder of causes of action and parties—Suit against purchasers of different items at invalid sale.* Where the validity of a sale of land for arrears of rent is in question it is for the landlord, who seeks to avail himself of the special procedure by way of distress provided for by the Act, to show that the requirements of the Act have been complied with. Insufficient notice of sale is not a mere irregularity curable under ss. 18 and 40 of the Rent Recovery Act. The provision of s. 36 cannot be imported into s. 40 so as to make the former applicable to a sale of land distrained for arrears of rent. S. 36 introduces an exception to the general rule that, *primâ facie*

non-compliance with the requirements of the Act will vitiate a sale: and this exception is expressly limited to the case of moveable property. The provision in s. 18 as to the length of notice is that in fixing the day of sale not less than seven days must be allowed. If a notice be published on the 16th announcing that a sale will take place on 22nd the sale will be bad, even though it may take place in fact, on 23rd. A suit against a number of purchasers of different items of land distrained and subsequently sold under the Rent Recovery Act for a declaration that the sale was invalid for want of proper notice is not bad for misjoinder of parties and of causes of action. Though in a sense every item sold constitutes a separate sale, the "matter" is the same, the sale being of distrained property, under the same notification and in respect of the same arrears. The proceedings in which the various items are sold are one and the ground on which the validity of the sale is impugned is the same in each case. The same defect vitiates the whole proceedings and is the common ground of attack. The cause of action, namely, the wrongful sale, is the same as against all the defendants. When a suit is brought under s. 283 of the Code of Civil Procedure, the attachment (and not the making of the order) constitutes the cause of action; and different purchasers of the attached property may be properly joined as defendants in the same suit. Death of cattle distrained. A landlord distrained cattle, belonging to his tenant, for arrears of rent. The distraint was held, in a suit, to be illegal, the judgment being delivered on 7th September, 1898. Out of 17 animals which were distrained, only 11 were restored to plaintiff, the date of their restoration being the 28th November, 1898. Of those which were not restored, four died more than thirty days prior to the institution of the suit, one died within thirty days of suit, and one died after the suit had been filed. Upon a summary suit being filed by the tenant to recover the value of the cattle illegally distrained:—*Held*, that the cause of action arose on the date of the death of the cattle, and that plaintiff was only entitled to recover the value of one animal. *Held*, also, that he would have been entitled to recover the loss sustained by being deprived of the services of the cattle, had he so framed his suit. It appeared that there were three landlords who owned the village and that the pottah has been tendered by only two of them for their shares, and was consequently not a proper one:—*Held,* that the defendants were landlords who, had they tendered a proper pottah, would have been entitled to distrain under the Act. The fact that the pottah which had been tendered was not a proper one did not cause the proceedings taken by them under the provisions of the Act to be a proceeding not taken under colour of the Act. *Held,* also, that the suit was one for damages. On the 13th of March thirteen raiyats presented a joint petition to the Head Assistant Collector complaining of the landlord's acts. This petition was referred to the Tehsildar for report, and not treated as a plaint under Act VIII of 1865 (Madras); but subsequently, having been brought before the Deputy Collector for orders it was treated as a joint plaint under the said Act, and the petitioners were directed by that officer each to file a separate plaint. Thirteen plaints were accordingly filed on the 27th of May:—*Held,* that under s. 50 of the Act, which allows irregular plaints to be amended at the discretion of the Collector, the petition of the 13th March which contained all the necessary allegations, could be treated as a plaint capable of amendment; and that the order of the Deputy Collector directing the petitioners to file separate suits was an amendment within the meaning of that section. *Held,* also, that by the provisions of s. 69, which provides that substantial justice shall not be defeated by want of form or irregularity in procedure, the said order, even if irregular, having done substantial justice, ought not to be set aside. 2. ——— ss. 1, 2, 3, 26 and 42—*Land Revenue—Tax levied on trespasser—"Prohibitory assessment"—Legality.* Plaintiff had built a pial and shed to his house upon land which was part of a public road. Government thereupon imposed what is known as a "prohibitory assessment" and collected it from plaintiff requiring him to remove his pial and shed and giving him notice that in future an enhanced rate would be charged. In a suit by plaintiff *inter alia* to recover the amount of the tax, which he had paid :—*Held*, that the impost was not land revenue and the demand therefore, as if it were such revenue, was unauthorised and plaintiff was entitled to recover. Plaintiff possessed no interest in the land such as would constitute him a "landholder" within the meaning of the Revenue Recovery Act. He was improperly in possession of part of the surface of a public road, over which his right was merely one of passage ; and the erection by him of the buildings was a wrongful act and a trespass. Government had no right to impose any assessment on him for such occupation. *Per* SIR SUBRAHMANIA AYYAR (*Offg. Chief Justice*)—The provisions of the Revenue Recovery Act and of Madras Regulation XXVI of 1802 show that land, in respect of which land revenue is exigible is vested in some person or persons other than the Crown ; and that the Crown possesses nothing more than a charge (though a first charge) in respect of the revenue due to it, upon the interest of such person or persons, realizable by sale thereof. preclude the supposition that any Crown demand is recoverable as land revenue, unless it be something due from one, who is a landholder, as defined by the Act. *Per* BHASHYAM AYYANGAR, *J.*—Civil Courts have jurisdiction to decide whether or not the land or person is at all under liability to be assessed for land revenue. If such liability does exist, the rate or amount of assessment fixed by Government cannot be questioned or revised by a Civil Court. In the case of all lands, any demand, which may be made on behalf of the Crown on the occupant with the avowed object of compelling him to surrender or vacate the land, is not the imposition of land revenue, and the machinery provided by the Revenue Recovery Act for the realization of arrears of revenue cannot be resorted to for enforcing such a demand. ——— *Sale of property of a defaulter for arrears of revenue—Mad. Reg. XXVI of 1802, s. 3—Register of transfer—Act I of 1890, s. 6 (3) (4)—"Entire estate" of defaulter—Lands held under different pattas—Sale of land comprised in one patta—No arrears of revenue due—Subsequent sale of same land for arrears of revenue due on other land held under different patta—Validity.* First defendant held lands, under two separate *pattas*, in two different villages. The land situated in one of the villages was, in 1897, sold at a Court sale in execution of a decree, and was purchased by plaintiff. At the date of this sale no arrears of revenue was due in respect of any of first defendant's lands situate in either village. At a date subsequent to plaintiff's purchase at the Court sale the same land was again sold to second defendant for arrears of revenue. These arrears were not due in respect of the land which was sold, but had accrued due on the other land belonging to first defendant, which was situated in the other village and comprised in the other *patta*. Plaintiff had not applied to the Collector of the district for a transfer of the *patta* of the lands which he had purchased at the Court sale. Plaintiff now sued for a declaration that the sale to second defendant for arrears of revenue was invalid. *Held*, that plaintiff was entitled to the declaration. *Per* MOORE, *J.*—Inasmuch as plaintiff had failed to obtain a transfer of *patta* into his own name after his purchase, the transfer by Court sale from first defendant to plaintiff would not, under s. 3 of Mad. Reg. XXVI of 1802, have relieved first defendant or the land from liability for land-revenue due by first defendant in respect of those particular lands. But these lands were not liable for revenue due by first defendant in respect of land situated in the other village. Having regard to s. 6 (3) (4) of Act I of 1890, the "moveable and immoveable property of a defaulter," referred to in s. 5 of Madras Act II of 1864, must be taken to mean the interest of the defaulter in the land. Inasmuch as the interest of the first defendant in the lands in question had already been sold to plaintiff, practically nothing remained to be sold to the second defendant at the subsequent revenue sale. *Per* DAVIES, *J.*—The land which plaintiff had bought at the Court sale was not liable to be sold under the Revenue Recovery Act, because at the time of sale, there were no arrears of revenue due upon it, and it then ceased to form part of defaulter's property. The land which, under ss. 4, 5 and 25 of the Revenue Recovery Act, is liable to be sold for arrears of revenue, must either be the land upon which the revenue is due, or land which is the property of the defaulter. The land in question was of neither description. The term "estates," as used in s. 3 of Mad. Reg. XXVI of 1802, when used with reference to a single person, must be read as meaning the "entire estate" and, before s. 3 of the Regulation can apply, the "estate" must be such as had "revenue due to Government" upon it. A *patta* represents an entire estate, and land held under another *patta* forms another estate. NARAYANA RAJA *v.* RAMACHANDRA RAJA (—)

II, III (7)—Power to commit for trial—Case triable by Court of Session and Magistrate of the first class—Discharge of accused.* A complaint of an offence made punishable by s. 392 of the Penal Code was brought in the Court of a Magistrate of the second class, who had been invested with the powers described in s. 206 of the Criminal Procedure Code. The Magistrate passed an order directing that the enquiry should be held in his Court, and accordingly an inquiry was held under the provisions of Ch. XVIII of the Criminal Procedure Code, and the accused was discharged. *Held*, that powers conferred under s. 206 of the Criminal Procedure Code convey authority to carry into effect any of the provisions of Ch. XVIII of the Code ; that the procedure to be adopted under Ch. XVIII is not confined to cases exclusively triable by a Court of Session, but is also applicable to cases which, in the opinion of the Magistrate concerned, ought to be tried by such Court ; that the order of the Magistrate in the present case directing enquiry to be held in his Court, must be taken to mean that in his opinion the case referred to was one which ought to be tried by a Court of Session ; and that his order discharging the accused was therefore legal. On the 6th September the powers of a Magistrate of the first class were conferred on the Magistrate by an order of Government, which was communicated to him on the 8th September. On the 9th September, the case for the prosecution having closed, the Magistrate framed charges against each of the accused under ss. 323 and 325 of the Penal Code, recorded the statements of the accused and the evidence for the defence, and, on the 10th September, convicted the accused of all the charges, passing upon each of them, in respect of each charge, sentences which he could pass as a Magistrate of the first class, but could not have passed as a Magistrate of the second class. On appeal the Sessions Judge, on the ground that the prisoners had committed the offence described in s. 148 of the Penal Code, held that the sentences passed by the Magistrate were illegal, as being inconsistent with the provisions of s. 71, paras. 2 and 4, and he accordingly reduced

In a case under s. 35 a Magistrate has no option but to inflict the full fine of R500 if the offence be proved. Where a person was charged, as being the principal officer of a company, with having issued nine share warrants not duly stamped in respect of which the penalties claimed under s. 35 amounted to R4,500 and where it was contended that the infliction of such a penalty was beyond the jurisdiction of the Magistrate, which under the provisions of s. 32 of the Code of Criminal Procedure was limited to inflicting a fine of R1,000:—*Held*, that the issue of each of the nine share warrants was a separate offence, and the fact that several offences have been committed, and therefore that the Magistrate's power to fine would extend to more than R1,000, was not affected by that section of the Code. 10. TRANSFER OF MAGISTRATE DURING TRIAL.

1. ——— **Summary jurisdiction**—*Transfer—Criminal Procedure Code, ss. 56 and 2—Furlough.* The petitioner had been convicted by Mr. *C*, the Assistant Commissioner of Kamroop, in the exercise of a summary jurisdiction, under s. 2 of Act X of 1872. This officer was, in the year 18, in charge of the Jorehaut Division in the District of Seebsaugor, "with first-class powers and powers under s. 222" of the Act. In 1874 he proceeded on furlough to England, and, on his return in 1875, was posted to the district of Kamroop, and invested with the powers of a Magistrate of the first class:—*Held*, that s. 56 of Act X of 1859 did not apply, and that Mr. *C* had no summary jurisdiction in Kamroop; per MARKBY, *J.*, on the ground that, by the terms in which the Government had conferred that jurisdiction on Mr. *C*, it had in effect "directed," within the meaning of s. 56 of Act X of 1872, that he should exercise that jurisdiction any where but in Seebsaugor; *per* MITTER, *J.*, on the ground that the office to which Mr. *C* was appointed in Kamroop was not equal to, or higher than, that which he had held in Seebsaugor. *Quære: per* MARKBY, *J.*—Whether the posting of Mr. *C* to Kamroop, after his return from furlough, was a transfer from Seebsaugor within the meaning of s. 56 of Act X of 1872. *In the matter of* PURSOORAM BOROOA **I. 2. ——— **Jurisdiction to complete trial**—*Transfer of Magistrate while trying a case.* Mr. *M* was appointed by the Local Government, under s. 37 of Act X of 1872, a Magistrate of the first class, under the designation of Joint Magistrate, in the district of Meerut. He was subsequently appointed to officiate as Magistrate of the district

of Meerut during the absence of Mr. *F* or until further orders. While so officiating, he was appointed by a Government notification, dated the 10th July 1880, to officiate as Magistrate and Collector of Gorakhpur, "on being relieved by Mr. *F*." He was relieved by Mr. *F* in the forenoon of the 23rd July 1880; and in the afternoon of that day, under the verbal order of Mr. *F*, he proceeded to complete a criminal case which he had commenced to try while officiating as Magistrate of the district of Meerut. All the evidence in this case had been recorded, and it only remained to pass judgment. Mr. *M* accordingly passed judgment in this case and sentenced the accused persons to various terms of imprisonment. *Held* (SPANKIE, *J.*, dissenting), that Mr. *M* retained his jurisdiction in the district of Meerut so long as he stood appointed by the Government to that district and no longer, and the effect of the order of the 10th July 1880 was to transfer him from the district of Meerut from the moment he was relieved by Mr. *F* of the office of the Magistrate of that district, and from that moment he no longer stood appointed to that district and could exercise no jurisdiction therein as a Magistrate of the first class; and that therefore the conviction of such accused persons had been properly quashed on the ground that Mr. *M* had no jurisdiction. 3. ——— **Order passed by a Magistrate after his successor had entered upon his appointment**—*Criminal Procedure Code, 1882, s. 12.* By an order of the Local Government Babu Dila Ram, a Magistrate exercising jurisdiction in the Meerut district, was transferred from that district "on the arrival of Kunwar Kamta Prasad." *Held*, by BANERJI, *J.*, that the effect of the order transfer so expressed was that Babu Dila Ram ceased to have jurisdiction as a Magistrate within the Meerut district from the time when Kunwar Kamta Prasad commenced work as a Magistrate in that district. *Held* by AIKMAN, *J.*, that the effect of the said order was that Babu Dila Ram ceased to have jurisdiction on the arrival of Kunwar Kamta Prasad; but whether such arrival was his arrival within the limits of the district or at headquarters was not clear from the order. *Empress of India* v. *Anand Sarup, I. 4. ——— **Change of powers of Magistrate while case is proceeding**—*Notification taking effect retrospectively.* On the 22nd of May 1878 a Deputy Magistrate, invested with third class powers only, sentenced an accused person to three months' imprisonment under s. 417 of the Penal Code, thus exercising second class powers. On appeal the Magistrate, on the 18th June, annulled the sentence and directed a new trial under s. 284 of the Code of Criminal Procedure. On the 26th of June the Government issued a notification, investing the Deputy Magistrate with second class powers, to take effect from the 25th of March to the 31st of May 1878. *Held*, that the notification did not render the Magistrate's order illegal, as the Deputy Magistrate had no jurisdiction to exercise second class powers on the 22nd of May. *In the matter of* SURGEE **3 C. L. R. 281**

5. ——— **Appointment of Magistrate**—*Time from which order of appointment dates.* An Assistant Magistrate convicted an accused on the 12th August, and by an order of even date such Magistrate was invested with power to act as a Magistrate of the first class, although the fact that he had been so invested with full powers was not communicated to him until the 23rd idem. The accused appealed to the District Magistrate and was acquitted. On motion made to the High Court to set aside the acquittal, on the ground that, after the date of the order of the Lieutenant-Governor investing the Assistant Magistrate with further powers, no appeal lay to the District Magistrate. *Held*, that, even supposing the Lieutenant-Governor's order conferred first class powers upon the Assistant Magistrate from the moment it was made, it must be shown, before the District Magistrate's decision could be set aside, that the order of the Lieutenant-Governor was signed before the conviction. *Quære:* Whether an order investing a Magistrate with first class powers is of any force, or amounts to an authority to exercise such powers, until the order has been officially communicated to the Magistrate. *In the matter of the petition of* MAHOMED ESHAK. 6. ——— **Transfer of a Sub-Registrar invested with powers of a Special Magistrate**—*Criminal Procedure Code, s. 40—Madras Police Act (XXIV of 1859), s. 18.* A Sub-Registrar, having been invested with magisterial powers with reference to offences under Act XXIV of 1859, was transferred from the place where he was officiating at the time he was so invested to another place, and there took on to his file and tried certain cases of offences under that Act. The District Magistrate having reported the cases for the orders of the High Court, the Court declined to quash his proceedings. QUEEN-EMPRESS *v.* VIRANNA **I. L. R. 15 Mad. 132**

7. ——— **Head Assistant Magistrate appointed Deputy Magistrate in same district**—*Criminal Procedure Code, 1882, s. 350—Part-heard case.* A Head Assistant Magistrate, during the pendency of a criminal case of which the trial was almost finished, was appointed to the office of Deputy Magistrate in another part of the same district. The case was transferred by an order of the District Magistrate to the file of the Deputy Magistrate. *Held*, that the Deputy Magistrate

11. WITHDRAWAL OF CASES.

1. ——— **Withdrawal of case for trial**—*Criminal Procedure Code, 1872, ss. 45, 47, 328, 329.* The provisions of Act X of 1872, s. 328, only apply when a Magistrate, after hearing part of the evidence in a case, ceases to exercise jurisdiction, and is succeeded by another, who has, and exercises, jurisdiction in such case. So s. 329 only applies to "enquiries" under Ch. XV, and only when the Magistrate is "unable" to complete the enquiry himself. But when a case under trial is removed under s. 47, the whole proceedings must commence *de novo* in the manner provided for in s. 45. QUEEN *v.* KHAN MAHOMED

2. ——— **Power to withdraw case**—*Criminal Procedure Code, 1872, s. 47.* Magistrates of districts should exercise the powers conferred on them by s. 47 of Act X of 1872 only when it is absolutely necessary for the interests of justice that they should do so; and when one of the parties to a case applies to have it withdrawn from the Magistrate enquiring into or trying it and referred to another Magistrate, the Magistrate of the district should give the other party notice of such application and an opportunity of showing cause why such application should not be granted. Where the accused in a criminal case applied to the Magistrate of the district, after the evidence of the complainant and his witnesses had been taken, to withdraw such case from the Subordinate Magistrate trying it and to try it himself, such application not containing any sufficient reason justifying the granting of the same, and the Magistrate of the district, without giving the complainant notice of such application or opportunity of showing cause against it, and without stating any reason, withdrew such case from the Subordinate Magistrate trying it and referred it to another for trial, the High Court set aside the order of the District Magistrate and of the Magistrate to whom such case was referred for trial, and directed the Magistrate from whom it had been withdrawn to proceed with it. *In the matter of the petition of* UMRAO SINGH *v.* FAKIR CHAND

12. ——————— *Presumption of marriage.* According to Mahomedan law, mere continued cohabitation without proof of marriage or acknowledgment is not sufficient to raise such a legal presumption of marriage as to legitimise the offspring. Marriage and acknowledgment may be presumed, but the presumption must be one of fact, and, as such, subject to the application of the ordinary rules of evidence. 13. ——————— *Illegitimacy of birth—Insufficiency of father's acknowledgment without intention to legitimate—Marriage, validity of.* On the question of the legitimacy of a son born to a Mahomedan by a Burmese woman, the question did not arise on this appeal whether the father could have entered into a valid marriage with the mother without her having relinquished Buddhism. The Court below found against her alleged conversion to the Mahomedan religion, and also found upon the facts that no marriage of the parents as distinguished from concubinage had taken place. The lower finding was affirmed. As to the question whether the son born to them had been legitimated by the father's acknowledgment of him : *Held,* that under the Mahomedan law the legitimation of a son born out of legal wedlock, may be effected by the force of his father's acknowledgment of his being of legitimate birth ; but that a mere recognition of sonship is insufficient to effect it. Acknowledgment in the sense meant by that law is required, as of antecedent right, and not a mere recognition of paternity. *Ashrufooddowlah Ahmed Hossein* v. *Hyder Hossein Khan, 11 Moo. I. 16. ——— *Legitimacy—Effect of acknowledgment of sonship. Held*, by PETHERAM, *C.J.*, that, according to the Mahomedan law, the effect of an acknowledgment by a Mahomedan that a particular person, born of the acknowledger's wife before marriage, is his son in fact, though the acknowledger may never have treated him as a legitimate son or intended to give him the status of legitimacy, is to confer upon such person the status of a son capable of inheriting as legitimate, unless conditions exist which make it impossible that such person can have been the acknowledger's son in fact. *Ashrufooddowlah Ahmed Hossein Khan* v. *Hyder Hossein Khan, 11 Moo. I. A. 94; Muhamad Azmat Ali Khan* v. *Lalli Begum, I. L. R. 8 Calc. 422;* and *Sadakat Hossein* v. *Mahomed Yusuf, I. L. R. 10 Calc. 663*, referred to. In a suit for possession, by right of inheritance, of a share of the property of a deceased Mahomedan by a person alleging himself to be a son of the deceased, the defendants pleaded that the plaintiff was not a son, but a step-son, having been born of the deceased wife before her marriage. The plaintiff filed certain letters and other documents in which the deceased in express terms referred to him as his son; and he contended that these references amounted to acknowledgments of him as a son made by the deceased, which, under the Mahomedan law, entitled him to inherit as a legitimate son. *Held*, by PETHERAM, *C.J.* (BRODHURST, *J.*, dissenting), that the acknowledgment by the deceased of the plaintiff as his son in fact conferred upon the latter the status of a legitimate son capable of inheriting the deceased's estate, although the evidence showed that the deceased never treated him as a legitimate son, or intended to give him the status of legitimacy. *Held*, by BRODHURST, *J.*, *contra*, that the documents above referred to did not show more than that the deceased regarded the plaintiff as his step-son; that the plaintiff was never called his son except by courtesy and in the sense in which a European would ordinarily describe his step-son as his son; and that there was no sufficient evidence of the acknowledgment from which an inference was fairly to be deduced that the deceased ever intended to recognize the plaintiff and give him the status of a son capable of inheriting. *Sadakat Hossein* v. *Mahomed Yusuf, I. L. R. 10 Calc. 663*, referred to. MAHAMMAD ALLAHDAD KHAN *v.* MAHAMMAD ISMAIL KHAN . I. L. R. 8 All. 234

17. ——— *Inheritance—Legitimacy—Acknowledgment of sonship. Per* EDGE, *C.J.*, and STRAIGHT, *J.*—The rules of the Mahomedan law relating to acknowledgment by a Mahomedan of another as his son are rules of the substantive law of inheritance. Such an acknowledgment, unless certain impediments exist, confers upon the person acknowledged the status of a legitimate son capable of inheriting. Where there is no proof of legitimate birth or of illegitimate birth, and the paternity of a child is unknown, in the sense that no specific person is shown to be the father, then the acknowledgment of him by another who claims him as a son affords a conclusive presumption that he is the legitimate child of the acknowledger, and places him in that category. Such a status once conferred cannot be destroyed by any subsequent act of the acknowledger or of any one claiming through him. *Per* MAHMOOD, *J.*—Although, according to the Mahomedan law, ikrar or acknowledgment in general stands upon much the same footing as an admission as defined in the Evidence Act, acknowledgments of parentage and other matters of personal status stand upon a higher footing than matters of evidence and form a part of the substantive Mahomedan law. So far as inheritance through males is concerned, the existence of consanguinity and legitimate descent is an indispensable condition precedent to the right of succession, and such legitimate descent depends upon the existence of a valid marriage between the parents. Where legitimacy cannot be established by direct proof of such a marriage, acknowledgment is recognized by the Mahomedan law as a means whereby marriage of the parents or legitimate descent may be established as a matter of substantive law. Such acknowledgment always proceeds upon the hypothesis of a lawful union between the parents and the legitimate descent of the acknowledged person from the acknowledger, and there is nothing in the Mahomedan law similar to adoption as recognized by the Roman and Hindu systems, or admitting of an affiliation which has no reference to consanguinity or legitimate descent. A child whose illegitimacy is proved beyond doubt by reason of the marriage of its parents being either disproved or found to be unlawful, cannot be legitimatised by acknowledgment. Acknowledgment has only the effect of ligitimation where either the fact of the marriage or its exact time, with reference to the legitimacy of the child's birth, is a matter of uncertainty. *Ashrufooddowlah Ahmed*

BHAN BIBI *v.* LALON BIBI **I. L. R. 27 Calc. 801**

21. ——————— *Mode of acknowledgment.* In order to an acknowledgment of paternity legitimating children under the Mahomedan law, the declaration ought to be clear and distinct in respect to each child; and the children, or those of them who have reached years of discretion, ought to come forward and acknowledge their father. KEDARNATH CHUCKERBUTTY *v.* DONZELLE **20 W. R. 352**

22. ——————— *Form of acknowledgment—Evidence of marriage.* The acknowledgment need not be of such a character as to be evidence of marriage. WUHEEDUN *v.* WUSEE HOSSEIN **15 W. R. 403**

23. ——————— *Legitimacy of children—Presumption as to marriage.* Where a Mahomedan lady sued for a declaration of the validity of her marriage with the man with whom she had lived and of the legitimacy of their children, and relied upon the position which her reputed husband gave her during his lifetime in his family and on his treatment of their children:—*Held,* following Privy Council in *Ashrufooddowlah Ahmed Hossein Khan* v. *Hyder Hossein Khan, 11 Moo. I. A. 94,* that though the presumption of legitimacy "follows from the bed," and legitimacy may be inferred from the treatment shown during lifetime to a woman and her children, yet a Court, in dealing wi this subject, would not be justified in making a presumption of fact which a rational view of t principles of evidence would exclude; and that as t force of presumptions of fact must vary with var ing circumstances,—and in the present case t circumstances were all such as to throw the Cou upon direct evidence rather than upon presun tions,—the Court could not, in the absence of su stantive evidence, allow the claim. The appe was accordingly dismissed. The circumstanc above referred to, as throwing the Court up direct testimony, were that the lady herself was the suit, and might have given her evidenc that a valid Mahomedan marriage must alw be made in the presence of witnesses, who mig have been summoned as witnesses, together wi the officiating mollah or kazi; and that the e dence of one such witness, who had been call actually threw doubt upon itself. Where a husband applied that his wife, stated in the return to a writ of *habeas corpus* to be "an infant under the age of sixteen years, to wit of the age of eleven years or thereabouts," might be delivered over into his custody, the Court, on the ground that she had not attained the age of puberty and that her dower had not been paid, refused to order her to be taken from the custody of the mother, although the mother had taken her away secretly, in the absence of her father and husband from Bandari, where they were all living together, to Calcutta. *In the matter of* KHATIJA BIBI . . . 5 B. 2. ——— **Custom of right to eject on sale**—*Lease—Sale by lessor.* A Mahomedan residing at Zanzibar let a house situated there to the defendant, to be held by the latter as long as he pleased, under a lease in which he (the lessor) stipulated never to remove the lessee. The plaintiff subsequently with full knowledge of the lease, purchased the same house from the lessor, and as such purchaser sued to eject the defendant. The plaintiff tendered evidence to show that by the custom of Zanzibar the defendant's tenancy was determined upon the sale by the landlord. This evidence was refused. *Held*, that the alleged custom, even if proved, was invalid. It was unreasonable, as enabling a man, after having granted a lease, to deprive the lessee of the entire benefit of his lease. DESOUZA *v.* PESTANJI DHANJIBHAI **I. L. R. 8 Bom. 408**

3. ——— **Exclusion from inheritance of females by sons**—*Labis—Ravuthans of Palgat—Mahomedan religion—Hindu law of inheritance—Evidence necessary to support valid custom.* A claim by the widow of *S*, Ravuthan, a Labi of Palgat, and her daughters, for their shares of his estate under Mahomedan law, was opposed by other members of the family, who pleaded that, according to a special custom obtaining among the Ravuthans of that part of the country adopted from Hindu law, females are excluded from inheritance if sons or sons' sons exist. In two instances it was proved that women of this class had obtained shares under Mahomedan law by suits without this plea having been put forward. The District Munsif described these cases as interruptions, and found on the evidence that the custom was proved. On appeal this decree was confirmed by the Subordinate Judge. *Held*, that no valid custom was established by the evidence. A custom, to be valid, must be consciously accepted as having the force of law. MIRABIVI *v.* VELLAYANNA . **I. L. R. 8 Mad. 464**

4. ——— **Division of estate in cases of intestacy**—*Impartible estate—Beng. Reg. XI of 1793—Beng. Reg. X of 1800.* The family usage that a zamindari has never been separated, but has devolved entire on every succession, though proved to have existed as the custom for many generations, will not exempt the zamindari from the operation of Regulation XI of 1793, which provides in case of intestacy for the division of landed estate among the heirs of the deceased according to the Mahomedan or Hindu law. Regulation X of 1800 does not apply to undivided zamindaris in which a custom prevails that the inheritance should be indivisible, but only to jungle mehals and other entire districts where local customs prevail, and therefore only partially, and to that extent repeals Regulation XI of 1793. 5. ——— **Public worship in mosque**—*Injunction restraining defendants from interrupting religious ceremonies in a musjid—Right imam and of mutwali to be protected in their offices—Differences of opinion between the imam and certa of the worshippers as to observances at praye* Among Sunni Mahomedans, neither on the groun of any general and express rule of Mahomedan la nor on the ground of the growth of customs separa ing different schools in so marked a manner that th followers of one school could not properly worshi with those of another, did the introduction by th Imam of (*a*) the loud-toned Amen, and of (*b*) th Rafadain, show such a change of tenets. Nor wa it in itself such an important departure from th custom of Sunnis as that it would disqualify th imam for officiating in a musjid where those cer monies had not previously been used. Nor did t introduction of (*a*) and of (*b*) justify a section of tu worshippers in setting up another leader of praye at the same time that prayer was being conducte by the duly authorized imam. On the lowe Appellate Court's findings of fact there was nothin in the constitution of the mosque which prohibite the adoption of (*a*) and (*b*), and those findings wer conclusive. For the purpose, however, of consider ing the case from other points of view, their Lord ships examined the whole of the evidence, and the agreed with the Subordinate Judge that there wa no evidence showing that the mosque was not in tended for the worship of all Sunnis or for a Mahomedans. Nor was there any rule of law that when public worship had been performed in certain way for twenty years, there could not be an variation, however slight, from that way. Th question in each case of dispute must be as to th magnitude and importance of the alleged departur There had not been produced any text to show tha a follower of Abu Hanifa would do wrong in follow ing a practice recommended by others of the fou imams. Nor was there any usage having the forc of law among Sunni communities, forbidding th introduction of (*a*) and (*b*) into ceremonial praye as shown by the evidence of learned Mahomedans and by proof of their actual practice. The judg ments in *Empress* v. *Ramzan, I. L. R. 7 All. 461* and *Ataulla* v. *Azimu la, I. L. R. 12 All. 494* referred to. The Court ought not to declare tha the imam or mutwalis of the musjid had authorit to eject the dissentients, if and when they inter fered. 6. ——— **Immoral customs**—*Successio to property among Kanchans—Practices not re cognizable by law as customs.* Among Mahomeda Kanchans, practices relating to their holding and in heritance of property, having an immoral tendenc were held to be not recognizable as customs, o enforceable as law. To recognize practices tendin to promote prostitution, which the Mahomedan la reprobates and prohibits absolutely, would be con trary to the policy of that law. his estate, the ownership of such estate devolves immediately on his heirs, and such devolution is not contingent upon and suspended till payment of such debts. A decree relative to his debts, passed in a contentious or non-contentious suit against only such heirs of a deceased Mahomedan debtor as are in possession of the whole or part of his estate, does not bind the other heirs who, by reason of absence or other cause, are out of possession, so as to convey to the auction-purchaser, in execution of such a decree, the rights and interests of such heirs as were not parties to the decree. In execution of a decree for a debt due by a Mahomedan intestate, which was passed against such of the heirs of the deceased as were in possession of the debtor's estate, the decree-holder put up for sale and purchased certain property which formed part of the said estate. One of the heirs, who was out of possession, and who was not a party to these proceedings, brought a suit against the decree-holder for recovery of a share of the property sold in execution of the decree, by right of inheritance. *Held*, by the Full Bench, that the plaintiff was not entitled to recover from the auction-purchaser, in execution of the decree, possession of his share in the property sold, without such recovery of possession being rendered contingent upon payment by him of his proportionate share of the ancestor's debt of which the decree was passed, and in satisfaction whereof the sale took place. *Wahidunnissa* v. *Sheobruttun, 6 B. 12. ——— *Inheritance — Devolution not suspended till payment of deceased ancestor's debts.* A creditor of *A*, a deceased Mahomedan, under a hypothecation bond, obtained a decree on the 20th December 1876 for recovery of the debt by enforcement of lien against *M*, one of *A's* heirs, who alone was in possession of the estate; and, in execution of the decree, the whole estate was sold by auction on the 21st March 1878, and purchased by the decree-holder himself. *J*, another of *A's* heirs, was not a party to these proceedings. On *J's* death, her son and heir, *A H*, conveyed to *M A* the rights and interests inherited by him from his mother,—namely, her share in *A's* estate. The purchaser of the share thereupon brought a suit against the decree-holder for its recovery. *Held*, that, immediately upon the death of *A*, the share of his estate claimed in the suit devolved upon *J*; that she being no party to the decree of the 20th December 1876, her share in the property could not be affected by that decree, nor by the execution-sale of the 21st March 1878; that upon her death that share devolved upon her son, who conveyed his rights to the plaintiff; that the plaintiff was therefore entitled to recover possession of the share which he has purchased, but that he could not do so without payment to the defendant of his proportionate share of the debts of *A*, which were paid off from the proceeds of the auction-sale of the 21st March 1878. *Jafri Begum* v. *Amir Muhammad Khan, I. 13. ——— *Liability of one of several heirs to pay ancestors' debts, when but for his own action debt would be barred by limitation—Justice, equity, and good conscience, application of principle of—Act VI of 1871, s. 2.* *A*, a Hindu and a creditor of *B*, a deceased Mahomedan, sued *C*, *D*, *E*, and *F*, his heirs, to recover a sum of money alleged to be due on a roka, alleging that they were in possession of *B's* estate, and praying for a decree against the estate upon that footing. It was not disputed that the debt would have been barred by limitation but for a part payment made by *C*, and endorsed by him on the back of the roka. *D*, *E*, and *F* were no parties to such payment, and it was found not to have been made with their consent. The first Court, considering that collusion existed between *A* and *C*, and having regard to the fact that *C* did not dispute his liability, gave *A* a decree for the full amount of the debt against *C* without finding whether the roka was genuine or not, and held that the shares of *D*, *E*, and *F* in *B's* estate were not liable for any portion of the debt. *A* accepted this decision and did not appeal. *C* appealed on the ground that he could only, under the Mahomedan law, be held liable for a part of the debt in proportion to the amount of *B's* estate which had come into his hands. The lower Appellate Court decided in *C's* favour, and varied the decree by directing that *A* was only entitled to recover two-fifths of the debt from *C*, that being the amount of *C's* share. *D*, *E*, and *F* were not made parties to that appeal. *A* then preferred a special appeal to the High Court, making *D*, *E*, and *F* parties. *Held*, that, under the circumstances of the case, and having regard to the rule of Mahomedan law, *A* was not entitled to a decree against *C* for more than two-fifths of the debt. *Held*, further, that, applying the principle of justice, equity, and good conscience to the case, inasmuch as *A* was a Hindu, it would not, under the circumstances of the case, be equitable to hold *C* liable for the whole of the debt. 15. ——— *Mahomedan family—Mortgage by Mahomedan father—Suit by mortgagee against minor son represented by mother after mortgagor's death and decree for possession—Some of the heirs not parties—Subsequent suit by daughters as heirs of mortgagor for redemption.* When in a mortgage suit the debt is due from the father, and after his death the property is brought to sale in execution of a decree against the widow or some of the heirs of the mortgagor, and the whole property is sold, then the heirs not brought on the record cannot be permitted to raise the objection that they are not bound by the sale simply because they are not parties to the record. This principle of law applies as much to a Mahomedan family as to a Hindu family governed by the Mitakshara law. *Hari* v. *Jairam, I. L. R. 14 Bom. 597*, and *Khurshetbibi* v. *Keso, I. L. R. 12 Bom. 101*, referred to and followed. One *N* mortgaged his property in 1862 to *B* and died in 1864, leaving a widow, a son, and two daughters. In 1864, *B* (the mortgagee) sued the minor son, represented by his mother, for possession as owner under the gahan lahan clause and got a decree on the 30th September 1864, and obtained possession in 1865. To this suit the daughters of *N* were not parties. *B* held the land till 1887, and then sold it to *S*. In 1890 *N's* daughters brought this suit against *B* and *S* to redeem the mortgage of 1862, contending that they were not bound by *B's* suit in 1864, not having been parties to it. *Held*, that the plaintiffs could not redeem. They were bound by the decree obtained by the mortgagee in 1864. DAVALAVA *v.* BHIMAJI DHONDO

Before *B* obtained his decree, the heirs of *A* had mortgaged the estate of *A* to *C*. The property was put up to sale in execution of *B's* decree, and *B* became the purchaser, and now sued to obtain possession from *C*. *Held*, that the mere fact of the property having once belonged to the estate of *A* did not entitle *B* to follow it in the hands of *C*, so as to enable him to recover possession without redeeming. The heir of a Mahomedan may, as executor, sell a portion of the estate of the deceased, if necessary, for the payment of debts ; and such sale will not be set aside if the purchaser acted *bonâ fide*. 19. ——— **Priority.** Under the Mahomedan law, the estate of a deceased person must be applied to the payment of his funeral expenses and debts before the heirs can make partition of it. In this respect, it is analogous to and even stricter than the Hindu law. The creditors have the right to sue such of the heirs as have taken the estate, but they are entitled to have recourse to a single heir only in a case where all the effects are in the hands of that heir. 20. ——— **Partition**—*Partition of father's estate between brother and minor sister—Sister represented by husband—Debt owing by husband set off against amount due to his wife—Subsequent suit for entire share—Scope of guardianship—Guardians act.* Plaintiff's husband had, on the occasion of her marriage, sent her father R938 for his benefit, which sum was entered in the father's accounts to plaintiff's credit. The father died, and plaintiff's brother, the defendant, entered the same amount to her credit. A partition then took place between the plaintiff and her brother, in which plaintiff, being a minor, was represented by her husband. It was found that the husband owed the estate R1,700, whilst the estate owed him R400, and the net sum due by him was, with the minor plaintiff's consent, set off against the sum due by the estate to the plaintiff, and the balance still due by the husband was allotted to the plaintiff as a portion of her share in the estate. On a suit being filed by the plaintiff (after attaining her majority) for the R938 :—*Held*, that it was beyond the scope of her husband's duty, though he might have been plaintiff's guardian during her minority, to set off a debt due to her from the estate against the debt due by himself to it, and that the defendant could not rely on that transaction as binding on the plaintiff, Nor did it make any difference that

MAHOMEDAN LAW—DIVORCE.

1. ——— **Validity of divorce**—*Release of dower by wife—Evidence of divorce.* According to the Mahomedan law, the non-payment by the wife of the consideration for a divorce does not invalidate the divorce. The divorce is the sole act of the husband, though granted at the instance of the wife, and purchased by her. The kholanamah, or the deed securing to the husband the stipulated consideration, does not constitute the divorce, but assumes and is founded upon it. The divorce is created by the husband's repudiation of the wife and the consequent separacion. The husband having distinctly alleged a divorce by khola, and relied on two instruments,—one an ibranamah (or deed of voluntary release by the wife of her denmohr or dowry) to which there was no satisfactory proof that she ever gave her assent with a knowledge of its contents, and a kholanamah (surrendering the wife's settlement) obtained from her mother by means of cruelty and ill-usage practised on her daughter, to confirm the ibranamah. *Held*, that instruments so obtained could have no legal effect when used as a defence against the wife's claim to her dowry. The husband cannot enforce his right to his wife till he pays the dower, in the absence, that is, of any sufficient answer to his claim. 9. ——— *What amounts to divorce—Revocable divorce.* Under Mahomedan law, no special expressions are necessary to constitute a valid divorce, nor, except when the repudiation is final, need the words be repeated thrice. 10. ——— *Divorce in absence of wife.* Suit by a Mahomedan female against her husband for maintenance. Defendant pleaded that he had divorced the plaintiff on the 8th January 1862. Both the lower Courts found that no divorce had taken place upon the following facts. Defendant went to Trichinopoly leaving his wife at Tinnevelly. While at Trichinopoly, he received letters from Tinnevelly informing him that his wife was leading an immoral life. He therefore went before the Town Kazi of Trichinopoly, made a written declaration in the shape of a letter to plaintiff to the effect that he had divorced her, and repeated the

divorce three times successively before the Town Kazi of Trichinopoly. Defendant directed also that the letter of divorce should be sent to the plaintiff, but there was no evidence of her having received it. *Held*, upon special appeal, that it was clear upon the authorities that there had been a valid divorce. The compressing the expression of the intention into one sentence seems, on the authorities, not to affect the legality of the repudiation, although some doctors consider the process immoral. He had a *talaknama* written out by the Kazi, which was signed by him and attested by the witnesses. *A* then took steps to communicate the divorce and make over the *iddat* money to the plaintiff, but she evaded both. *A* died soon after this. The plaintiff thereupon filed a suit alleging that she was still the wife of *A* and claimed maintenance and residence. *Held*, overruling the contention, that the divorce should have been pronounced three times, that the *talak-ul-biddaat* (*i.e.*, irregular divorce) is good in law, though bad in theology. *Held*, further, in answer to the contention that the divorce was not final as it was never communicated to the plaintiff, that a *bain talak*, such as the present, reduced to manifest and customary writing, took effect immediately on the mere writing. The divorce being absolute, it is effected as soon as the words are written "even without the wife receiving the writing." In order to establish *marz-ul-maut* there must be present at least three conditions:—(i) Proximate danger of death, so that there is, as it is phrased a preponderance *ghaliba* or *khauf* or apprehension, that is, that at the given time death must be more probable than life: (ii) there must be some degree of subjective apprehension of death in the mind of the sick person: (iii) there must be some external indicia, chief among which would be the inability to attend to ordinary avocations. 2. ——— *Verbal contract for dower—Customary dower, evidence of amount of.* A verbal contract of dower for a large sum is admissible only if proved by most clear and satisfactory evidence. A customary dower must be proved by showing a custom of the women of the wife's family to receive, rather than of the men of the husband's family to pay, a certain dower; the Mahomedan dower being the consideration paid by the bridegroom for the marriage, and therefore regulated by the position and conduct of the bride, especially as Mahomedan men often contract most unequal marriages, though the means and position of the bridegroom must not altogether be excluded from consideration. According to Mahomedan law, where the heirs of a woman claimed dower from her husband, which was mowajal, or deferred, and not due or payable till her death, their claim is a simple money claim founded solely on the contract made by the husband. The husband is not a trustee for the wife in respect of her dower, nor has the wife a lien on her husband's property. *Quære.* As to the nature of the wife's claim for dower against the heirs of her husband. 13. ——— Non-payment of prompt dower, effect of—*Husband and wife—Shiah—Sunni—Suit for recovery of wife.* A woman of the Sunni sect of Mahomedans marrying a man of the Shiah sect is entitled to the privileges secured to her married position by the law of her sect, and does not thereby become governed by the Shiah law :—*Held*, therefore, where a husband sued to recover his wife, the one being a Shiah and the other a Sunni, that the wife's dower being "exigible" dower, and not having been paid, the suit was not maintainable under Sunni law. NASRAT HUSAIN *v.* HAMIDAN **I. L. R. 4 All. 205**

14. ——— *Suit for restitution of conjugal rights—Custom—Prompt and deferred dower.* When a Mahomedan sues his wife for restitution of conjugal rights, such suit is to be determined with reference to Mahomedan law, and not with reference to the general law of contract. Under Mahomedan law, if a wife's dower is "prompt," she is entitled, when her husband sues her, to enforce his conjugal rights, to refuse to cohabit with him, until he has paid her her dower, and that notwithstanding that she may have left his house without demanding her dower and only demands it when he sues, and notwithstanding also that she and her husband may have already cohabited with consent since their marriage. When at the time of marriage the payment of dower has not been stipulated to be "deferred," payment of a portion of the dower must be considered "prompt." The amount of such portion is to be determined with reference to custom. Where there is no custom, it must be determined by the Court with reference to the status of the wife and the amount of the dower. Where a court, following this rule, determined that one-fifth only of a dower of R5,000 not stipulated to be "deferred" must be considered "prompt," inasmuch as the wife had been a prostitute and came of a family of prostitutes, it exercised its discretion soundly. EIDAN *v.* MAZHAR HUSAIN **I. L. R. 1 All. 483**

15. *Restitution of conjugal rights.* A Mahomedan cannot, according to Mahomedan law, maintain a suit against his wife for restitution of conjugal rights, even after such consummation with consent as is proved by cohabitation for five years, where the wife's dower is "prompt" and has not been paid. *Abdool Shukkoor v. 16. ——— *Marriage—Suit for restitution of conjugal rights—Plea of non-payment—Form of decree.* According to the Mahomedan law, marriage is a civil contract, upon the completion of which by proposal and acceptance, all the rights and obligations which it creates arise, immediately and simultaneously. There is no authority for the proposition that all or any of these rights

MAHOMEDAN LAW—DOWER—*contd.*

and obligations are dependent upon any condition precedent as to the payment of dower by the husband to the wife. Dower can only be regarded as the consideration for connubial intercourse by way of analogy to price under the contract of sale. Although prompt dower may be demanded at any time after marriage, the wife is under no obligation to make such demand at any specified time during coverture, and it is only upon such demand being made that it becomes payable. This claim may be used by her as a means of obtaining payment of the dower, and as a defence to a claim for cohabitation on the part of the husband without her consent; but, although she may plead non-payment, the husband's right to claim cohabitation is antecedent to the plea, and it cannot be said that until he has paid prompt dower his right to cohabitation does not accrue. The sole object of the rule allowing the plea of non-payment of dower is to enable the wife to secure payment. Her right to resist her husband so long as the dower remains unpaid is analogous to the lien of a vendor upon the sold goods while they remain in his possession, and so long as the price of any part of it is unpaid; and her surrender to her husband resembles the delivery of the goods to the vendee. Her lien for unpaid dower ceases to exist after consummation, unless at such time she is a minor, or insane, or has been forced, in which case her father may refuse to surrender her until payment. It cannot in any case be pleaded so as to defeat altogether the suit for restitution of conjugal rights which is maintainable upon the refusal of either party to cohabit with the other; and it can only operate in modification of the decree for restitution by rendering its enforcement conditional upon payment of so much of the dower as may be regarded as prompt, in accordance with the principle recognized by Courts of equity under the general category of compensation or lien, when pleaded by a defendant in resistance or modification of the plaintiff's claim. *Buzloor Ruheem v. Shumsoon-nissa Begum, 11 Moo. I. A. 551; Mulleka v. Jumeela, 11 B. L. R. 375; Khajooroonissa v. Ryeesoonissa, L. R. 2 I. A. 235; Nawab Bahadur Jung Khan v. Uzeez Begum, N. W. S. D. A. Umrao, All. Weekly Notes (1882), 96,* dissented from. In a suit brought by a husband for restitution of conjugal rights, the parties being Sunni Mahomedans governed by the Hanafi law, the defendant pleaded that the suit was not maintainable, as the plaintiff had not paid her dower-debt. The plaintiff thereupon deposited the whole of the dower-debt in Court. It appeared that the defendant's dower had been fixed without any specification as to whether it was to be wholly or partly prompt. It also appeared that she had attained majority before the marriage, and that she had cohabited with the plaintiff for three

months after marriage and there was no evidence that she had ever demanded payment of her dower before the suit was filed, or that she had refused co-habitation on the ground of non-payment. Besides the plea already mentioned, she also relied upon allegations of divorce and cruelty, but these allegations were found to be untrue. The lower Appellate Court dismissed the suit, holding that, inasmuch as the plaintiff had not paid the dower-debt at the time when he brought his suit, he had no cause of action under the provisions of the Mahomedan law:—*Held* by the Full Bench, that the lower Appellate Court's view of the Mahomedan law relating to conjugal rights and the husband's obligation to pay dower was erroneous; and that the plaintiff, under the circumstances of the case, had a right to maintain the suit. 19. ——————— *Exigible dower—Clause of action—Deferred dower.* According to Mahomedan law, mojar or exigible dower is payable on demand at any time from the consummation of the marriage up to the death of the wife, and a suit preferred by heirs for their mother's mojal dower will be in time if brought within twelve years of the mother's death. Mowajal or non-exigible or deferred dower is claimable on the dissolution of the marriage either by death or divorce. Shares of dower when received by the legal inheritors thereof cease to be dower, and become part of the recipient's estate. HOSSEINOODDEEN CHOWDHRY *v.* TAJUNNISSA KHATOON . **W. R. 1864, 199**

20. ——————— *Prompt and deferred dower.* A Mussalman, on his marriage, entered into a written agreement (unregistered) with his wife to pay her a lakh of rupees, one-fourth as prompt (mojal) dower, the remainder as deferred (mowajal) dower. A separation occurred between the husband and wife, but there was no divorce. During the separation, on 3rd May 1861, the wife petitioned for leave to sue as a pauper to recover the balance of her prompt dower:—The husband, on the 1st July 1861, filed a petition denying her claim against him. The wife's application to sue as a pauper was rejected on 27th January 1862. The husband died on 30th August 1867. On the 13th May 1869 the widow brought her suit to recover the balance of prompt dower and the whole of the deferred dower:—*Held,* that she could recover the latter. The cause of action in respect of deferred dower could not arise until the husband's death. But the cause of action in respect of prompt dower arises upon demand by the wife and refusal by the husband. KHAJARANNISSA *v.* RISANNISSA BEGUM **5 B. L. R. 84 : 13 W. R. 3**

22. ——————— *Exigible dower—Demand—Application to sue in formâ pauperis—Cause of action.* The prompt or exigible dower in the Mahomedan law may be regarded as a debt always due and demandable during the subsistence of the marriage, and certainly payable on demand. On a clear and unambiguous demand by the wife for payment, and refusal by the husband to pay such dower, a cause of action accrues, against which limitation begins to run. An application under Act VIII of 1859, by a Mahomedan woman for leave to sue her husband for exigible dower, *in forma pauperis,* may be taken to express her intention of bringing an action for dower only if she obtains leave to do so as a pauper. Until she has the Court's permission to sue, her application does not amount to a demand by way of action. A counter-petition by the husband objecting to the pauper suit being allowed, and denying his liability to pay the dower does not alter the character of the proceedings, since no opposition on his part can constitute a cause of action unless there has been a previous demand by the wife; the option being with her to demand the dower or not, and to elect her time for demanding it. 23. ——————— *Demand—Limitation.* A Mahomedan of the Shiah sect by a deed of dower charged his whole estate with a certain sum when demanded by his wedded wife, but did not impignorate his estate to secure the sum put in settlement. The dower was not demanded during the lifetime of the husband, and his widow at his death took possession of his estate in satisfaction of her claim :—*Held*, by the Sudder Dewany Court, and such decision on appeal confirmed by the Privy Council, that the widow had a lien upon her deceased husband's estate as being hypothecated for her dower, and could either retain property to the amount of her dower or alienate part of the estate in satisfaction of her claim. *Held*, also, that a demand in the lifetime of the husband was not necessary, and that, though more than twelve years had elapsed from the date of the deed and the time the widow set up her claim for dower, the claim was not barred by limitation. 24. ——————— *Genuineness of kabinnamah—Right to sue without certificate under Act XXVII of 1860, s. 3—Prompt and deferred dower.* The appellant, one of the royal family of Oudh, sued his father, the respondent, for R50,000 as his share of the dower alleged to have been settled on his mother, the late Oomrao Begum, who left as her heirs her husband (the appellant), her only son, and three daughters, who were made joint defendants. The plaintiff's case was that the dower being unpaid, he, as co-heir, became entitled to three-tenths ; but, having regard to the circumstances of the husband, he had limited her claim. The respondent disputed the genuineness of the kabinnamah and the amount of the alleged dower, pleading that whatever was its amount it had been satisfied during the lifetime of Oomrao Begum. The first Court decreed the suit, but the lower Appellate Court, holding that the defendant had established his plea of satisfaction, reversed the decision :—*Held*, that the mehrnamah was a genuine document, and that the dower was of the amount alleged by the plaintiff, subject to modification according to the law and practice in Oudh ; but that, as plaintiff had taken out no certificate under Act XXVII of 1860, s. 3, the case should be remitted to the Judicial Commissioner to have it ascertained what amount of dower was payable by the respondent to the estate of his deceased wife, and what, after payment of debts, was the share of dower due to each co-sharer. Where it is not expressed whether the payment of the dower is to be prompt or deferred, the rule is to regard the whole as due on demand. *Quære :* Where no time for the payment of deferred dower is expressly limited by contract, must it be presumed to be payable on the death of either husband or wife, or only on the death of the husband ? The widows claimed to have their dower first satisfied. The amount of the dower had not been ascertained. *Held*, that the widows had a lien for their dower on the estate, and the plaintiff was not entitled to recover possession so long as any portion of the dower remain unsatisfied. lien for whatever dower remains due to her, although there may be a dispute as to what is the amount actually due, having reference to the amount originally filed as dower, or to the amount satisfied by payments. An heir to a share of the estate is not entitled to recover possession from the widow so long as any portion of the dower remains unsatisfied, nor can he be entitled to mesne pofits, but his proper course is to bring a suit for an account of what is due as dower, and to pray that in satisfaction of that amount he may be put into possession of his share of the estate. 37. ——————— *Hypothecation—Beng. Reg. VII of 1832.* The widow's claim for dower under the Mahomedan law is only a debt against the husband's estate. It may be recovered from the heirs to the extent of assets come to their hands. It does not give the widow a lien on any specific property of the deceased husband so as to enable her to follow that property, as in the case of a mortgage, into the hands of a *bonâ fide* purchaser for value. *Semble:* Under the Mahomedan law, there is not hypothecation without seisin; but a creditor, whether widow or any other creditor, if in possession of the husband's property with the consent of the debtor or his heirs, might hold over until the debt is paid; and the cases cited to show that the widow had right to hold until her dower was paid off proceeded on this principle. *Per* HOBHOUSE, *J.*—It is very questionable whether the Court is bound to apply the Mahomedan law to this case under the provisions of Regulation VII of 1832, the case not being one of succession, inheritance, marriage, caste, or religious usage, but simply one of contract. 39. ——————— *Dispossession of widow—Wasilat.* The widow of a Mussulman, in possession of her husband's estate under a claim of dower, has a lien upon it, and is entitled to possession as against those entitled as heirs, till her claim is satisfied. Should the widow in such a case be deprived of possession by a decree in favour of heirs who take with notice of her claim to dower, and more particularly where her right to sue has been expressly reserved, the heirs take subject to a lien of which the property is not divested by the decree. *Held*, by the Appellate Bench, that in a case in which a Mahomedan widow had, after many years of possession as above, been compelled to make over one-sixth of her estate to her mother-in-law, and then sued her mother-in-law for one-sixth of her dower without interest, she was entitled to recover her claim without reduction on account of wasilat. 41. ——————— **Relinquishment by son in favour of mother for her unpaid dower.** The Privy Council reversed so much of the decision of the High Court as ruled that the effect of an arrangement between the plaintiff and her son, by which the son relinquished his share in his late father's property, was not that the mother took an absolute interest in the property in satisfaction of her claim for unpaid dower, but that she should have only a life-interest, the son retaining the legal reversion in himself; the Privy Council being of opinion that the creation of such a life-estate did not seem to be consistent with Mahomedan usage, and that there ought to be very clear proof (which had not been shown in this case) of a transaction so unusual and so improbable amongst Mahomedans. A widow's claim for unpaid dower, when it does not, by virtue of a bye-mokusa executed by her husband, become a preferential charge on the estate, constitutes a debt payable *pari passu* with the demands of other creditors. The cause of action is not a joint one and any of the heirs may sue the husband separately for his or her share. But in such a suit the presence of all the heirs is necessary in order effectually and completely to adjudicate upon the claims of the several heirs. Where in a suit by one such heir, one of the remaining heirs was not made a party defendant till after the period of limitation applicable to the suit had expired: *Held*, that s. 22 of the Limitation Act was no bar to the suit, as no relief was sought against the latter and her presence was only required for the effectual and complete adjudication of the claims of the several heirs. *Semble*: Even if the interest of the heirs of the deceased was a joint interest as the defendant, the husband, was himself one of the heirs, the cause of action must be taken to have been split up. Pin-money, claim for, by heir—Limitation—Executor a trustee—Costs. When the executor of a deceased Mahomedan woman is her husband who was under an agreement to pay her a certain dower, he cannot avail himself of the ordinary period of limitation of three years as a simple debtor and avoid the payment of the dower to the heirs of the deceased. Under the Mahomedan law, a father has the power to make a contract for dower on behalf of his infant sons and the contract so entered into is binding, even though it was made after the marriage. The amount named in an agreement for the payment of dower must be paid irrespective of the husband's means and the husband cannot be allowed to go into evidence to show that the parties to the contract did not mean to insist upon the payment of the dower but something else. *Sugra Bibi* v. *Musuma Bibi, I. To constitute a valid wukf, there must be a dedication of the property, solely to the worship of God or to religious or charitable purposes. *Semble:* Appropriations in the nature of a settlement of property on a man and his descendants can only be treated as legitimate appropriations under the designation of wukf where the term "sadukah" is used. The settlor constituted himself the nazir or mutwalli (superintendent or trustee) of the estate during his life, and nominated *A* and *B* to act as such after his death with the consent of his wives. In 1840 the settlor died ; *A* died in 1865 ; *B* survived. The wives and daughters of the settlor also died. The representatives of one of the settlor's daughters sued the defendant to recover a part of the estate, which had been sold to him by the Civil Court, as the property of another of the daughters, on the ground that the estate, on the death of that daughter, passed as wukf to her surviving sister. *Held*, that, supposing the wukf to have been validly created, the right to bring the suit belonged (according to Mahomedan law), nor to the heirs or descendants of the settlor, but to the mutwallis (superintendents) jointly. On the death of one of the mutwallis, a successor to him should have been appointed in the first place by the settlor, and, failing him, by his executor, if he had appointed yan, otherwise by the Court on the application of the parties beneficially interested in the estate. *Quære :* Whether a wukf could be created for the purpose merely of conferring a perpetual and inalienable estate on a particular family without any ultimate express limitation to the use of the poor or some other inextinguishable class of beneficiaries. 12. ——————— *Grant to grantees and their aulad va ahfad—Meaning of the word "ahfad"—Wukf—Tavlyat and sajjadanashin, right of females to hold the offices of.* A certain village was granted by the Mogul Government in inam to two persons and their "aulad va ahfad" for the maintenance of a durga (mausoleum) of a pir (saint). The plaintiff and the defendant were the descendants of the original grantees. In 1878 the plaintiff sued the defendant for the recovery of the profits of a one-fourth share in the inam, claiming to be entitled thereto through his mother and grandmother, who was the daughter of the son of the great-grandson of one of the two original grantees. It was contended (*inter alia*) for the defendant that the expression "aulad va ahfad" used in the grant would include only the lineal male descendants, and not the plaintiff, who claimed through females, who were incapable of performing the spiritual offices connected with the mausoleum. The Court of first instance dismissed the plaintiff's claim. He appealed and the lower Appellate Court allowed his claim to the extent of one-eighth share. On appeal by the defendant to the High Court :—*Held*, confirming the decision of the lower Appellate Court, that the plaintiff was entitled to share both in the offices of the durga and the endowment. The term "ahfad," being a term of the largest and most general signification, includes the descendants of females as well as of males. The primary object of the grant was to provide for the tavlyat and the office of sajjadanashin of a mausoleum of the saint, and with that view to supply the means for the maintenance of the persons who should perform the offices, as well as for the ordinary expenses of keeping up the mausoleum. A female could not be the sajjadanashin, whose duties were of a strictly spiritual nature requiring peculiar personal qualifications so as to exclude female descendants from participating in the endowment ; but it would not follow that males who established their descent from the propositus through females should be excluded. Had the intention of the grant in the present case been to limit the class of descendants exclusively to persons claiming through males, the expression "aulad dar aulad" would have been used

Although a wazifa grant may be a religious endowment, such is neither necessarily nor even generally its nature. Hence the use of the term "mauzif" (*alias* "wazif" or "wazifa"), with regard to the grant of a village, does not stamp the grant as a wukf or religious endowment. MAHOMED ALI *v.* GOBAR ALI . **I. It must have a fin object which cannot fail, and this object must be e pressly set forth. When a wukf is created, th reservation in the deed of settlement of the annu profits of the property to the donor for life does n invalidate the deed. If, however, there is a provisio for the sale of the corpus of the property and appropriation of the proceeds to the donor, t settlement is invalid. If the condition of an ultima dedication to a pious and unfailing purpose be sati fied, a wukf is not rendered invalid by an inte mediate settlement on the founder's children an their descendants. The benefits these successive take may constitute a perpetuity in the sense of t English law ; but according to the Mahomedan la that does not vitiate the settlement, provided t ultimate charitable object be clearly designate The rule against perpetuities extends to a colo in which English law is enforced only so far as it adapted to the circumstances of the communit The case of "charities useful and beneficial" to t community is an exception to this rule. It is for t Courts to pronounce whether any particular obje of bounty falls within this class. In order to deci this question, they must, in general, apply t standard of customary law and common opini amongst the community to which the parties i terested belong. Objects which the English la would possibly regard as superstitious uses a allowable and commendable according to Mahom dan law. A trust for the benefit of the poor, f aiding pilgrimages and marriages, and for t support of wells and temples, is a charity amon Mahomedans. The law and opinion of Mahomeda regard such a trust as a charity ; and granting th is a charity, the objection to a perpetuity fa according to the principles of the English la Where the proposed object of the endowment one which is directly contrary to the public l of the State, the above rule does not apply. an indenture of voluntary settlement, dated 1 March 1866, *F*, a Mahomedan girl of the age fourteen, conveyed certain immoveable property the Island of Bombay to trustees upon trust During her life-time to pay the rents and profits her for her sole and separate use without power anticipation. (ii) After her death to pay the re and profits to her children and descendants as e might by deed or will appoint. In default of pointment the trustees were to pay life-allowan to such descendants at their discretion. of such descendants, the rents and profits were to be expended on charitable purposes, such as expenses of poor pilgrims going to Mecca, building mosques, funeral and marriage expenses of poor people, sinking wells or tanks, or in such other manner as the trustees should think fit. Shortly after the execution of the settlement, the trustees took possession of the property, and for fifteen years continued to pay the rents and profits to the settlor. The settlor was married in 1866 to *H*, and there was issue of the marriage only one son, who died in 1872, an infant under the age of five years. *H* died in 1872, and the settlor remained a widow. In 1881 she became desirous of revoking the above settlement, and under s. 527 of the Civil Procedure Code (Act X of 1877) she stated a case for the opinion of the Court, contending that she could lawfully revoke the trusts declared by the said indenture; that if she could not revoke, then that the trust therein declared in favour of charity was void for remoteness; and generally that she was, under the circumstances, entitled to have the property reconveyed to her by the surviving trustee. *Held*, that the settlement was irrevocable. The dedication, having been once made, could not be recalled. The interposed private interests, which might or might not endure, did not avoid the ultimate charitable trust. According to Mahomedan law the latter gave effect to the former. Should the intermediate purposes of the dedication fail, the final trust for charity did not fail with them. It was but accelerated, being itself regarded as the principal object, in virtue of which effect was given to the intervening disposition. Charitable grant being thus tenderly regarded, it would be inconsistent that a power of revocation should be recognised in the grantor. *Held*, also, that, although the dedication by a girl of fourteen was not to be upheld without inquiry, yet the transaction never having been questioned by her husband during his life, and she having for fifteen years confirmed her own act by a continued acceptance of the profits of the estate from the trustees, could not with reason contend that the dedication was invalid on account either of its ceremonial defects or of a want of an accompanying volition. 16. ——————— *Wukfnama—Wukf—Perpetuity—Ultimate trust in favour of charity.* *M*, the father of the three defendants, executed an instrument purporting to be a wukfnama in favour of his heirs and descendants, generation after generation. The office of mutwalli he reserved for himself for life, and, in the event of his death, he appointed his wife and youngest son *E* mutwallis, with certain powers of delegation, upon the following conditions: The said mutwallis, having received the annual income of the property and having defrayed the expenses of repairs and the taxes, etc., were to divide the balance into four equal shares, and to make over one share to his son *S* and his descendant after descendant for their expenses; one share, in like manner, to his son *H*; one share, in like manner, to his son *E*; and as to the remaining share, to pay one-half thereof to his wife, *A*, for expenses, and one-half thereof to his sister for expenses. The deed then proceeded: "If any one from among my heirs and (? or) descendant after descendant should die, then the said mutwallis shall make his or her funeral outlays according to our custom and usage; and as to what may remain as a balance, they shall duly distribute and give the same to my heirs and descendants according to the book of God." Further as follows: "May God forbid it! If from among my heirs and descendants there shall be left no one surviving, then, as regards the income of the whole of the property endowed for religious and charitable purposes, the same for the sake of God, is duly to be distributed and given to Mahomedan fakirs and indigent people." Then followed a direction that the property was not to be sold or mortgaged. On the 25th February 1883 the first two defendants mortgaged the properties comprised in the wukfnama to the plaintiff for R3,000. The plaintiff brought the present suit against the said two defendants to enforce the mortgage. The third defendant was made a defendant at his own request, and alleged that the mortgage had been made without his consent. He submitted whether, having regard to the terms of the deed, the plaintiff had any claim as mortgagee, and he contended that in no case could the mortgage operate, except against the shares of the first two defendants. The plaintiff contended that the wukfnama was invalid, and that upon the death of *M* the property comprised in it devolved upon his three sons as his heirs, and also that, assuming the wukfnama to be valid, the first two defendants took an estate of inheritance under it, which they were at liberty to aliene and mortgage. *Held*, following, *Fatmabibi* v. *Advocate General of Bombay, I. L. R. 6 Bom. 42*, that the deed of the 17th May 1871 was valid as a wukfnama. *Semble*: That the mortgaged property being wukf, the plaintiff acquired no right under his mortgage, which would extend beyond the life-time of his mortgagors. In such property no one has any interest as the heir of the appropriator. It is neither the subject of ownership nor inheritable, but each object of the charity who brings himself or herself within the terms of the endowment is entitled to receive the benefit which the founder has marked out for him. 17. ——————— *Wukf—Settlement in favour of the settlor's family without any ultimate trust for charity—Document not establishing a trust for a religious or charitable purpose.* A Mahomedan cannot settle his property in wukf on his own descendants in perpetuity without making an express provision for its ultimate devolution to a charitable or religious object. A Mahomedan executed a deed, called a wukfnama, by which he settled his property in wukf on his two wives and daughters and their descendants in perpetuity. For the management and devolution of this property he laid down the following rules: (i) that if one of the aulad (or

daughters) of either wife died, the share of that person should go to the wife and the survivors of her aulad; that after the death of a wife her share should go to her surviving aulad; that if a wife and her aulad ceased to exist, their share should go to the other wife and her aulad; that on the failure of aulad an aflad of both wives, the next of kin of the settlor should receive the property; and he added that in this way the management should go on from generation to generation; (ii) that neither of the said two wives nor any one of the aulad of the wives should alienate by sale, gift, or mortgage either their shares or any part of the property. A portion of this property, consisting of two nafars, was set apart for such purposes as the building of his own tomb, the saying of prayers, the recitation of the Koran, etc.; and he directed that in case the produce of the two nafars proved insufficient for these purposes, his wives and daughters and their descendants should contribute out of the property settled in wukf on them. *Held*, that, with the exception of the two nafars set apart for religious purposes, the rest of the settlement was not a vaid wukf, as it was solely for the benefit of the settlor's family, and contained no express provision for the ultimate devolution of the property to any religious or charitable object. Held, on appeal by the Privy Council, affirming the above decision, that the instrument could neither be maintained as establishing a wukf, nor as a settlement: also that it could not be supported as a will, not having been validated by consent of heirs, as to two-thirds of the succession; and that, even if it could have been dealt with as a will, the above provision would have been void. A wukfnama, to be valid, must be a substantial dedication of property to a religious or charitable purpose at some time or other. *Mahomed Ahsanulla Chowdhry* v. *Amarchand Kundu, L. R. 17 I. 18. ——————— *Appropriation not within the principle of wukf—Property settled on members of grantor's family with a charge upon it for religious and charitable purposes—Effect of appropriation where the charge was not a substantial one.* Although the making provision for the grantor's family out of property dedicated to religious or charitable purposes may be consistent with the property being constituted wukf, yet in order to render it wukf the property must have been substantially, and not merely colourably, dedicated to such purposes. Although an instrument purporting to dedicate property as "fisabilillah wukf" and vesting it in members of the grantor's family in succession "to carry on the affairs in connection with the wukf," might include provisions for the benefit of the grantor's family without its operation as a wukf being annulled, yet, on the other hand, it would not operate to establish wukf, as it did not devote a substantial part of the property to religious or charitable purposes. Without determining how far provisions for the grantor's family might form part of a settlement for religious or charitable purposes, and yet not deprive it of its character as establishing wukf, the Committee approved the decision in *Muzhurool Huq* v. *Puhraj Ditarey Mohapattur, 13 W. R. 235*, to the effect that the mere charge upon the profits of the estates of certain items which must in the course of time have ceased being for the benefit of one family, did not render an endowment invalid as a wukf. In the present case however, there being no authority for holding a gift to be good as a wukf without there being a substantial dedication of the property to charitable or religious uses at some time or other, and the use prescribed involving only an outlay suitable for such a family to make in charity, the gift was held not to be a substantial or *bonâ fide* dedication of the property as wukf. The use of this expression and others, being only to cover arrangements for the benefit of the family and to make their property inalienable, the property was not constituted wukf nor was it freed from liability to attachment in execution of a decree against one of the grantees. Though it was not impossible that a document creating a wukf might contain provision also for the family of the settlor, the dedication to charitable uses being postponed, yet here there was not even an ultimate dedication of property, with the intention apparently of preserving the estate in perpetuity intact under the headship of the property to charitable uses, but the object of the executant was evidently merely the maintenance of the family estates and of the dignity of the riasat. *Mahomed Ahsanulla Chowdhry* v. *Amarchand Kundu, I. According to the same law, the death of the wukif before actual delivery of possession of the appropriated property by him to the mutwalli or the beneficiaries of the trust renders the wukf null and void *ab initio*. Consequently, where the wukif dies, as mentioned above, before actual delivery of possession of the appropriated property, the consent of his heirs to the testamentary wukf cannot validate such wukf. upon, where wukf not valid. A settlor by instrument purported to create a wukf in favour of his family and, in the event of a failure of his descendants, in favour of the poor of Dacca. L. R. 17 Calc. 498 : L. R. 17 I. A. 28*, the instrument did not create a valid wukf, there being no substantial dedication to religious and charitable purposes. *Held*, by the majority of the Full Bench, PRINSEP, GHOSE, and AMEER ALI, *JJ.* (PETHERAM, *C.J.*, and TREVELYAN, *J.*, dissenting), that the charge of R75 per annum should be allowed. *Held*, by PRINSEP, TREVELYAN, and GHOSE, *JJ.*, that the course of the decisions should not be disturbed by reference to texts which may favour the idea that a settlement on the settlor and his descendants in perpetuity is a pious Act. *Held*, by PRINSEP and TREVELYAN, *JJ.*, that upon the findings of the lower Courts no second appeal lay, and it was not therefore necessary to express any opinion as to the validity of the instrument. AMEER ALI, *J.*—The disposition in question, viewed according to the Mahomedan law, which supplies ample safeguards against fraud, created a valid endowment. There is a consensus of opinion among Mahomedan lawyers of every school and sect that wukfs on children kindred, or neighbours in perpetuity are valid. To hold that a wukf, the benefaction of which is bestowed wholly or in part on the wukif's family and descendants, is invalid, would have the effect of abrogating an important branch of the Mahomedan law. A wukf is a permanent benefaction for the good of God's creatures. The wukif may bestow the usufruct, but not the property, upon whomsoever he chooses, and in any manner whatever, only it must endure for ever. If he bestows the usufruct in the first instance upon those whose maintenance is obligatory on him, or if he gives it to his descendants so long as they exist, to prevent their falling into indigence, it is a pious act, even more pious than giving to the general body of the poor. When a wukf is created constituting the family or descendants of the wukif the recipients of the charity so long as they exist, the poor are expressly or impliedly brought in to impart permanency to the endowment. The subsequent conduct of the wukif cannot in any way affect the wukf. BIKANI MIA *v.* SHUK LAL PODDAR

37. ——— ——— *Suit against directors or mushavirs of a mosque—Board of directors not properly constituted under the rules of the mosque—Liability of directors for acts done by Board not properly constituted—Appointment of officers—Management of property—Liability of provisional committee assuming authority to act—Trustees—Limitation Act (XV of 1877), Art. 120—Kazi—Act II of 1864 and Bombay Act IV of 1864—Nazir of mosque, Liability of—Parties.* A certain Mahomedan mosque in Bombay, known as the Juma Masjid, was possessed of considerable property. The administration of the mosque and its property was carried on under rules which had been drawn up and approved in the year 1834 at a special general meeting of the jamat convened for the purpose in the course of a suit which had been filed in the Supreme Court against the then mushavirs of the mosque. That suit was referred to the master to make certain inquiries, and in his report these rules were set out in full. His report was confirmed by the Court. The rules provided that the mosque and its property should be managed by the kazi of Bombay and ten mushavirs, and that a nazir should be appointed by them, and be subject to their control. The rules also prescribed the various duties of the kazi, mushavirs, and nazir, and declared that the power of filling up vacancies should be exercised by the kazi and mushavirs collectively or by the kazi and an absolute majority of the mushavirs. In 1834, and for many years subsequently, there was, as there had always been, a "Kazi of Bombay" appointed under a sanad from Government. He held the appointment for life, and the office was not hereditary. In 1866 the then kazi of Bombay died, but in consequence of the provisions of Act II of 1864 and Bombay Act IV of 1864 the Government made no new appointment, and the office lapsed. One *M*, however, assumed the office and was generally accepted by the community as kazi of Bombay. He died in 1878, and upon his death rival claimants sought the office of kazi of Bombay. The mushavirs were then advised that they could not select one of the rival kazis to fill the office of kazi of Bombay under the rules, and they therefore continued to manage the mosque without a kazi in violation of the rules of 1834. Two of the mushavirs (now relators) were of opinion that one of the rival applicants for the position should be appointed kazi, and as their wishes were not acceded to, they ceased to attend the board, and as far as possible while retaining their offices, they thwarted the action of the other mushavirs. Subsequently in 1878 other vacancies occurred in the board. In 1888 the number of mushavirs was reduced to six, and two of them (the relators), as above stated took no part in the administration, so that the management was left in the hands of the first four defendants. In 1891 four new mushavirs (defendants Nos. 6 to 9) were

elected, and in that year the Advocate General at the relation of the two dissatisfied mushavirs filed this suit against the mushavirs. The former nazir of the musjid was also made a defendant (No. 5). He had held the office of nazir from 1879 to 1891, when he resigned. The plaint set forth the irregularities which had taken place in the management in 1878, and prayed for the removal of the defendants (other than defendant No. 5) from the position of directors or mushavirs, and for an account against all the defendants and for a scheme, etc. The following were the principal charges made against the defendants in the plaint and at the hearing :—(i) The neglect to take steps to supply the place of the kazi and the failure to keep up the proper number of the mushavirs :—*Held*, as to this, that subsequently to 1878 the mushavirs had no authority under the rules of 1834 to fill up vacancies as they occurred or to carry on the government of the musjid. Since that year the mushavirs were a provisional committee of management, kept up from time to time by co-optation, tacitly permitted by the jamat to manage the affairs of the musjid until the original constitution could be restored or legally changed, that original constitution being for the time in abeyance. (ii) The improper appointment in 1879 of one *C* (defendant No. 5) as nazir : *Held*, that the mushavirs incurred no liability and deserved no censure for so doing. (iii) The neglect to call for an annual account of the income and expenditure of the mosque under rule 6 : *Held*, that this charge was not proved. (iv) The neglect to purchase properties with the surplus income of the mosque as required by rule 4. Upon this point it was contended that the defendants should be charged with interest on the uninvested funds, so as to make up for the loss of rents which would have been recovered if properties had been purchased. In answer to this claim, it was argued (*a*) that, under the circumstances, the mushavirs had no power to expend the funds of the mosque in purchasing property ; and (*b*) that the claim was barred by limitation : *Held*, that the claim fell within Art. 120 of the Schedule to the Limitation Act (XV of 1877), and was barred except as to six years prior to the filing of the suit, but even as to this period the Court refused to order accounts to be taken against the defendants. There had been no dishonesty or improper dealing with the funds of the mosque. The highest at which the case could be put was that there had been error of judgment. In this the community had acquiesced. Moreover, the position of the parties had changed. Some of the mushavirs were dead, others had resigned and were not defendants to the suit, and it would be difficult to enforce contribution against them. The Court was further of opinion that, in any case, it was very doubtful whether a provisional committee like the mushavirs would have been justified in assuming the power of purchasing property. Had the property fallen in value, the purchase might perhaps have been repudiated. (v) Their neglect in not detecting sums

appropriated by the bill-c llectors of the mosq and getting in the same : *Held*, that, as a prov sional committee who had assumed the manag ment of the musjid, the defendants were bour to protect its interests. Of the money which the actually received, or which was paid into the account, they were actual trustees, but in additi to this they were officers of the musjid charg with the specific duty of superintending the naz and his accounts, and if the musjid had suffered lo by their neglect of duty, they were answered for They neglected to examine the books, a curso audit of which would have detected the defalcatio of the bill-collectors. The Court therefore direct an account against them of the rents actua received, or which, but for their wilful defa or neglect, they might have received from the bi collectors. (vi) Their neglect in allowing arrea of rent to accumulate and to be lost to the musji *Held*, that it was not the duty of the mushav to look into the account of each individual tena Under the rules, the nazir, and not the mushav was entrusted with the collection of rents, and it w his duty to see that the rents were not allowed to fl unduly into arrear. It was not shown that, exce at an exceptional time when the nazir was ill, t rents were so much in arrear as to call for the act interference of the mushavirs, or that the musl had suffered undue loss under this head. The Co therefore refused relief on this charge. (vii) Te non-payment into the bank of sums in the hands the nazir when they exceeded R500 : *Held*, that e spirit of the rules had been complied with, and o loss had been shown. Defendant No. 5, as abe stated, had acted as nazir of the musjid from 18 to July 1891, when he resigned. Under the rs (see rules 2 and 7) he was appointed by the dir tors and was under their orders, and was remove at their pleasure. It was contended at the heag that he was not a proper party to the suit, beg merely the agent or servant of the directors, d not a trustee : *Held*, that he was properly m a defendant. Both under Mahomedan law d under the rules the nazir was a public office in charge of the mosque and as such liable to acco to the community. ADVOCATE GENERAL OF BOMBAY *v.* ABDUL KADAR JITAKER

41. ——— *Alienation of endowed lands—Appointment of wife as mutwalli in husband's lifetime—Power to appoint mutwalli.* Where a plaintiff sued to recover certain lands which had been appropriated to religious and charitable purposes by the father of her deceased husband, and urged that she had been ousted by defendant, who was the son of a half-brother of her husband; but the defendant contended that he had been put in possession as manager by plaintiff herself and other widows of the plaintiff's deceased father-in-law, all which widows had some interests in the land under various deeds by which additions had been made to the original endowment; and defendant further pleaded that, under the original deed of appointment, plaintiff's husband could not alienate the property and that plaintiff's possession would be a virtual alienation; and also that plaintiff's claim was barred by limitation, and that she could not hold the land without the sanction of the Government under Act XX of 1863:—*Held*, that, although plaintiff's original appointment by her late husband during his lifetime was unauthorized, yet, as alienation in such a case would mean alienation of the subject of the endowment rather than its transfer to plaintiff, whose possession was not an adverse possession, plaintiff's possession did not defeat the purposes of the original appropriator, and could not be regarded as an alienation; and that in these circumstances, even though the property were wukf, there could be no defect in plaintiff's title. An appropriator of land to special purposes can, under Mahomedan law, confer the office of superintendent on another at any time. It was found in this case that defendant, as a descendant of the original appropriator, had succeeded to other properties which were quite distinct from the land in suit. 42. ——— *Sajjadanashin, khilafat, and mutwalli, offices of—Primogeniture, Custom of—Eldest son's right to hold the offices—Wukf, inheritance to—Predecessor in the office to appoint his successor, right of.* About three hundred and fifty years ago one *S*, the ancestor of the parties to the suit came to Surat and settled there and became the pirmushid (religious preceptor) of the Mahomedan community at that place. During his lifetime, as well as after his death, moveable and immoveable property was from time to time dedicated to the religious office he and, after his decease, one or other of his descendants successively occupied. The plaintiff was the eldest, and the first defendant the second, son of *H*, the last incumbent of the said office. In 1865 *H*, being ill, executed a tauliyatnama appointing the plaintiff his executor and successor. Subsequently *H*, having recovered, cancelled the same and appointed the first defendant his successor by three successive tauliyatnamas, the last being dated 3rd September 1881, a few days before *H*'s death. The first defendant accordingly entered into possession and management of the office of sajjadanashin (or priest) and khilafat (deputy), and assumed the position of mutwalli (or manager) of the wukf property of the family. In 1882 the plaintiff brought the present suit to have it declared that on him, as the eldest

son, had devolved the office of sajjadanashin and khilafat held by the family, and not on his younger brother, the defendant, and that he alone was entitled, as mutwalli, to take possession of and manage the wukf property. The plaintiff relied, firstly, on the appointment made by his father in 1865, and, secondly, on the fact of his being the eldest son of the last incumbent, to whom, he maintained, both by law and custom belonged the succession to the offices in question so long, at least, as such eldest son was in other respects a fit and proper person to succeed, which in his own case was not contested. The defendant denied that either by law or custom was the eldest son, as such, entitled to succeed, and relied on the fact of his appointment by his father :—*Held*, that the plaintiff had made out no case of a right to succeed his father in the offices in question. Not under the deed of appointment, because that was made by his father when he believed he was dying, and was subsequently on recovery cancelled, and was therefore inoperative, on similar principles to those which apply to the case of a *donatio mortis causâ ;* nor, secondly, under the general Mahomedan law ; because that law is strongly against attaching any right of inheritance to an endowment ; nor, thirdly, by reason of any custom, because no such custom as that contended for was established on the evidence. The evidence went to show that the eldest son did not uniformly succeed, and that, even when he succeeded, he did so by right of appointment, and not by right of primogeniture. 55. ——— *Alienation of wukf property—Suit to set aside such alienation—Right to sue—Civil Procedure Code (Act XIV of 1882), s. 539—Mahomedan law.* Plaintiffs sued to recover possession of certain lands, alleging that they had been granted in wukf to their ancestor and his lineal descendants to defray the expenses for, or connected with, the services of a certain mosque; that their father (defendant No. 3) and cousins (defendants Nos. 4 and 5), who were mutwallis in charge of the said property had illegally alienated some of these lands, and had also ceased to render any service to the mosque, whereupon they (the plaintiffs) had been acting as mutwallis in their stead. They therefore claimed to be entitled, as such, to the management and enjoyment of the lands in dispute. It was contended, *inter aliâ*, that the plaintiffs could not sue in the lifetime of their father (defendant No. 3), he not having transferred his rights to them:—*Held*, that the plaintiffs were entitled to sue to have the alienation made by their father and cousins set aside and the wukf property restored to the service of the mosque. They were not merely beneficiaries, but members of the family of the mutwallis and were the persons on whom, on the death of the existing mutwallis, the office of mutwalli would fall by descent, if indeed it had not already fallen upon them, as alleged in the plaint, by abandonment and resignation. Wukf property cannot be alienated, and any person interested in the endowment can sue to have alienations set aside and the property restored to the trust. *Per* RANADE, *J.*—As a suit for possession, the suit was defective in form and could not be maintained. It was a suit for partition of a moiety of the lands, and the owner of the other moiety was not a party. The suit was, however, really a suit for a declaration that the lands were the inam property of the mosque, and as such was not liable to alienation for the private debts of defendants Nos. 3, 4, and 5. They also claimed an injunction restraining the defendants from interfering with them in the exercise of that office. The plaintiffs claimed their khadimi rights partly by inheritance and partly by purchase, a custom of transferability by sale having been long recognized :—*Held*, that the suit, being a claim to an hereditary office, fell under Art. 124 of the Limitation Act, and was not barred by limitation. *Semble* : That a Mahomedan office to which are attached substantially the conduct of religious worship and the performance of religious duties, is not legally saleable, any custom to the contrary notwithstanding; and that therefore, in so far as the title of the plaintiffs depended upon purchase, the suit failed. *Juggurnath Roy Chowdhry* v. *Kishen Pershad Surmah, 7 W. 70. ——— *Waqf—Essentials of a valid waqf, according to the Shia law—Illusory dedication.* One Muhammad Faiyaz Ali Khan, a Mahomedan of the Shia sect, on the 7th of May, 1878, caused to be drawn up an instrument by which he purported to make a *waqf* of the whole of his property. This instrument, beyond the bare statement that the property was constituted *waqf*, contained no specification of the purposes to which it was to be devoted. The settlor, however, after naming himself as the *mutwalli* of the *waqf* property during his life, went on to declare that the precise purposes of the dedication, and the mode in which the *waqf* property was to be managed, would be set forth in a will which the settlor was about to execute. But he added that the future will should always be acted on after his death, and, so far as he himself was concerned laid down no rules for the management of the *waqf* property. On the 11th of May 1878, the instrument above referred to, and the will, were executed by Faiyaz Ali Khan, and they were both registered on the 13th of the same month. The will provided for the succession to the office of *mutwalli* after death of the testator, and laid down certain "rules of practice" to be observed with reference to the management of the endowed property. These rules of practice for the most part merely enjoined upon the *mutwalli* the keeping up of the religious observances which had been usually performed by the testator in his life-time, and which were no more than such ceremonies as would ordinarily be performed by a pious and well-to-do Mahomedan of the sect to which the testator belonged. The tenth paragraph of the rules of practice did, however, provide that, should the settlor have left any debts, "the succeeding *mutwalli* should pay them *first of all* by curtailing all the expenses." The former of these two documents, while reciting that the *waqf* was created "in order to obtain benefit in the next world," also provided that the property dealt with thereby should "under no circumstances be made the subject of inheritance," and otherwise clearly indicated that the object of the *waqf* was very largely the preservation of the property in the hands of the settlor's descendants. After the execution of these documents, the settlor never had himself recorded in the Revenue records as *mutwalli* instead of proprietor, and his son, the succeeding *mutwalli*, was recorded as proprietor and not as *mutwalli : Held,* by STANLEY, *C.J.*, that the so-called *waqfnama* was invalid, for the reason, chiefly, that there was therein no specific dedication to religious or charitable uses, such as was necessary to constitute a valid *waqf*. The subsequent will could not be prayed in aid to complete the transaction, inasmuch as, under the Mahomedan law applicable to the Shia sect, a *waqf* could not be

MAHOMEDAN LAW—ENDOWMENT —*contd.*

created by will. It appeared moreover that the settlor's intention was to suspend the operation of the *waqfnama* until after his death, which also was not permissible according to the Shia law. If the two documents could be read together, even then the *waqf* would be invalid, as it appeared that the dedication was not so much intended to satisfy pious or charitable objects as to secure the preservation of the donor's property for his family. *Agha Ali Khan* v. *Altaf Hasan Khan, I. L. R. 14 All. 429; Abdul Ganne Kasam* v. *Hussein Miya Rahimtulla, 10 Bom. H. C. Rep. 7; Mahomed Hamidulla Khan* v. *Lotful Huq, I. L. R. 6 Calc. 744: Pathukutti* v. *Avatha-akutti, I. L. R. 13 Mad. 66;* and *Syeda Bibi* v. *Mughal Jan, I. L. R. 24 All. 231,* referred to. *Per* BURKITT *J.*—The *waqfnama* and the will could be read together as constituting but one transaction, which was not therefore open to the objection of being a testamentary *waqf,* inasmuch as the dedication was made by the *waqfnama,* and the will did not purport to make any testamentary disposition in favour of the succeeding *mutwalli* but merely recited the dedication made in the *waqfnama,* and then went on to lay down certain rules as to the management of the property. But even so the *waqf* was invalid, as not being a real and substantial dedication to religious or charitable purposes, but under the guise of such dedication, an attempt to preserve the property in act for the benefit of the settlor's family. Apart from this, the provisions of the tenth paragraph of the rules of practice referred to above, as to the payment of the settlor's debts by the succeeding *mutwalli,* were of themselves sufficient to invalidate the *waqf.* It was further open to considerable doubt whether, under the circumstance of the case, the settlor had ever taken such possession *as mutwalli* of the *waqf* property as is requisite under the Shia law. The bulk of the property was not affected by any religious or charitable trusts. The religious and charitable clauses dealt with matters naturally incident to maintaining the dignity of the family, their secondary character appearing *inter alia* from the fact that while the deed purported to create the *waqf* as from its date, the religious and charitable trusts were not to become obligatory, until after the death of both the executants:—*Held,* that no valid *waqf* was created by the deed. Reasonably clear intention. A mental act although afterwards sufficiently expressed in conduct will not, unless clothed in appropriate words, create a *wakf*. *Per* CURIAM: We do not think that a mere statement in a will of some gift in the past can be referred back to the date still undetermined, when that gift is afterwards alleged to have been made, or that such a narrative statement can in any view be an adequate substitute for the oral declaration of dedication to God, which the Mahomedan law appears to us imperatively to require synchronously with the act of dedication itself. There is a plain distinction between giving charity and declaring that one has given in charity. And for the purpose of fixing the origin of the *wakf*, if there was a *wakf* at all, the mere statement in a will that at some past date the testator had set apart such and such funds for charitable objects is of comparatively slight value. Where there has been no actual delivery, a reasonably clear declaration is necessary to create a *wakf*. BANUBI *v.* NARSINGRAO (1906) . I. L. R. 31 Bom. 250

The intention of the settlor must be gathered from the document itself. If the *waqf* was formally constituted and perfected and established by its terms a substantial charitable trust, it is wholly immaterial, whether its provisions were carried out or not, for that is a matter of breach of trust only. Evidence given to show that it was never intended to give effect to the trusts and that in fact they were not given effect to, is irrelevant in such a suit. Evidence, however, showing the manner in which the document is related to existing facts, *e.g.*, the value and state of the *waqf* properties, is relevant. law there is no legal prohibition against a woman holding a mutwalliship, when the trust by its nature involves no spiritual duties such as a woman could not properly discharge in person or by deputy. A consent decree made by the High Court at Calcutta on appeal from a decision of the Recorder of Rangoon directed that the trustee of a Mahomedan religious trust should retire, "and that a new trustee be appointed in his place by the Chief Court of Lower Burma, preference in such appointment being given to the lineal descendants of the settlor." The settlor was a Mahomedan of the Shiah sect. His eldest, and only really eligible, lineal descendant was his daughter, the appellant, who claimed the right to be appointed. She, however, was not an orthodox Mahomedan, but a Babee. The Judge exercising Original Civil jurisdiction in the Chief Court found that she was not disqualified either by her sex or on the ground that she was a Babee, and appointed her mutwalli of the trust. The Judges on the appellate side of the Chief Courts, while agreeing with the first Court that the lady was not disqualified, held that in selecting a trustee they had a discretion, which they exercised by declining to appoint the appellant, who (they held) could only discharge many of the duties of the trust by deputy, and as a Babee would not take such interest in the religious observances of the Shiah School as one of the Shiah sect :—*Held*, by the Judicial Committee, that the Chief Court had a discretion in the appointment of a trustee, which under the circumstances they had rightly exercised. *Held*, also, that no absolute right of the lineal descendants of the settlor to be appointed was established by the authorities cited in the present case, in which the settlor had not prescribed any line of devolution. Administration of waqf estate—*Rights of waqifs—Practice of Court—Scheme of administration—Charter of Incorporation superseded.* The wakf properties in suit, situate at Port Louis in the island of Mauritius, were as to a considerable portion of them successively purchased from 1852 onwards for the whole Mahomedan congregation of the island consisting of Indian immigrants from Cutch, Hallal and Surat, all of the Soonee School and their descendants, and were dedicated by the deeds inalienably for the purpose of a mosque. The overwhelming majority of the congregation belonged to the Cutchee class and in 1877 the deeds of purchase for the first time declared that the properties comprised therein were bought on behalf of the Cutchees ; a committee of whom was to administer them and all other properties belonging to the mosque. Later purchases were expressed to be made, some on behalf of the Cutchees, others on behalf of the congregation. In 1903, two deeds were executed by a body of Cutchees by which they formed themselves into a society afterwards incorporated under Ordinance 21 of 1874 for certain pious and charitable purposes

and declared that they brought into the society i full ownerships all the said purchased properti with extensive powers of selling and letting tl same, other than the mosque and its accessorie of which latter they reserved to themselves tl exclusive management. right to claim her share, in lieu thereof she received an allowance of cash and grain. The surviving brother made an arrangement with her, which was carried into effect by documents. By one instrument he granted two villages to her. By another she accepted the gift, giving up her claim to any part of the ancestral estate of her husband. The first instrument, *inter aliâ*, stated as follows: "I declare and record that the aforesaid sister-in-law may manage the said villages for herself and apply their income to meet her necessary expenses and to pay the Government revenue:"—*Held*, that these words did not cut down previous words of gift to what in the Mahomedan law is called an ariat; and that the transaction was neither a mere grant of a license to the widow to take the profits of the land revocable by the donor nor a grant of an estate only for the life of the widow. It was a *hibbah-bil-iwaz*, or gift for consideration, granting the villages absolutely. MAHOMED FAIZ AHMED KHAN *v.* GHULAM AHMED KHAN . **I. L. R. 3 All. 490 L. R. 8 I. A. 25**

From that day, having taken the said Mir Saheb into my family, I adopted him as my son. Consequently he is being brought up entirely by me, and he alone is also my heir. And I have appointed him the owner of all my goods and property. . . I have made over the same to the possession of the said Mir Saheb . . I have a share in the goods and property of my husband, Mir Afzaloodin Khan Saheb, the Nawab of Surat. The owner thereof also is the same Mir Saheb. Therefore in my lifetime should this property come into my hands, I will also deliver the same into the possession of the said Mir Saheb. property be divided, then the said Mir Saheb is the owner and absolutely entitled to receive my portion by the aforesaid right, by the right of ownership of my share, from the Court of His Honour the Agent. 5. *Gift—Possession, transfer of, by the donor—Relinquishment of a share by a Mahomedan in the property of the deceased—Valuable consideration—Transfer of Property Act (IV of 1882), s. 53—Fraudulent transfer—Good faith.* To facilitate the action of the Collector in obtaining the certificate of guardianship to the property of a Mahomedan minor, under the Guardian and Wards Act (VIII of 1890), *M*, the uncle of the minor, relinquished in favour of the minor, the share to which he was entitled in the property of his deceased brother, the father of the minor girl. The certificate was duly obtained by the Collector. The plaintiff, a judgment-creditor of *M*, then sued the minor for a declaration that *M*'s share in the property of his brother, which he had relinquished, was liable to attachment and sale in execution of his decree. The lower Court decreed the plaintiff's claim on the grounds that the relinquishment was not valid and binding upon the donor under the Mahomedan Law, since being a gift it had not been accompanied and perfected by possession and that it was void against *M*'s creditors under s. 53 of the Transfer of Property Act (IV of 1882), because it had been made with intent to defeat, delay or defraud them :—*Held*, that the relinquishment by *M* of his share in the property of his brother was not a gratuitous transaction, but was supported by valuable consideration, since as consideration for the Collector's undertaking the responsibility of administrator of the minor's property, he agreed to relinquish his share to the minor : the relinquishment was not a mere gift, but was supported by consideration which the law regards as valuable, and that, therefore, the rule of Mahomedan law, which requires that a gift must be accompanied by possession to render it valid and binding upon the donor, did not apply to the transaction. *Held*, further, that as the transfer was made by *M* honestly with the intention of parting with his share in favour of the minor for the purpose of removing the difficulties in the way of the Collector's application then pending and of enabling him to obtain a certificate of guardianship to the minor, and as it was not a contrivance resorted to for his own personal benefit, it was not void under s. 53 of the Transfer of Property Act (IV of 1882). 6. _____ *Will—Disposition in favour of heir—Consent of other heirs.* A Mahomedan executed in favour of his wife an instrument which purported to be a deed of gift of all his property. At the time when he executed this instrument he was suffering from an illness likely to have caused him to apprehend an early death, and he did in fact die of such illness upon the same day. There was no evidence that any of his heirs had consented to the execution of the deed. After his death his brother sued the widow to set aside the deed as invalid :—*Held*, that the instrument, though purporting to be a deed of gift, constituted, by reason of the time and other circumstances in which it was made, a death-bed gift or will, subject to the conditions prescribed by the Mahomedan law as to the consent of other heirs, and those conditions not having been satisfied, it not only fell to the ground, but the parties stood in the same position as if the document had never existed at all. The donor died on 6th March, and it was found on the evidence that the above dispositions of his property were death-bed-gifts. It appeared that the donor had separate possession of the land disposed of by him though part of it was held under joint pottahs, in which others were interested ; and also that on date of the gift the transfer of ownership of the mitta property was proclaimed by beat of tom-tom, and that the tenants were called upon to attorn to the donees, who subsequently collected rent. The widow took no exception to the gifts, but after two years one of the daughters brought this suit to have them set aside as invalid and to recover her share as an heiress of her father : *Held*, (i) on the evidence that the attestation of the heirs was regarded by all the parties concerned as evidence of consent, and that they did consent to the death-bed gifts at the time they were made ; (ii) that this consent not having been revoked on the donor's death, and there having been sufficient delivery of possession, the gifts were complete ; (iii) that the gifts were not impeachable on the ground of musha. 9. _____ *Gift by person labouring under disease.* Under the Mahomedan law, the term "marz-ul-maut" is applicable not only to diseases which actually cause death, but to diseases from which it is probable that death will ensue, so as to engender in the person affected with the disease an apprehension of death. Under the same law, a person labouring under such a disease cannot make a valid gift of the whole of his property until a year has elapsed from the time he was first attacked by it. When a gift is made by a person labouring under such a disease, it is good to the extent of one-third of the subject of the gift, if the donee has been put into possession by the donor. 10. _____ *Gift during mortal illness—Donatio mortis causâ—Marz-ul-maut.* The Hanifi rules with regard to the subject of marz-ul-maut gifts are not exhausted by the dictum expressed in the case of *Mahomed Gulshere Khan* v. *Mariam Begam, I. L. R. 3 All. 731*, but in determining whether the donation of a Mahomedan suffering from a mortal illness comes within the dictum applicable to marz-ul-maut gifts, several questions have to be considered, *viz.*, (i) Was the donor suffering at the time of gift from a disease which was the immediate cause of his death ? (ii) Whether the character and nature of the disease was such as to induce the donor to believe that death would be caused thereby or to engender in him the apprehension of death ? (iii) Was the illness such as to incapacitate him from the pursuit of his ordinary avocations or standing up for prayers, a circumstance which might create in the mind of the sufferer an apprehension of death ? (iv) Had the illness continued for such a length of time as to remove or lessen the apprehension of immediate fatality or to accustom the sufferer to the malady ? The limit of one year, mentioned in the law books, does not lay down any hard-and-fast rule regarding the character of the illness ; it only indicates that

14. ——— **Deed of sale**—*Joint gift—Without discrimination of shares.* Where a conveyance between Mahomedans, though in form a deed of sale, is in reality a gift, its validity should be tested by the rules of law applicable to gifts, and not by those applicable to deeds of sale. In determining whether a transaction is one of sale or gift the intention of the parties, rather than the form of the instrument used, should be considered. A deed of gift, in English form, of a house to three persons as joint tenants (without discrimination of shares) is good according to Mahomedan law, as it shows an intention on the part of the donor to give the property in the whole house to each of the donees. A gift by a Mahomedan in Bombay which contravenes the principles of English Courts of equity with regard to gifts to persons standing in a fiduciary relation to the donors will not be upheld. 25. ——— Gift of property not in possession—*Gift of zamindaris let out on lease, and malikana rights—Musha as applied to gifts of unpartitioned and undivided lands.* The rule of Mahomedan law that no gift can be valid unless the subject of it is in the possession of the donor at the time when the gift is made, has relation, so far as it relates to land, to cases where the donor professes to give away the possessory interest in the land itself, and not merely a reversionary right in it. What is usually called possession in this country is not only actual or khas possession, but includes the receipt of the rents and profits. There is nothing in Mahomedan law to make the gift of a zamindari, a part or the whole of which is let out on lease to tenants invalid. Nor is there any principle by which to distinguish malikana rights from the right to receive rents or dividends upon Government securities, and gifts of such a nature may be legally conferred under the Mahomedan law. The doctrines of Mahomedan law which lay down that a gift of an undivided share in property is invalid because of musha or confusion on the part of the donor, and that a gift of property to two donees without first separating or dividing their shares is bad because of musha on the part of the donees, apply only to those subjects of gift which are capable of partition. 26. ——— *Hiba, or deed of gift—Gift by husband to wife—Possession—Continued receipt of rents by husband—Husband, Manager for wife—Gift of "musha" or undivided part—Subsequent partition.* In 1871 *H G*, a Mahomedan, executed a formal hiba or deed of gift, to his wife, the defendant, of a house belonging to himself, but let out to tenants, and duly registered the deed. In 1876-77 he caused the house to be transferred into the name of his wife in the municipal and fazandari books. After the execution of the deed of gift, and down to the time of his death in 1884, *H G* continued to collect the rents as before, and they were entered in his books and drawn upon for family purposes in the same manner as they had always been. In 1881-82 *H G* had an account of the rents of the house prepared in his wife's name from 1871-72 up to date: *Held*, that the above circumstances afforded sufficient evidence of possession having been given to the defendant, either in 1871 or 1876 to satisfy the requirements of Mahomedan law. *H G*, being the husband of the defendant, would naturally continue to collect the rents as her manager, even when he regarded himself as having parted with the ownership to his wife, which the above-mentioned circumstances showed that he did. In 1883 *H G* executed a second hiba, duly registered, to the defendant, of an undivided moiety of the house in which he and the defendant resided, and to which *H G* and his brother were entitled in equal shares. No partition had been made between *H G* and his brother when *H G* died: *Held*, that the gift was invalid, as being a gift of a "musha," or undivided part, in a thing susceptible of partition. *Quære:* Whether if

(2).* A pension of the nature described in Act XXIII of 1871 (Pensions Act), s. 7, cl. (2), was drawn by a Mahomedan, in whose name alone it was recorded in the Government registers, for himself and the other members of his family, who, up to the time of his death, received their shares from him. Shortly before he died, he executed a deed of gift in favour of his wife, which purported to assign to her the whole pension. No mutation of names was effected in the Government registers, but the deed of gift and the sanads, in respect of which the pension had originally been granted, were handed over to the donee. After the death of the donor, one of his sisters brought a suit against his widow to establish her right (i) to receive the share in the pension which she had inherited from her father and received up to her brother's death, and (ii) as heir to her brother himself, to the share which he had inherited. It was contended on her behalf that the deed of gift was in any case ineffectual as an assignment of more than the donor's own interest, and further that it was invalid even as an assignment of his own share, inasmuch as, under the Pensions Act, the pension could not be made the subject of gift, and under the Mahomedan law it was "musha" and not transferable, and actual delivery or transfer of possession was, under the same law, essential to the completion of the gift, but no such delivery or transfer had been effected: *Held*, that the deed of gift was not a good assignment in law of the interest of the plaintiff, who was not a party thereto, and the defendant could take nothing more than the donor's own interest. *Held*, that whatever might be the Mahomedan law apart from the Pensions Act, under s. 7 of the Act, the pension or any interest in it was capable of being alienated by way of gift, the subject of the gift being not the cash, but the right to have the pension paid. *Held*, that there was no force in the contention that the gift became void because the right was not divided, inasmuch as in the case of a right to receive a pension the rights of the individuals who are the heirs became at once divided and separate at the death of the sole owner; and in this case the shares were definite and ascertained and required no further separation than was already effected upon the sole owner's death. *Held*, that the rule of the Mahomedan law as to the invalidity of gifts purporting to pass more than the donor was entitled to, was based upon the principle of "musha" or undivided part, and had no application to cases where the donor's interest itself was separate; and that even if it were the strict Mahomedan law that where a man having a definite ascertained interest in a pension, and intending at any rate to pass his interest to his wife, purporting to give her more than he was entitled to, he failed to give her any interest at all, s. 24 of the Bengal Civil Courts Act (VI of 1871) did not make it obligatory to apply the strict Mahomedan law as to gifts, in transactions of modern times. *Held*, that although, according to the Mahomedan law, possession was necessary to perfect a gift where the nature of the transaction was such that possession was possible, possession of a right to receive pension could only be given by handing over the documents of the title connected with the pension or assigning the right to receive the pension; that the gift in this case was perfect as soon as the deed was executed and handed over with the other papers to the donee; and that the mutation of names was merely a thing which would follow on the perfection of the title, and did not in itself go to make or form part of the title. 28. ——— *Mahomedan law of gift—Possession not delivered at the time, but afterwards obtained—Musha, mixed, or common property, with shares undistinguished.* A hibanam gave an undivided share in mokurari and zaminda holdings, besides other property not reduced into possession, the whole of which had, as a matter of title, devolved upon the donor as a member of the family of which the donees were also members: *Held*, that the hibanama did not infringe the Mahomedan doctrine of musha, as an attempt to make a gift of an undivided share in property capable of division: having been settled that one of two sharers may give his share to the other before division, whence it followed that one of three shares might give his share to the other two. *Ameena Bibi* v. *Zeifa Bibi*, *3 W. R. 37*, referred to and approved. *Held*, also that, as the donor had done all that she could do to perfect the contemplated gift, which was attended with complete publicity, and as the donees had afterwards obtained possession, the fact of the donor's having been out of possession, and therefore not having delivered it, did not of itself invalidate the gift. In regard to the principle and the analogy in other systems of law to be found in the cases relating to voluntary transfers (where, if the donor should not have done all that he could have done to perfect his intended gift, he cannot be compelled to do more), the Hindu case of *Kali Das Mullick* v. *Kanhaya Lal Pundit, L. rules; and the authorities on the Mahomedan law show that possession taken under a gift, even although that gift might with reference to "musha" be invalid without it, transfers effectively the property given, according to the doctrines of both the Shiah and the Sunni schools. Possession once taken under a gift is not invalidate, as regards its effect in supporting the gift, by any subsequent change of possession. The subject of the gift was shares in revenue-paying villages, with land, houses, and moveables. Of the greater portion of this property the donor, a mother giving them to her daughter, had only so far possession that she was in receipt of the rents and profits. In the deed of gift she declared (thereby making an admission hereby her heir and all claiming through him were bound) that she had made the donee, her daughter, possessor of all the properties; and she directed that the gift should be carried into effect by the daughter's husband, who was manager of estates on behalf of both mother and daughter before them: *Held*, in a suit for the possession of the property, on a sale by the heir of the donor, brought by the vendees against him, and joining as defendants the heirs of the daughter then deceased, that sufficient possession had been taken on behalf of the daughter to render the gift effectual, and to defeat the claim as against her heirs. The subject of the gift must be actually in existence at the time of its donation. A Mahomedan executed a deed of gift in favour of his wife, by which he agreed to give her and her heirs in perpetuity a sum of R4,000 per annum out of his undivided share in certain jaghir villages which he had inherited from his father: *Held*, that the gift was invalid, as it was a gift in effect of a portion of the future revenues of the villages to the extent of R4,000 per annum. He never came into possession of the second portion of the property: *Held*, with reference to the question whether the donor had fulfilled the requirements of Mahomedan law by putting the donees into immediate possession, that the deed, having operated in respect of the first portion of the property which *Z* had become possessed of under the will, operated in respect of the second. Gulam Ali died, leaving a widow and a daughter, who continued to be joint tenants with Gulam Rasul; but the latter continued in exclusive possession of the property, subject to any claim which they might establish to a share in, or a charge upon, it. Gulam Rasul, by a written instrument, made a gift of that property to his younger son, the father of the defendants, disinheriting his elder son, the plaintiff: *Held*, that the gift was valid, and that the doctrine of the Hanifia, though not of the Imamia Code, that the gift of a share in undivided property, which admits of partition, is certainly invalid, or at least forbidden has no application to the gift of property so circumstanced. She made a gift of her property, transferring the dominion over it to the donees, but reserving the income of the share of the muafi estate for life, and stipulating against its alienation: *Held*, that the gift of the one-twelfth share of the muafi estate, being a gift of a specific share, was not open to objection under Mahomedan law, and such gift was not vitiated by the mere reservation of the income of the share, or by the condition against alienation. *Held*, also, that the gift was not invalid under Mahomedan law, so far as it related to the staircase, privy, and door, as those things, though undivided property, were incapable of division, and a gift of part of an indivisible thing was valid under that law. This may be done by a deed of gift without consideration or by deed of gift for consideration. A conveyance by deed of gift without consideration is invalid, unless accompanied by delivery of the thing given, so far as it admits of delivery. In the case of a gift for consideration, the delivery of possession is not necessary for its validity, and no question arises as to the adequacy of the consideration; but there must be an actual payment of the consideration by the donee, and a *bonâ fide* intention on the part of the donor to divest himself *in præsenti* of the pro-

Subsequently, in 1853, she made an absolute gift in writing of three of the shares to the fourth defendant and his mother. 52. —— *"Tamlik," or assignment of ownership.* "Tamlik," or assignment of ownership, is a term of general import applying to the various modes of acquisition of property recognized by Mahomedan law, but forms no separate and distinct mode of acquiring property. When applied to gift, it does not avoid the legal requirements of acceptance and seisin. An instrument called a "tamliknama" purported to give *S*, in consideration of her devotion and affection to the executant, the executant's property, and provided that the executant should during her life enjoy the income from the property; that at her death *S* should have the proprietary possession and enjoyment of the property, just like the executant; that the executant should effect mutation of names in respect of the property in *S*'s favour; that the property should not belong to any other person but *S*; and that any transfer by the executant to any other person should be void. After giving *S* the power to transfer the property by sale, mortgage, gift, "tamlik," etc., it proceeded in manner following: "But *S*, or her transferee, shall get possession of the said share only after my death. On my death *S* and her heirs shall become the owners of this share." The deed could only have validity as a will; as a deed of gift, it was wholly invalid. KASUM *v.* SHAISTA BIBI **7 N. W. 313**

quitted the house of residence, leaving her in possession of the same :—*Held*, that the requirements of the Mahomedan law, with regard to gifts without consideration,—*viz.*, acceptance and seisin on the part of the donee, and relinquishment on the part of the donor,—had been complied with, though the husband shortly afterwards returned to the house, resided there with his wife till his death, and received the rents of other parts of the property comprised in the hibba. 54. ——————— *Gift by husband to wife—Delivery of possession—Gift, validity of, as against creditor, or subsequent bonâ fide purchasers.* The plaintiff, the nika wife of the late Nawab of the Carnatic, sued for a declaration of her absolute title to certain premises (Nos. 1, 2, 3, and 4), for possession of certain other premises (Nos. 5 and 6), for delivery to her by defendant of the title-deeds of all the premises except No. 1, and for cancellation and delivery up of a sheriff's bill of sale of No. 1 in favour of *T A*, of a mortgage of Nos. 2, 5, and 6 to *R & Co.*, of a mortgage of No. 4 to *A A*, and of all assignments by *T A R & Co.*, or *A A*, to defendant. She claimed this relief under an alleged gift to her by the late Nawab on or about the 6th January 1851. Defendant said (and it was so found) as to 2, 5, and 6, that he had never had anything to do with the said premises or with the title-deeds thereof. As to the other premises, that the several assignments in his possession were made to him as receiver of the Carnatic property under Act XXX of 1858, but that he had not obtained possession of the said premises nor of any of the title-deeds thereof, except the sheriff's bill of sale of the 29th November 1855. Issues were settled raising the following questions : Whether the gift was made as alleged ? Whether, if so, it was valid against creditors of, or subsequent purchasers for valuable consideration from, the donor ? Whether the gift was revocable, and revoked ? Whether defendant has, or ever had, possession of all or any of the title-deeds of Nos. 2, 5, and 6 ? *Held*, that a complete gift had been made and not revoked ; that it was valid against the creditors of the donor, and also (as the donor and donee were both Mahomedans) against subsequent purchasers for valuable consideration from the donor ; but that defendant had never had possession of the title-deeds of Nos. 2, 5 and 6, so that the suit could not be maintained as regards them. Under Mahomedan law, "in the instance of a wife who may give a house to her husband, the gift will be good, although she continue to occupy it along with her husband and keep all her property therein, because the wife and her property are both in the legal possession of the husband. So also it has been held by some that, if a father transfer his house to his minor son, himself continuing to occupy it and to keep his property therein, the gift is valid, on the principle that the father in retaining possession is acting as agent for his son, according to which doctrine his possession is equivalent to that of his son." Reason requires that the same principle should be applied to the case of a gift by husband to wife. The wife may, according to Mahomedan law, hold property independent of her husband, and as a husband may make a valid gift to his wife, it can only be necessary that the gift should be accompanied with such a change of possession as the subject is capable of and as is consistent with the continuance of the relation of husband and wife. ———— *Hiba-bil-iwaz— made in consideration of services rendered— not in possession—Possession not delivered ee.* The fundamental conception of hiba-bil- or a gift for an exchange as understood in the nedan law, is that it is a transaction made up separate acts of donation, *i.e.,* of mutual or cal gifts of specific property between two per- ach of whom is alternately donor and donee.

It does not include the case of a gift in consideration only of natural love and affection or of services or favours rendered. Nor does such a gift fall under the category of hiba-bil-iwaz in its improper sense of sale ; but it is an ordinary gift subject to all the conditions as to validity which the Mahomedan law provides. A gift of immoveable property not at any time in the possession of the donor, but in that of a trespasser, and consequently never delivered by the donor to the donee, is void under the Mahomedan law. *Kasim Hossein* v. *Sharif-un-nissa, I. 66. ——— *Alleged gift by a Mahomedan father to his son—Benami transaction—Evidence of transfer of ownership.* Government securities were indorsed and delivered by a Mahomedan father to his son in the presence of the local Treasury Officer. On the question, raised after the father's death, whether this was intended to transfer the ownership, or was a benami transaction, leaving the true ownership in the father, the Courts below had drawn different inferences from the proved facts. The first Court decided that the ownership had been changed, the notes having been given with only a reservation of the temporary use of the interest. The High Court found that the ownership remained in the father. On a review of the possession of the parties at the time, and of their subsequent conduct down to the father's death, the Judicial Committee affirmed the judgment of the High Court on the evidence, pointing out that the first Court's theory of the reservation differed from the case alleged by the defendant and from that actually made out by the plaintiff at the hearing. 72. ——————— *Transfer of possession—Donor and donee living in the same house the subject of the gift—Evidence.* It is not necessary according to Mahomedan law that in all cases where a gift of immoveable property is made, the donor should actually and physically vacate the property the subject of the gift. Where the gift was of a house and other immoveable property, and was made by registered instrument and attended by circumstances of great publicity, the fact that the donor, who was the aunt of the donee, never quitted the house, but continued to reside in it with her nephew, was held to be of no effect in the face of the clearly manifested intention of the donor to transfer possession of the house to the donee. *Shaik Ibrahim* v. *Shaikh Suleman, I. BHOOCHA *v.* ELAHI BUX **I. L. R. 11 Calc. 574**

9. ——— *Custody of children—Act IX of 1861, s. 5—Appeal.* The Mahomedan law takes a more liberal view of the mother's right with regard to the custody of her children than does the English law, under which the father's title to the custody of his children subsists from the moment of their birth, while under the Mahomedan law a mother's title to such custody remains till the children attain the age of seven years. An application was made by a Mahomedan father under s. 1 of Act IX of 1861 that his two minor children, aged respectively twelve and nine years, should be taken out of the custody of their mother and handed over to his own custody. The application having been rejected by the District Judge, an appeal was preferred to the High Court as an appeal from an order. It was objected to the hearing of the appeal that, in view of s. 5 of Act IX of 1881, the appeal should have been as from a decree, and should have been made under the rules applicable to a regular appeal:—*Held*, that, looking to the peculiar nature of the proceedings, the objection was a highly technical one, and as all the evidence in the case was upon the record and was all taken down in English, it would only be delaying the hearing of the appeal upon very inadequate grounds if the objection were allowed. *Held*, also, that, according to the principles of the Mahomedan law, the appellant was by law entitled to have the children in his custody, subject always to the principle, which must govern a case of this kind, that there was no reason to apprehend that by being in such custody they would run the risk of bodily injury, and that (without saying that this exhausted the considerations that might arise, warranting the Court in refusing an application for the custody of minors) there was nothing in the record in this case which disclosed any proper ground to justify the refusal of the application. RUTTON *v.* DOOMEE KHAN . . **3 Agra 21**

17. ——— *Legal necessity—Sale.* The question of legal necessity does not necessarily arise in cases of sale under the Mahomedan law, though it may properly be an element for consideration when the conduct of a guardian is called in question. The Mahomedan law looks to the benefit of the minor, and permits the guardian to dispose of moveable property if it be for the benefit of the minor. In this case a sale made to carry on important litigation was held *bonâ fide* and for the benefit of the minor, the decision in *Grose's Case, 4 B. L. R. O. C. 1; 12 W. R. O. 18. ——— *Sale of minor's property—Validity of such sale—Sanction of sale by ruling authority.* The plaintiff sued to recover her husband's share in certain property at S, to which he and other persons became entitled as heirs of *M*. That property had been sold to the defendants by the heirs of *M* during the minority of the plaintiff's husband, his elder brother acting for him in the transaction. It was proved that the sale of the property to the defendants had been approved of by *H*, who was the agent of the Governor of Bombay at S, and the representative of the ruling authority in the management of *M*'s estate. The plaintiff contended that, according to Mahomedan law, it was not competent for the elder brother of a minor as guardian to alienate a minor's property. *Held*, that the sanction of the ruling power constituted a sufficient authority for the act of the guardian, provided that the transaction was one which, according to Mahomedan law, a duly constituted guardian might have entered into on behalf of his ward. The law permits a guardian to sell the immoveable property of his ward, when the late incumbent died in debt, or when the sale of such property is necessary for the maintenance of the minor. The evidence in the present case showed that the indebtedness of *M* and the distressed condition of his heirs existed in a sufficient degree to justify the sale of the whole property of the heirs. 19. ——— *Minor—Infant—Guardian of property—Mortgage—Co-heirs—Infants' liability.* In May 1881 certain co-heirs of a deceased Mahomedan mortgaged a portion of the property which had descended to them in common with others, then infants, as heirs of the deceased. The mortgage was raised for the purpose of paying off arrears of rent of a patni talukh which was a part of the property inherited from the deceased. There was no evidence to show that there were any other necessary expenses connected with the deceased's estate which had to be met, nor what that estate consisted of, nor whether the arrears of rent could or could not have been paid without having recourse to the mortgage. According to the Mahomedan law, the mortgagors were not the guardians of the property of the infants. *Held*, that the shares taken by the infants as heirs of the deceased were not bound by the mortgage. MAHOMEDAN LAW—GUARDIAN—*contd.*

Upon the death of *G*, a Mahomedan, his estate was divisible into eight shares, two of which devolved upon his son, *A*, one upon each of his five daughters, and one upon his widow, *B*. The name of *B* only was recorded in the revenue registers in respect of the zamindari property left by *G*. In 1876 *A* and *B* gave to *X* a deed of simple mortgage of 2½ biswas out of a 5 biswas share of a village included in the said property. In 1878 *A* and *B* gave to *S* a deed of simple mortgage of the 5 biswas, which were described in the deed as the widow's "own" property. In 1882 *X* obtained a decree upon his mortgage for the sale of the mortgaged property, and it was put up for sale and purchased by *X* himself in January 1884. In February and November 1884 the daughters of *G* obtained *ex parte* decrees against *A* and *B* in suits brought by them to recover their shares by inheritance in the 5 biswas. In 1885 *S* brought a suit upon his mortgage of 1878, claiming the amount due thereon and the sale of the whole 5 biswas. To this suit he made defendants *A* and *B*, *G*'s daughters, and *X*, alleging that the decrees of February and November 1884 were fraudulently and collusively obtained; and as to the auction sale of January 1884, that the 2½ biswas were sold subject to his mortgage, he not having been made a party to the suit brought by *X* upon the deed of 1876, and therefore not being bound by any of the proceedings taken therein or consequent thereto. It was contended that *B*'s position as head of the family entitled her to deal with the property so as to bind all the members of the family, though using her name only; and it was suggested that, at the time of the mortgage of 1878, some of the daughters were minors. On behalf of the daughters it was contended, *inter alia*, that the decrees obtained by them against *A* and *B* in February 1884 were conclusive, by way of *res judicata*, against the plaintiff, who, as mortgagee from *A* and *B*, claimed under a title derived from them. *Held*, *per* MAHMOOD, *J.*, that according to the Mahomedan law, the surviving widow, though held in respect by the members of the family, would not be entitled to deal with the property so as to bind them, and the entry of her name in the revenue registers in the place of her deceased husband would probably be a mere mark of respect and sympathy. Her position in respect of her husband's estate is ordinarily nothing more or less than that of any other heir, and even where her children are minors, she cannot exercise any power of disposition with reference to their property, because although she may, under certain limitations, act as guardian of their persons till they reach the age of discretion, she cannot exercise control or act as their guardian in respect of their property without special appointment by the ruling authority, in default of other relations who are entitled to such guardianship. Even, therefore, if some of the daughters in the present case were minors at the time of the plaintiff's mortgage, their shares could not be affected thereby. They could only be so affected if circumstances existed which would furnish grounds for applying against them the rule of estoppel contained in s. 115 of the Evidence Act, or the doctrine of equity formulated in s. 41 of the Transfer of Property Act, but here no such circumstances existed. 22. ——————— *Power of guardians— Sale by guardian of property to which ward's title was in dispute, and for the benefit of the latter.* By the Mahomedan law, guardians are not at liberty to sell the immoveable property of their wards, the title to which property is not disputed, except under certain circumstances specified in Macnaghten's Principles of Mahomedan Law, Ch. VIII, cl. 14. But where disputes, existing as to the title to revenue-paying land, of which part formed the ward's shares, sold by their guardian, where thereby ended, and it was rendered practicable for the Collector to effect a settlement of a large part of the land, a fair price moreover having been obtained, the validity of the sale was maintained in favour of the purchaser as against the wards for whose benefit the transaction was. Although the sale-deed incorrectly stated the purpose of the sale to have been to liquidate debts, a statement repeated in a petition to the Collector, asking that settlement of the shares sold should be made with the purchaser, yet, on the transaction being afterwards impeached by the wards:—*Held*, that it was open to the guardian to prove the real nature of the sale, and to show that it was one beneficial to them. The minor having made default in payment, the mortgagee sued to recover rent:—*Held*, that the mortgagee was not entitled to recover, although, had the minor sued the mortgagee to avoid the mortgage, he might not have been able to succeed without paying compensation to the mortgagee to the extent to which he or his property had benefited by the money advanced on the security of the mortgage. *Ruttun* v. *Dhonee Khan*, *3 Agra 21*; *Bhutnath Dey* v. *Ahmed Hosain*, *I. 35. *Co-sharers—Suit for possession of a share in the property of a Mahomedan family—Right of suit.* In a suit in 1822 between the members of a family following the Mahomedan law of inheritance in which the plaintiffs sued as sharers for the recovery of their share in certain property, one of the defendants pleaded that a paramba, part of the property in dispute, was not subject to division, but this plea was unsuccessful, and a decree was passed for the plaintiffs. The present suit was brought by a mortgagee from one of the defendants in the former suit (who had not appeared in that suit, and against whom therefore the decision had been *ex parte*) to recover his share of the above-mentioned paramba, the subject matter of his mortgage; the mortgagor was joined as defendant, among others, including the defendant who had raised the plea above stated. This plea was repeated by the same person:—*Held*, distinguishing *Venkatarama v. Labai Meera, I. L. R. 13 Mad. 275*, on the ground that the parties in the present case were governed by the Mahomedan law of inheritance, that the suit was maintainable. A co-sharer by Mahomedan law has a right to a specific share in each item of property left by the person from whom he inherits, and can sue to recover that share from any person in possession of the property. The Sunni and Shiah rules of inheritance differing, her true heirs could only be ascertained by determining to which of these sects the deceased belonged at the time of her death. The evidence relating to the period after her husband's death led to the conclusion that throughout her widowhood she was a Sunni, having returned to the religion of her youth when freed from the necessities of her position as the wife of a Shiah. 38. ——— *Renunciation of right to inherit—Presumption of relinquishment from acts of parties—Widow.* In a suit in the nature of ejectment, by principal respondent as residuary heir according to the Mahomedan law of a deceased person, to recover from his widow, the appellant, three-fourths of her deceased husband's estate, of the whole of which she had for upwards of eleven years been in possession, the plaintiff's title as residuary heir was put in issue, as well as other issues touching the widow's dower, etc. The Privy Council, thinking it of the utmost importance that those who had thus sanctioned a long possession should not be allowed lightly to disturb it, or to escape from those legitimate inferences and presumptions which on a conflict of evidence arose from their own acts and conduct, decided in favour of the widow, holding that the respondent had failed to establish the title upon which he sued. According to the Mahomedan law, there may be a renunciation of the right to inherit, and such a renunciation need not be expressed, but may be implied from the ceasing or desisting from prosecuting a claim maintainable against another. It is only by an application of the principle that equity considers that done which ought to be done that such a chance can, if at all, be bound. It was not intended by s. 6 (*a*) of the Transfer of Property Act to establish and perpetuate the distinction between that which according to the phraseology of English lawyers is assignable in law and that which is assignable in equity. In the case of deeds executed by *pardanashin* ladies, it is requisite that those who rely on them should satisfy the Court that they had been explained to and understood by those who executed them. *Sudisht Lal* v. *Mussummat Sheobarat Koer, L. Both the Courts in India held on the evidence that the custom alleged by the defendants to exist was not established:—*Held*, by the Judicial Committee, that the existence of the custom was a question of fact and that their usual practice of accepting concurrent findings of fact should be followed. A Mahomedan died in 1865 possessed of immoveable property which passed first to his mother, and, on her death shortly afterwards, to his two widows, each taking an 8-anna share. On the death of the senior widow, on 24th January 1888, the junior widow had possession of the whole estate until her death on 19th December 1894, when mutation of names was made in favour of the defendants who were nephews of the senior widow, and who as the

result of litigation were eventually left possessed of only the 8-anna share which had belonged to her. In a suit instituted on 11th February 1903 by her sister to recover from the estate of a brother who died on 7th February 1891, a share of property which had devolved upon him on the death of his sister, the senior widow, and other property which he had inherited from his father, the plaintiff claimed the latter as sole heir on the ground that the widow and daughters were excluded by custom from inheriting, and that the defendant's father had predeceased the brother whose estate she was claiming: *Held*, in respect of the former property, that the cause of action arose at the earliest from the death of junior widow, and the suit having been brought within 12 years from that date was not barred by limitation. The Court of the Judicial Commissioner held that the daughters but not the widow were excluded by custom, and calculated the share of the plaintiff on the principle that as the custom by which daughters were excluded was founded on the notion that property should not be allowed to pass into another family, the exclusion should operate for the benefit of the persons who became heirs in default of daughters who should therefore be treated as non-existent so as to let in the defendants, the nephews, and their Lordships of the Judicial Committee affirmed that view. In 1895 the plaintiff had brought a suit for maintenance against her brothers who were in possession of their father's property, and in that suit she made a compromise with them on 10th September 1896 on the terms that they would pay her an allowance of R60 per annum for life; and objection was taken in the suit brought in 1903 that by her statements and conduct she had relinquished any right to her father's property, being estopped by the compromise made in the suit of 1895, and by her omission to make her present claim in either of the former suits:—*Held*, for the reasons given by the Court of the Judicial Commissioner, that under the circumstances no renunciation could be implied from the plaintiff's compromise of her suit, nor from her omission to make the present claim previously and there was no estoppel. The onus was on the defendants who alleged such relinquishment and estoppel to establish their case, and on the evidence they had failed to do so. MUHAMMAD KAMIL *v.* IMTIAZ FATIMA (1909)

Semble:* The power to appoint a person to the office of kazi of Bombay is vested in the Governor of Bombay, and not in the Governor in Council. According to Mahomedan law, the appointment of kazi has always been vested in the chief executive officer of the State, and the right to make such appointment has never rested with the Mahomedan community at large. When it was shown that the plaintiff had acted as kazi of Bombay for more than twenty years, and the defendant, in an action brought against him for disturbing the plaintiff in his office of kazi, was unable to show that the plaintiff had been illegally appointed, it was held that the plaintiff so acting as kazi could maintain an action against the defendant who so disturbed him in his office, without proving that he, the plaintiff, had been legally appointed. The sums received by the kazi of Bombay in respect of his office of kazi are not mere gratuities, but are fixed and certain payments annexed to the discharge of official duties, and are therefore sums in respect of the privation whereof by a wrongful intruder an action either for money had and received or for disturbance in the office will lie. Even where the cohabitation has been casual only, and there has been no acknowledgment of the woman as his wife, or the issue as his children, the fact of such cohabitation raises a presumption of marriage, and that the children are legitimate ; but in such a case the presumption may be rebutted. MAHOMEDAN LAW—MORTGAGE.

——————— **Mortgage by widow**—*Power to mortgage shares of minors—Mahomedan law of sale.* In 1884 *I*, a Mahomedan, died intestate, leaving a widow, two sons, and two daughters. At the time of his death he was the owner of a certain house in Bombay. After his death his widow and his eldest son *E* (without the consent of the other children, who were minors) mortgaged the said house to the defendant. In 1894 a younger son and one of the daughters of *I* filed this suit, praying that their shares in the house might be ascertained and declared; that the house should be sold, and their shares in the proceeds handed over to them. The defendant pleaded that the plaintiff's mother and adult brother *E* had mortgaged the house to him in 1891 as a security for a loan of R3,500 which they wanted to pay off debts incurred in re-building the house and to defray the marriage ex-penses of *E*. He contended that the mortgage was binding on the plaintiffs, having been made for the benefit of the family, and that, if not, the plaint-iffs were bound to pay him the money due to him before claiming any share in the house: *Held*, that the plaintiffs were entitled to their shares in the said house free and discharged of the mortgage executed to the defendant. The Mahomedan law makes no provision with regard to mortgages, as such transactions are, strictly speaking, unlawful as they involve the payment of interest. As, how-ever, mortgages do now exist among Mahomedans they must be governed by the rules applicable to sales. To authorize a sale by the guardian of a Mahomedan minor, there must be an absolute neces-sity for the sale, or else it must be for the benefit of the minor. The money raised by the mortgage in question was not raised for any purpose specially authorised by Mahomedan law, and the purpose for which it was raised was not for the benefit of the minor. Consequently, the widow had no authority to mortgage their shares. HURBAI *v.* HIRAJI BYRAMJI SHANJA . **I. L. R. 20 Bom. 116**

devotions as of right, according to their conscience. No one sect or portion of the Mahomedan community can restrain any other from the exercise of this right. Members of the Muhammadi or Wahabi sect are Mahomedans, and as such entitled to perform their devotions in a mosque, though they may differ from the majority of Sunni Mahomedans on particular points. But any Mahomedan would commit a criminal offence who, not in the *bonâ fide* performance of his duties, but *malâ fide*, for the purpose of disturbing others engaged in their devotions, made any demonstration oral or otherwise in a mosque, and disturbance was the result.—So *held* by the Full Bench. *Queen-Empress* v. *Ramzan, I. The prayers of one individual alone are sufficient to constitute a public mosque so long as it is accompanied by the *azan* (call to prayer). Any Mahomedan, to whatever sect he may belong, is entitled to offer his prayers according to his own ritual in any mosque so long as he does not wilfully disturb or annoy the other members of the congregation. In districts where its existence has not been judicially noticed, the custom will be matter to be proved; such custom, when it exists, must be presumed to be founded on and co-extensive with the Mahomedan law upon that subject, unless the contrary be shown. The Court may, as between Hindus, administer a modification of that law as to the circumstances under which the right may be claimed, where it is shown that the custom in that respect does not go the whole length of the Mahomedan law of pre-emption; but the assertion of the right by suit must always be preceded by an observance of the preliminary forms prescribed in Mahomedan law. The defendants to the suit were the vendors, the vendees, and others who were rival claimants for pre-emption, in the share sold. The rival pre-emptors alone defended the action on the ground, among others, that the plaintiff was not in possession of her own share in the village out of which she alleged that her right to claim pre-emption arose. The Court of first instance dismissed her suit. On appeal the District Judge in effect dismissed her claim as against the defendants who were the rival pre-emptors, but gave the plaintiff a right to obtain the share if the other pre-emptors did not avail themselves of the decree which they had obtained in their action. On the 12th of January 1887 plaintiff's second appeal was admitted, and on the 20th January plaintiff's share, in the village out of which her claim to pre-emption in respect of the share sold arose, was sold in execution of a decree in another suit. The respondent contended that, as since the appeal the share out of which plaintiff alleged that her right arose was sold, she could not get any decree now in her favour :—*Held*, that this Court as a Court of Appeal have only got to see what was the decree which the Court of first instance should have passed, and if the Court of first instance had wrongly dismissed the claim, the plaintiff cannot be prejudiced by her share having been subsequently sold in execution in another suit ; such a sale could not have affected her right to maintain the decree, if she had obtained a decree in her favour in the Court of first instance, either on review or on appeal, nor could it have been made the ground of appeal. Whether there has been such delay is a question to be determined upon the facts of each particular case. The plaintiff in this case, claimed the right to pre-empt by reason of their having previously acquired a share in the property. They had also obtained the transfer of a *zurpeshgi* mortgage binding the share, the sale of which was the occasion of the present suit. In the course of the suit the purchaser, defendant, deposited the mortgage amount in Court and the same was withdrawn by the plaintiff :—*Held*, that until a decree for pre-emption was made the purchaser owned the land, and had a right to redeem ; and that the taking out of the money by the plaintiffs, as mortgagees, was no recognition of anything more than that, and was quite consistent with their claim to pre-empt. 102. ——— *Relinquishment of right.* According to the Mahomedan law, if a pre-emptor enters into a comprise with the vendee, or allows himself to take any benefit from him in respect of the property which is the subject of pre-emption, he by so doing is taken to have acquiesced in the sale and to have relinquished his pre-emptive right. In a suit to enforce the right of pre-emption founded on the Mahomedan law, it appeared that the purchasers, by an agreement made with the plaintiffs on the same date as the sale in respect of which the suit was brought, agreed to sell the property to the plaintiffs any time within a year, and if the latter paid the price and purchased the property for themselves:—*Held*, that by the very fact of their taking the agreement, the plaintiffs had relinquished their right of pre-emption, and were precluded from enforcing it. HABIB-UN-NISSA *v.* BARKAT ALI
I. L. R. 8 All. 275

103. ——— *Omission to give notice of demand within reasonable time, effect of—Co-sharers, pre-emption between.* The wajib-ul-urz of a village provided that a co-sharer wishing to sell his share must give notice to the other co-sharers, and that first a nearer co-sharer and next a more distant co-sharer should have a right of pre-emption. Where, such notice having been given, the co-sharer receiving notice took no action thereon within a reasonable time:—*Held*, that, as his inaction would lead the vendor to conclude that he would not interfere or become a purchaser, it was equivalent to declining to purchase. MUHAMMAD WILAYAT ALI KHAN *v.* ABDUL RAB
I. L. R. 11 All. 108

104. ——— *Effect of offer by pre-emptor to purchase from vendee. Held*, that where a pre-emptor continues to assert his pre-emptive right, and on the strength of that right and in his character of pre-emptor offers to take the property from the purchaser by paying him the sale price, without resorting to, and with a view to avoid litigation, he cannot be said to have acquiesced in the sale and waived his right of pre-emption. *Muhammad Nasiruddin* v. *Abul Hasan, I. take the whole of the lands to be sold, the right of pre-emption cannot be asserted as to a portion only. CAZEE ALI *v.* MUSSEEUTOOLLAH **2 W. R. 285**

2. ——— *Circumstances disentitling party to enforce the right.* The right of pre-emption cannot ordinarily be claimed in respect of only a portion of any property conveyed away in a single sale ; but this rule holds good only when the property sold is one entire property. Where a single sale embraces two distinct properties in respect of one of which a right of pre-emption resides in any person who has not a similar right in regard to the other :—*Held*, that it would be equally unreasonable to rule that he could claim both, and that he could claim neither—the only reasonable rule being that he could claim as much as he could take by a decree if it were separately sold. SURDHAREE LALL *v.* LABOO MOODEE **25 W. R. 500**

3. ——— *Suit to enforce the right in respect of a part of the property sold.* Every suit for pre-emption must include the whole of the property subject to the plaintiff's pre-emption, conveyed by one bargain of sale to one stranger; and a suit by a plaintiff pre-emptor, which does not include within its scope the whole of such pre-emptional property, is unmaintainable as being inconsistent with the nature and essence of the pre-emptive right. *Izzatulla* v. *Bhikari Mollah, 6 B. Held*, that, where a pre-emptor by reason of the claim of other persons entitled equally with himself to claim pre-emption is only entitled to a certain portion of the property in respect of which he claims pre-emption and not to the whole of it, he is not bound to frame his suit as a suit for the whole of the property sold, but only for so much as he would be entitled to having regard to the claims of the other pre-emptors. *Amir Hasan* v. *Rahim Bakhsh, I. The lower Appellate Court was of opinion that *A* could not enforce her claim of pre-emption in respect of the share of the minors and on the Court's suggestion the plaint was amended, so as to ask for enforcement of her claim in respect only of the shares of the vendors of full age :—*Held*, that *A* was bound to claim her right against all the shares and could not enforce it in respect of some only. mptors, each having an equal right to claim pre-mption under a wajib-ul-arz, bring suits to enforce ıeir rights, in the absence of anything in the wajib-l-arz to the contrary, the rule of Mahomedan law ıust be observed, and however the property may be ivided by the decree of the Court between the suc-ssful pre-emptors, the Court must take care that ıe whole share must be purchased by both pre-nptors, or on the default of one by the other, or ıat neither of them should obtain any interest in ıe property in respect of which the suits were ·ought. In two rival suits for pre-emption the ırt gave one claimant a decree in respect of a ıee-annas share, and the other a decree in respect a two-annas six pies share of certain property, ıch decree being conditional on payment of the ice within thirty days. The Court further directed at in case of either pre-emptor making default of yment within the thirty days, the other should be titled to pre-empt his share on payment of the ice thereof within fifteen days, of such default. ›th pre-emptors made default of payment within e thirty days. One of them, within the further ıriod of fifteen days, paid into Court the price of e share decreed in favour of the other and claimed pre-empt such share :—*Held* (affirming the judg-ent of MAHMOOD, *J.*), that the claim was inadmis-ıle, since to allow it would have the effect of feating the rule of law that a pre-emptor must buy ə whole, and not part only, of the property which is entitled to pre-empt. ARJUN SINGH *v.* SAR-RAZ SINGH . . . **I. L. R. 10 All. 182**

10. ——— *Pre-emptor dis-itled by laches from claiming portion of pro-ty—Disqualification in claim for whole pro-ty.* The principle of the rule that a pre-emptor ıst claim the whole of the property included in the ı ə-transaction, and for which one price was paid, he is entitled to claim it, and cannot obtain a ·ree for part only of such property, applies to case of a pre-emptor who claims the whole, who is at the time disentitled by his own act or hes to maintain the claim as to a part. Such a qualification prevents the pre-emptor from main-ıing his suit for any portion of the property iluded in the sale. Where therefore a pre-empt-was disqualified from claiming a portion of the l perty sold, by not having made a prompt ıand in accordance with the Mahomedan law in ıect of such portion :—*Held*, that he was there-prevented from maintaining his suit for another ıtion claimed under the provisions of the wajib-ırz of a village, though he was willing to pay t full purchase-money and to leave in the dee's hands the portion as to which he disqualified. entitled to pre-empt any portion thereof. Where a pre-emptor sued for possession by right of pre-emption of certain property sold by one and the same sale-deed, claiming as to one portion of the property sold under the Mahomedan law and as to another under the wajib-ul-arz, and it was found that he had by his own acts or omissions disentitled himself from claiming that portion of the property to which the Mahomedan law applied : *Held*, that the pre-emptor was not entitled to pre-emption in respect of any portion of the property covered by the said sale-deed. *Muhammad Wilayat Ali Khan* v. *Abdul Rab, I. 3. ——— *Omission to perform ceremonies—Evidence of relinquishment of right—Negligence.* There are certain ceremonies to be performed in order to lay a foundation for the establishment in a Court of law of a right of this kind, when it is menaced ; and though, on the one hand, the effect of the omission to prove performance of these ceremonies is not cancelled by pleas advanced in later petitions put in during the progress of a case, just as, on the other, that omission is not of necessity evidence of a relinquishment of the right, yet, in this case, in which defendant had exhibited strange haste in some stages of the negotiations, with the apparent purpose of forestalling plaintiff in his rights ; but plaintiff's proceedings had been characterized with great negligence, if nothing worse ; it was held that the plaintiff was not entitled to a decree. made by the pre-emptor himself. HARIHAR DAT *v.* SHEO PRASAD . . **I. L. R. 7 All. 41**

5. ——— **Performance of ceremonies by agent or manager.** Under Mahomedan law, the legal forms to be observed under that law by a person claiming a right of pre-emption may be observed on behalf of such person by an agent or manager of such person. ABADI BEGAM *v.* INAM BEGAM . . . . **I. L. R. 1 All. 521**

6. ——— *Performance of ceremonies by agent—Affirmation by witnesses—Repudiation of sale.* According to Mahomedan law, the affirmation by witnesses need not be made by the claimant of the right of pre-emption in person, but may be made by a duly constituted agent. 7. ——— **Talab-i-mawasabat**—*Intention to assert right—Talab-i-ishtahad—Demand in presence of witnesses.* To entitle a person, otherwise favourably situated, to the right of pre-emption, two conditions must be fulfilled: first (talab-i-mawasabat), on receiving information of the sale he must immediately declare his intention to assert his right; and, secondly (talab-i-ishtahad), he must, as soon after as possible, make the demand of the vendor or purchaser, or upon the premises, and in the presence of witnesses. JHOTEE SINGH *v.* KOMUL ROY **10 W. R. 119**

8. ——— In order to sustain a claim for pre-emption in Mahomedan law, it is essential that the ceremony of talab-i-mawasabat should be properly performed. JARFAN KHAN *v.* JABBAR MEAH . . **I. L. R. 10 Calc. 383**

9. ——— *Necessity of immediate claim.* Under Mahomedan law, the "talab-i-mawasabat," or immediate claim to the right of pre-emption, should be made as soon as the fact of the sale is known to the claimant, otherwise the right is lost; and it was consequently *held*, that the plaintiff, having failed to make the "talab-i-mawasabat" until twelve hours after the fact of the sale became known to him, had lost his right of pre-emption. ALI MUHAMMAD *v.* TAJ MUHAMMAD **I. L. R. 1 All. 283**

10. ——— *Delay in making claim.* On hearing of a sale, the pre-emptor must immediately make his demand called talab-i-mawasabat. Where a pre-emptor, on hearing of the sale of a property to which he had a right of pre-emption, went to the property in dispute and there declared his right as pre-emptor:—*Held*, that such delay was fatal to his claim. RAM CHARAN *v.* NARBIR MAHTON **4 B. L. R. A. C. 216: 13 W. R. 259**

11. ——— *Omission to give notice of claim until after lapse of long time—Long deferred demand.* A sale of property, to which the Mahomedan law of pre-emption was applicable, took place in October 1884. The plaintiff pre-emptor and his agent became aware of the sale shortly after it took place, and many months prior to July 1885. He did not allege that he had given notice that he claimed to exercise his right of pre-emption before July 1885. It was found as a fact that no such notice was given: *Held*, that, even if such notice was given, it was too late, and was not a prompt demand in accordance with the Mahomedan law. MUHAMMAD WILAYAT ALI KHAN *v.* ABDUL RAB . . **I. L. R. 11 All. 108**

12. ——— *Want of proof of required ceremonies—Wajib-ul-arz—Custom—Immediate and confirmatory demands.* The wajib-ul-arz of a village gave a right of pre-emption "according to the usage of the country." In a suit for pre-emption there was no evidence to show what in fact, was the usage prevailing in the district in regard to pre-emption. There was no evidence that the plaintiff had satisfied the requirements of the Mahomedan law as to immediate and confirmatory demands, or that there was any custom which absolved him from compliance with those requirements, or that he was at any time willing to pay the actual contract price: *Held*, that in the absence of evidence of any special custom different from, or not co-extensive with, the Mahomedan law of pre-emption, that law must be applied to the case and that, under the circumstances above stated the suit failed and must be dismissed. *Fakir Rawot* v. *Emambakhsh, B. L. R. Sup. Vol. 3; Choudhry Brij Lall* v. *Gour Sahai, Agra F. B. 128* and *Jai Kuar* v. *Hira Lal, 7 N.W. 1*, referred to. RAM PRASAD *v.* ABDUL KARIM **I. L. R. 9 All. 57**

13. ——— *Time taken ascertain if information of sale is correct.* According to the Mahomedan law, the mere fact of the pre-emptor taking a short time before performance of the talab-i-mawasabat for ascertaining whether the information conveyed to him was correct or not does not invalidate his right. The Mahomedan law allows a short time for reflection before performance of the first demand. AMJAD HOSEIN *v.* KHAR SEN SAHU **4 B. L. R. A. C. 203: 13 W. R. 2[illegible]**

14. ——— *Making claim standing or sitting.* The act of a claimant rising from his seat to claim his right of pre-emption instead of claiming it as he sat, is not a delay sufficient to entail a forfeiture of his right. MAHAB SINGH *v.* LALLAH BHUCHOOK LALL **W. R. 1864, 21**

15. ——— *Witnesses, necessity of.* Although, according to Mahomedan law books, it is not necessary, in respect to the talab-i-mawasabat, or first preliminary required to establish a right of pre-emption, that witnesses should hear the exclamation it involves, yet it does not follow that, as matter of evidence, Courts of law are bound to decree a suit to establish such a right

16. ——— **Talab-i-ishtahad**—*Necessity of proof of performance.* To establish a claim to pre-emption under the Mahomedan law it is not enough to prove that the ceremony of talab-i-mawasabat was performed; it is also necessary to prove the talab-i-ishtahad. NARBHASE SINGH *v.* LUCHMEE NARAIN POOREE . . . **11 W. R. 307**

18. ——— *Necessity of proof of performance.* Under the Mahomedan law, it is essential to the right of pre-emption to prove the performance of the talab-i-ishtahad. BHOWANEE DUTT *v.* LOKHOO SINGH . **W. R. 1864, 60**

20. ——— *Mode or form of ceremony—Talab-i-mawasabat.* To establish a right of pre-emption, it is necessary to show that the ceremony of talab-i-ishtahad has been observed, which requires the pre-emptor to make an affirmation not necessarily in the precise words of the form given in the Hedaya, but in substance to the effect of declaring, before witnesses, that the earlier preliminary—*viz.*, talab-i-mawasabat—has already been performed. GIRDHAREE SINGH *v.* POJUN SINGH . . . **24 W. R. 462**

22. ——— *Requisites for ceremony—Declaration and invocation of witnesses.* According to the Mahomedan law, strict adherence to the rules for the performance of the talab-i-ishtahad is specially necessary. In performing the talab-i-ishtahad, the pre-emptor must clearly declare his right and invoke witnesses. He must declare that "he has a right of pre-emption to which he has laid claim and that he still claims it," and invokes witnesses "to bear witness therefore to the fact." 25. ——— *Performance in presence of person in possession, vendor or purchaser.* To establish the right of pre-emption, the talab-i-ishtahad, or affirmation before witnesses, must be performed in the presence of the person in possession of the lands, whether it be the vendor or the purchaser. CHAMROO PASBAN *v.* PUHLWAN ROY . . . . . **16 W. R. 3**

26. ——— *Omission to invoke witnesses—Talab-i-mawasabat—Ceremonies of "immediate demand," and "demand with invocation."* A person claiming a right of pre-emption made the talab-i-mawasabat in the presence of witnesses, but when doing so was neither at the place, the subject of the right of pre-emption, nor was he in the presence of the vendor or vendee: *Held*, on second appeal, that the lower Appellate Court having found that the talab-i-ishtahad was invalid on the ground that there was no evidence of a demand with invocation of witnesses having been made, the right of pre-emption could not be claimed. JADUNUNDUN SINGH *v.* DULPUT SINGH **I. L. R. 10 Calc. 581**

27. ——— *Mode of invocation of witnesses.* In a suit to establish the right of pre-emption, where the witnesses said that on the refusal of the vendor the pre-emptor had nominated them witnesses, the lower Courts were held to have been justified in their inference that he had complied with the exigency of the Mahomedan law. The principle of the law of pre-emption is that the pre-emptor should assert his right as soon as he has heard of the sale; that he should demand his right from the vendor or purchaser, or on the ground, in the presence of witnesses; and this assertion and demand may be simultaneous; but if they are not, the pre-emptor, when he makes the demand, is required to make a declaration before witnesses that he asserted his right when first he heard of the sale. 37. ——————— *Necessity of immediate demand.* To entitle a person to a right of pre-emption under Mahomedan law, it must be shown that the talab-i-ishtabad was made as soon as possible. NURADDIN MAHOMED *v.* ASGAR ALI **12 C. L. R. 312**

38. ——————— *Necessity of immediate demand.* It is not a binding rule of law that the talab-i-ishtahad by a pre-emptor, if made within a day after the receipt of intelligence of the purchase, is necessarily in time for the preservation of the right of pre-emption. The due and sufficient observance of the formality of talab-i-ishtahad as to time is a question to be decided in each case by the court which has to deal with the facts. R. F. B. 143*, followed. Champaran has from the earliest times been included as one of the districts forming the Subah of Bihar, and as a judicial district it has all along, till quite lately, been united with Saran, in which the existence of the custom of pre-emption has been judicially recognized. *Meethun Lal* v. *Deo Murat, 6 Sel. Rep. 197*, referred to. When the existence of the custom, under which Hindus have the same right of pre-emption under the Mahomedan law as Mahomedans in any district, is generally known and judicially recognised, it is not necessary to assert or prove it. *Fukeer Rawot* v. *Sheikh Emambuksh, W. R. F. B. 143*, explained. There must be no delay in the assertion of the claim of pre-emption of *talab-i-mawasibat*, but before the *shafee* or pre-emptor can assert his right to pre-emption, he must be satisfied by evidence, which he holds to be credible, that a sale has been completed. *Muhammad Wilayat Ali Khan* v. *Abdul Rab, I. L. R. 11 All. 108*, distinguished, and *Begam* v. *Muhammad Yakub, I. L. R. 16 All. 344*, followed. Under the Mahomedan law, before it can be held that the sale is complete, there must be a cessation of the vendor's right in the property, and the solution of this matter is to be found in determining in each case what the intention of the parties was. *Ladun* v. *Bhyro Ram, 8 W. There is no fixed time within which the *talab-i-ishtishad* should be performed, and it is a question of fact for the Court to determine, whether it was done within due time. *Jumeelun* v. *Luteef Hossein, 16 W. R. F. B. 13*, followed. The performance of the *talab-i-ishtishad* is not meant to be done for the information of the vendor or vendee, though no doubt its effect may be to give them information. The formality is insisted on with the object of securing evidence that the pre-emptor has really asserted his right and because evidence is wanted in order to establish proof before the Magistrate, and, unlil the *talab-i-mawasibat* it must be performed in tl presence of witnesses. *Rujjub Ali Chopedar* v. *Chundi Churn Bhadra, I. NUNDO PERSHAD THAKUR *v.* GOPAL THAKUR . **I. L. R. 10 Calc. 1008**

5. ——————— *Lien of vendor.* The right of the first purchaser is simply a vendor's lien,—*i.e.*, to retain the property until he has the money from the party claiming pre-emption. It is no part of the Mahomedan law that the claimant of a right of pre-emption must carry the money in his hands and tender it to the first purchaser. A right of pre-emption may be decreed in respect of land within the patti of the party claiming such right. BULBOOD SINGH *v.* MAHADEO DUTT . **2 W. R. 10**

6. ——— ——— *Conclusion of contract of sale.* As soon as a contract is ratified by acceptance and the vendor has gone so far that he cannot legally draw back, it is time for the pre-emptor to step in. A pre-emptor is not required to tender the purchaser's price, or any price, at the time of making his demand ; and so long as a party claiming a right of shuffa pays the amount which the Court considers to be the proper price, he brings himself in Court within a reasonable time. P. and Assam Civil Courts Act (XII of 1887), s. 37—Pre-emption on basis of contract or custom.* In a suit for pre-emption based on the wajib-ul-urz of a village, the plaintiff pre-emptor did not ask for a declaration that he was entitled to be treated as a purchaser from the date of the sale to the vendees-defendants, nor that he was entitled to the rents and profits as from the date of the sale, nor did he ask for mesne profits. The decree in his favour did not grant him any such relief. The wajib-ul-urz was silent as to whether the purchaser or the pre-emptor was entitled to the profits accruing subsequently to the date of the sale being avoided :—*Held* by the Full Bench, that the decree merely avoided the sale and divested the original owners of all interest in the property as from the date when the decree became final by the payment, in accordance with its terms, by the pre-emptor of the pre-emptive price decreed, and vested in the pre-emptor the rights of ownership from that date and his rights were not postponed until he had obtained possession of the property. *Held*, also, that the profits of the property which accrued between the date of the sale and the date when the pre-emptor, in accordance with the decree, paid the decreed pre-emptive price, belonged not to the pre-emptor nor to the original vendor, but to the original vendees. *Held*, by MAHMOOD, *J.*, that the vendees-defendants were entitled to the profits accruing up to the date when the pre-emptor acquired possession of the property in accordance with the terms of the decree. Observations by MAHMOOD, *J.*, upon the texts of the Mahomedan law applicable to the case by way of analogy ; upon the contention that there is a Hindu law of pre-emption applicable to Hindus, under s. 37 of the Bengal Civil Courts Act (XII of 1887) ; and upon the relation of the Mahomedan law to cases in which pre-emption is claimed on the basis of contract or custom embodied in the wajib-ul-urz of a village. MAHOMEDAN LAW—PRESUMPTION OF DEATH.

1. ——— **Missing person**—*Evidence Act (I of 1872), s. 108—Act VI of 1871, s. 24.* The rule contained in s. 108 of the Evidence Act governs the case of a Mahomedan who has been missing for more than seven years, when the question of his death arises in cases to which, under the provisions of s. 24 of Act VI of 1871 (Bengal Civil Courts Act), the Mahomedan law is applicable. *Per* MAHMOOD, *J.*—The rule of the Mahomedan law that a missing person is to be regarded as alive till the lapse of ninety years from the date of his birth, is, according to the most authoritative texts of the Mahomedan law itself, a rule of evidence and not of "succession, inheritance, marriage, or caste, or any religious usage or institution," within the meaning of s. 24 of Act VI of 1871. MAZHAR ALI *v.* BUDH SINGH **I. L. R. 7 All. 297**

2. ——— *Right of inheritance. Held*, that, as under the Mahomedan law a missing person is considered "defunct" as regards others' property, and cannot inherit from others during the period allowed for his reappearance, the plaintiff, his son, and nearest relative of the widow, was entitled to get the money claimed, it being compensation for land which had been found to belong to her exclusively, and not as having descended from her husband. IMAM ALI KHAN *v.* ABDUL ALI KHAN . . . . . **2 Agra 28**

3. ——— *Position of, as to inheritance during absence—Person in unlawful possession—Legal heir. Held*, that, assuming the Mahomedan law to provide that the share of a missing person, which has devolved on him during his absence, is to be reserved or held in suspense until the expiration of the term after which he is to be regarded as dead, a claimant who had no title whatsoever to possession could not benefit by such provision of Mahomedan law in face of the person who would be the legal heir failing the missing person, and the possession of such unlawful holder can be disturbed by such legal heir. up a mokurari, and pleaded that as ninety years had not elapsed since the disappearance of the proprietor the property could not, under Mahomedan law, be inherited by his heirs, and the alienation by them was therefore invalid :—*Held*, that, as plaintiff had been found in possession under the conveyance from the heirs, who did not dispute his title, the defendant, a stranger, who had failed to prove either title or possession under the mokurari which he set up, was not in a position to advance the plea in question. *Held*, also, that ninety years is the least period within which, according to Mahomedan law, the estate of a missing person can be alienated by his heirs. HOSSEINEE KHANUM *v.* TIJUN LALL **14 W. R. 29**

5. ——— *Alienation of property by his heirs—Claim of other heirs.* A claim by the wife and daughters of a missing person to obtain possession of the shares to which the missing person would have been entitled in the estate of two brothers and a sister on surviving them, was rightly dismissed, under Mahomedan law, on the ground that the death of the missing person was not proved, and ninety years had not elapsed from his birth. A sale of the shares by *R*, the brother of the missing person, who was in possession, was properly declared null and void. As *R* would have excluded the wife and daughters of the missing person from inheritance, it was held that he should be allowed to retain the shares in his hands, subject to their surrender on the reappearance of the missing person. J.*, that, according to Mahomedan law ninety years not having elapsed from *F*'s birth, his share could not be claimed by the plaintiffs, but must remain in abeyance until the expiry of that period or his death was proved. *Held* by PEARSON *J.*, and SPANKIE, *J.*, that *F* being a "missing" person when his parents died, his daughter, according to that law, was not entitled to hold his share either as heir or trustee. ——————— *Creation of vested remainder by a Mahomedan—Spes successionis—Creation of life-interest amongst Shias allowed.* It is possible for a Mahomedan to create a definite interest like what would be called in English law a vested remainder, and such a remainder, though liable to be displaced, is not a mere expectancy in succession by survivorship or other merely contingent or possible right or interest, but an interest that could be attached and sold. *Umes Chunder Sircar* v. *Mussummat Zahoor Fatima, L. Amongst Shias the creation of a life-interest is allowed, and it appears according to Shia authorities that during the period of the life-interest the deferred interest can be dealt with by way of sale, gift, and otherwise, provided that there is no interference with the particular estate, and it would seem to follow that the purchaser or donee could deal with the interest so acquired by him. 1. ——————— *Trust—Will—Reference to trust deed in will for the purpose of confirming it—Testamentary document—Trustee de son tort—Express trustee—Liability to account—Limitation Act (XV of 1877), s. 10.* Under the Mahomedan law possession is as necessary in the case of trusts as in the case of gifts—not necessarily direct possession of the premises, but the best possession of which the property is capable at the time, either actual, symbolical or constructive. Where a trust deed is referred to in a will with a view of confirming it, it is confirmed and becomes part of the will. If express trusts are created by deed or will and some third party takes upon himself the administration of the trust property he becomes a trustee *de son tort* and, as such, is bound to account as if he were the rightful trustee and limitation will not run in his favour under s. 10 of the Limitation Act (XV of 1877). 9. ——— *Wajib-ul-arz—nstruction of document—Custom or contract.* In suit for pre-emption two *wajib-ul-arz* were relied on. The earlier *wajib-ul-arz* of the year 1864 ovided that "If a sharer desires to transfer his are, the first right of pre-emption is possessed by a near brother, next by the sharers in the patti d next by the sharers in other pattis, and when these have declined to take a transfer the sharer ay sell to any one he likes." The latter *wajib-arz* of the year 1884 under the head, "custom as pre-emption" provided that "no such case has yet occurred: but we acknowledge the right of e-emption." *Held*, that the *wajib-ul-arz* of 1864 s evidence of the existence of a right existing custom and the provision in the latter was a ognition by the parties of the custom prevailing der the earlier *wajib-ul-arz. M.* was copied verbatim from the wajib-ul-arz of the village before division and clearly put *hissadaran deh* and *hissadaran patti* on the same footing:—*Held*, that a co-sharer in the mahal of *A.M.* had no right of pre-emption in regard to property sold in *A. 11. ——— *Wajib-ul-arz—Inference from entry in previous wajib-ul-arz—Mahomedan Law.* A village wajib-ul-arz, prepared in the year 1883, contained only the following entry with reference to pre-emption:— "Custom of pre-emption:—No pre-emption suit has been instituted, but the custom of pre-emption is accepted." But the wajib-ul-arz of the same village, prepared in 1864, was more explicit. It ran as follows:— "Mention of the right of pre-emption:—When it is desired to transfer a share, the heirs and near brethren have the right first. On their refusal to take, the transferor is competent to sell, mortgage or assign to any one he likes:"—*Held*, that in the wajib-ul-arz of 1883 the villagers intended to reproduce—and understood they were in fact reproducing—the custom of pre-emption that prevailed in 1864: that therefore the provisions of the Mahomedan law were not applicable. POKHAR SING *v.* HUSAIN KHAN (1906)

12 ——— *Wajib-ul-arz—Construction of document—"Shurkayan-i-shikmi."* The wajib-ul-arz of a village (Kandla) in the Muzaffarnagar district gave a right of pre-emption, first to *shikmi* co-sharer (*Shurkayan-i-shikmi*), secondly, to share-holders descended from a common ancestor (*Shurkayan-i-jaddi*), and thirdly, to *khewatdars* in the mahal (*Khewatdaran-i-mahal*). The mahal was divided into seven *pattis* and the land in dispute was situated in *patti* Khail, *thok* Bhuria. The pre-emptors were co-sharers in *patti* Khail. One of the vendees was a co-sharer in the mahal, but not in *patti* Khail. *Held*, that, regarding the whole context of the wajib-ul-arz, the expression *shurkayan-i-shikmi* was intended to denote relatives by blood and not co-sharers in any sub-division of the mahal, and the plaintiffs were not therefore entitled to pre-emption. The *khalsa* subsequently came to have more owners than one :—*Held*, that no right of pre-emption was given by this wajib-ul-arz to the owners of the *khalsa inter se*, but that a sale of a share in the *khalsa* was subject to the Muhammadan law of pre-emption, and this irrespective of the fact that the vendee was a Hindu. *Gobind Dayal* v. *Inayatullah, I. Amongst the subsequent provisions were certain provisions relating to the right of pre-emption. In a later wajib-ul-arz of 1890 no mention was made of any custom of pre-emption, but it contained these words : "For the remaining village customs see the Wajib-ul-arz prepared in 1867." *Held*, that the Wajib-ul-arz of 1867 recorded a contract and not a custom, and that the rights conferred by it would not be perpetuated by the incorporation in the later wajib-ul-arz of the customs existing in the village. 15. ——— **Form of will**—*Nuncupative will—Evidence of will.* The rule that by Mahomedan law a will does not require to be in writing is universal. The omission to write the wish, where there was ample time for that purpose, may throw doubt on the fact of the words being used as the expression of the testator's last will. But if the Court finds that the testator expressed his will, and that this was his last will, the omission to render it into writing will not deprive it of legal effect. 25. ——— *Administration of the estate of a Shiah Mahomedan under his will—Alleged gift—Claims as between his childless widow and the estate—Right of childless widow to maintenance—Legacies chargeable on one-third only of the estate—Commission to executor.* A Mahomedan of the Shiah sect, dying without issue, left a widow. She as his childless widow was entitled to one-fourth of his estate other than land. In the administration of his estate the following matters arose and were decided. The handing over, with formal words of gift by the testator to the widow, of deposit receipts, with intent afterwards to transfer the money into her name at the bank, which transfer was not effected, would not constitute a gift. A commission of three per cent. on the proceeds of the sale of the testator's property, directed by his will, was bequeathed to the executor. This was by way of remuneration, but was in no sense a debt. As a legacy, it was payable only out of one-third of the estate which passed by the will. A Mahomedan widow is not entitled to maintenance out of the estate of her late husband, in addition to what she is entitled to by inheritance or under his will. *Hedaya, Book IV, Ch. 15, s. 3, Mahomedan law, Imamia, by N. E. Baillie, p. 170*, referred to. No contract could be implied that this widow should pay an occupation rent on account of her having continued to occupy a house belonging to the testator's estate for eleven months after his death. Her occupation was referable to her position, and no notice was given to her that rent would be charged. A Mahomedan childless widow is not by Shiah law entitled to share in the value of land forming the site of buildings that belonged to her husband's estate. Her one-fourth includes, as was admitted, a share in the proceeds of sale of the buildings. The text quoted in Book VII, C. IV, p. 293, of Baillie's Mahomedan Law, Imamia, is not to be construed as referring only to agricultural land. AGA MAHOMED JAFFER BINDANIM *v.* KOOLSOM BIBEE. 26. ——— *Construction of the will of a talukhdar—Quantity of estate devised—Unlimited gift of share of profits in a talukhdari estate under Oude Estates' Act I of 1869.* The will of a talukhdar, who left daughters, declared that in respect of his estate, in its entirety and without division, the engagement for the revenue should be in the name of his eldest daughter's son and so continue. Besides this grandson, another, the son of his second daughter, as well as two other daughters of the testator, were to be equal sharers entitled to the profits of the estate. Of this estate the will said, "The profits may be divided equally among all the four persons." The talukh had been included in the first and third of the lists prepared in conformity with the Oude Estates Act, 1869. On a question whether under the will the son of the second daughter took a heritable interest, or only a life-estate, to which it was argued the gift was confined by reason of its being only of the profits :—*Held*, that, in order to show that an unlimited gift of the profits was less than a gift of the corpus, some evidence should be found in the context, or in the circumstances affecting the property, tending to show restriction of the interest given. No such evidence having been found here, the interest given

Upon a summons, charging that the defendant, having sufficient means, had refused to maintain his child by his nika wife, whom he had subsequently divorced, the Magistrate found that the marriage had not been proved, but that upon the other evidence adduced including the similarity of the features and the name of the child with those of the defendant, who did not appear before him during the proceedings, but with whom he stated that he was well acquainted, the child was the illegitimate child of the defendant. He accordingly made an order for maintenance under the section: *Held*, that, under the circumstances, he was wrong in taking into account the similarity of the names and the features of the child and the defendant, but as there was ample evidence of the paternity, he was justified in making the order he did, as it was immaterial for the purpose of determining the liability of the defendant to maintain the child, whether the mother had been married to the defendant or not. The complainant claimed maintenance from her husband, *G*, under s. 488 of the Code of Criminal Procedure. In the course of the proceedings *G* pleaded that his marriage with the complainant was not valid according to Hindu law, but offered to maintain her in his house, as he had hitherto done. The husband did not refuse to maintain his wife, but the petitioner refused to live with him, as he kept a concubine: *Held*, that the word "adultery" in s. 488 of the Criminal Procedure Code must, by virtue of s. 4 of the Code, be construed with reference to the definition of the term in s. 497 of the Penal Code. Consequently a husband's immorality, which does not amount to "adultery" or involve the degradation of a married woman being brought into the society of a concubine, is not sufficient ground for a wife's refusal to live with her husband. An offer to maintain a wife must be an offer to maintain with the consideration due to her position as a wife. *Marakkal v. Kandappa, I. L. R. 6 Mad. 371,* cited. *Per* BEST, *J.*—It is very doubtful if the framers of s. 488 of the Code of Criminal Procedure intended the word "adultery" as used therein to have the limited meaning given to it in the Penal Code. The wrong done to the wife is in no way affected by the circumstance of her husband's concubine being married or unmarried, or, in case of her being married, whether it is with or without her husband's consent or collusion that she is living in such concubinage. In face, however, of s. 4 of the Criminal Procedure Code, no other interpretation of the term "adultery" is possible than the limited interpretation contained in the Penal Code. QUEEN-EMPRESS v. 56. ——— ——— *Criminal Procedure Code (1882), s. 488—Breach of order for monthly allowance—Sentence absolute—Husband and wife.* A wife, who had obtained an order for maintenance against her husband on the 1st August applied to have it enforced with respect to three months then in arrears. A distress warrant having issued without anything being realized, the husband was brought up under a warrant for his arrest. The husband, previous to his arrest, petitioned the Court to be allowed to prove his altered circumstances and his inability to pay. On that petition an order was passed that he could produce the evidence after the amount due was paid. On being brought up, and not paying the amount due, an order was made committing him for one month under s. 488 of the Code of Criminal Procedure. The day following his commitment his brother tendered the money and asked for his release. The Magistrate took the money, but refused to order the release, holding that under the section the punishment of imprisonment was absolute and not dependent on payment of the maintenance allowance. The husband moved the High Court, contending (i) that the order of imprisonment should not have been passed without an opportunity being given him of proving the change in his circumstances which would show that the order to pay required modification ; (ii) that the section did not authorize imprisonment unless wilful neglect to comply with the order be proved ; and (iii) that the imprisonment authorized by the section being only a mode of enforcing payment, he should have been released on the amount being paid : *Held*, that the first ground was untenable, inasmuch as the order for maintenance carries with it all its proper consequences as long as it remains in force. *Held* also, that, before an order for imprisonment under the section can be passed, it must be proved that the non-payment of the maintenance is the result of wilful negligence, and that there being no evidence of that in the case, the order was bad. *Held*, further, that the imprisonment which can be awarded under the section is not a punishment for contempt of the Court's order, but merely a means of enforcing payment of the amount due, and that, upon the payment of that amount being made, the husband

MAJORITY ACT (IX OF 1875)—*contd.*

——— s. 3—*contd.*

The Act provides, in terms, for such an appointment being made, and no certificate of appointment is contemplated by the Act on the language of which it is plain that the appointment of a guardian of the person is complete on the order of the Court being made appointing him. The plaintiff's mother *G* died in 1866 possessed of property which she had inherited from her husband. The plaintiff, who was born in 1858, was then a minor of the age for eight years. In 1867 the plaintiff's maternal grandfather obtained a certificate of administration. On his death an order of Court was made on the 21st March 1873, appointing the nazir of the Court administrator of the property and the plaintiff's mother-in-law the guardian of the person of the plaintiff, but no fresh certificate of administration was granted. In 1880 the plaintiff brought the present suit against the defendants to recover from them the property left by her mother. The defendants contended, *inter alia*, that the plaintiff had attained her majority in 1874, when she arrived at the age of sixteen, and that the suit was therefore barred by limitation. The plaintiff, on the other hand, contended that the Indian Majority Act (IX of 1875) was applicable, and that under its provisions she did not attain majority until she was twenty-one, *i.e.*, until the year 1879, and that the present suit was therefore in time :—*Held*, that the suit was not barred by limitation. The Indian Majority Act (IX of 1875) was applicable (except so far as its operation was excluded by s. 2), inasmuch as there was a guardian of the person of the plaintiff in existence both when she arrived at the age of sixteen and also when she was eighteen, and therefore the period of minority for her was extended to twenty-one years of age. *Quere :* Whether the fact that a guardian has been at one time appointed is sufficient to bring the case within s. 3 of the Indian Majority Act (IX of 1875) so as to extend the period of minority to the age of twenty-one. The intention of the Legislature to be gathered from s. 3 would appear to be to extend minority to twenty-one years of age in cases where, at the time the minor reaches the age of eighteen, his person or property is in the hands of a guardian. Act IX of 1879), ss. 7-11, 20, 65.* In a suit to recover money due upon certain promissory notes executed between the 14th December 1885 and the 16th March 1886, the defendant pleaded (*inter alia*) minority, and alleged that by an order of the Civil Court the Collector had been appointed his guardian and manager of his estate under Act XL of 1858 ; that on the 6th December, when he was nineteen years of age, his estate had been released by the Court of Wards and was made over to his father on the 17th December ; that on the 30th December the District Judge held that he was still a minor, and appointed a manager of his estate ; and that the District Judge's order had been upheld on appeal by the High Court :—*Held*, that there was no evidence that a guardian of the person or property of the defendant had ever been appointed within the meaning of s. 3 of the Indian Majority Act (IX of 1875), and as the defendant was not under the jurisdiction of the Court of Wards at the time of the execution of the promissory notes he was then no longer a minor, but *sui juris* and competent to enter into a binding contract. *Held*, that the Collector is not a Court of Justice within the meaning of s. 3 of the Majority Act. A Collector appointed under s. 12 of Act XL of 1858 cannot properly be styled the guardian of a minor's property. *Held*, that under s. 3 of the Majority Act the disability of minority only continues so long as the Court of Wards retains charge of a minor's property and no longer. *Rudra Prokash Misser* v. *Bhola Nath Mookerjee, I. Eight years previously, *viz.*, on the 4th March 1884, a guardian of his person and property had been appointed by an order of the High Court, but the guardian had been discharged on the 25th June 1892, and at the time of the execution of the note sued on there was no guardian in existence either of his person or property :—*Held*, that, having regard to the provisions of s. 3 of the Indian Majority Act (IX of 1875), the defendant was still a minor at the date of the note. 18. ——— **European British subject.** The defendant was, at the time of making a promissory note, of the age of ninteen years. The evidence showed that her father was born at sea, and lived the greater part of his life at Calcutta. It was not shown of what country his parents were, or whether the ship in which he was born was a British ship. The defendant pleaded minority at the time of making the note:—*Held*, that the defendant was not a European British subject, and not exempted from the operation of Act XL of 1858. She therefore attained her majority at eighteen years. Archer *v.* Watkins . . **8 B. L. R. 372**

19. ——— **European British subject**—*Law governing capacity to contract.* The *lex loci contractus* determines the capacity of a person to contract, and reference ought not to be made to the law of his domicile of origin. The privileges and disabilities of minority, so far as they are not removed by express enactment, attach to European British subjects in this country until they have attained the age of twenty-one years. The same rule ought, on principles of justice, equity, and good conscience, to be observed in the Non-Regulation as in the Regulation Provinces. Hearsey *v.* Girdharee Lal . . . . . **3 N. W. 338**
